

Program Collaboration and Service Integration

Training, policies, guidelines for transformation

- NCHHSTP acknowledges that successful implementation of PCSI will require ongoing training and support for prevention workers in a variety of health care settings over sustained periods.
- In addition to providing clear recommendations and expectations for PCSI, NCHHSTP is committed to supporting state and local programs in PCSI through:
 - Work with Prevention Training Centers
 - Using new technologies (e.g. Internet, blogs, listserves)
 - Partnering with professional agencies
 - Producing integrated guidelines
 - Supporting ongoing dialogue and information exchange
 - Share progress data on PCSI implementation
 - Change NCHHSTP grants and cooperative agreements
