

# **World TB Day 2018**

## **Dr. Jonathan Mermin discusses TB elimination**

“Through our shared commitment with health departments and health care providers, I am optimistic that there will be a day when there are very few new infections and no more deaths from TB. With help from many partners, we can confine TB to the pages of history and make TB elimination a reality.” - Dr. Jonathan Mermin, Director of CDC’s National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention
