If your practice were to see a woman between 30 and 60 years of age with a **CURRENT NORMAL** screening Pap test result, when would this clinic (given the following prior Pap test history and **CURRENT HPV DNA test result**) routinely recommend that she get her next Pap test?

| Prior Pap test results in past 5 years (excluding current normal results) | Current HPV DNA test results | No follow-up needed | Less than 6 months | 6 months to less than 1 year | 1 year | 2 years | 3 years or more | Have no experience with this type of patient or test |
|---|---|---|---|---|---|---|---|---|---|
| (a) Two Consecutive Normal Pap tests | Has not had test | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ |
| (b) Two Consecutive Normal Pap tests | Negative | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ |
| (c) Two Consecutive Normal Pap tests | Positive | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ |
| (d) Has not had a Pap test | Negative | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ |
| (e) Has not had a Pap test | Positive | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ |
| (f) Abnormal Pap test | Negative | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ |
| (g) Abnormal Pap test | Positive | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ | ☐ |

**BACKGROUND INFORMATION**

This year the Centers for Disease Control and Prevention is conducting a special survey on cervical cancer screening performed in community health centers and private office settings. Please answer the following questions. We appreciate your time on this important public health concern.

You have the option to complete this questionnaire on the Internet. Go to www.cdc.gov/namcs, select Cervical Cancer Supplement, enter the User ID and Password displayed, and follow the instructions.

**INTRODUCTION**

The Centers for Disease Control and Prevention (CDC) funds state health departments to provide breast and cervical cancer screening services to low income women through the National Breast and Cervical Cancer Early Detection Program (Title XV). The state health departments contract out the screening services to physicians and other health care providers. Is your practice currently participating in this state or national screening program?

- Yes
- No
- Unknown

For purposes of this survey, which of the following categories describe your profession? (Mark (X) only ONE.)

- Physician
- Physician assistant/Nurse practitioner/Nurse midwife
- Registered nurse
- Other office staff

**CLOSING STATEMENT**

Thank you for completing this special survey. We appreciate your time and cooperation.
2. Does your practice perform colposcopy?
   - [ ] Yes
   - [ ] No
   - [ ] Unknown

3a. Does your practice ever order or collect the Human Papillomavirus (HPV) DNA test?
   - [ ] Yes – Go to item 3b
   - [ ] No – SKIP to item 3c
   - [ ] Not aware of HPV DNA test - SKIP to item 7 on page 4
   - [ ] Unknown

b. Which of the following HPV DNA tests are ordered or collected in your practice?
   - [ ] High risk (HR) HPV DNA test
   - [ ] Low risk (LR) HPV DNA test
   - [ ] Not aware there was a high risk or low risk HPV DNA test
   - [ ] Unknown

   SKIP to item 4a

c. Why is the HPV DNA test not ordered or collected in your practice?
   - [ ] My practice does not see the types of patients for whom the HPV DNA test is indicated.
   - [ ] My patients in my practice have timely access to colposcopy.
   - [ ] Assessing patients' HPV infection status is not a priority at my practice.
   - [ ] The labs affiliated with my practice do not offer the HPV DNA test.
   - [ ] The health plans or health systems affiliated with my practice do not recommend the HPV DNA test.
   - [ ] The HPV DNA test is not a reimbursed or covered service for most patients in my practice.
   - [ ] Discussing cervical cancer screening in the context of an STD is avoided in my practice.
   - [ ] Notifying or counseling patients about positive HPV DNA test results would take too much time.
   - [ ] Notifying or counseling patients about positive HPV DNA test results might make clinicians in my practice feel uncomfortable.
   - [ ] Notifying or counseling patients about positive HPV DNA test results might make patients in my practice feel uncomfortable, angry, or upset.

   SKIP to item 7 on page 4.

4a. If a patient's screening Pap test result is borderline or abnormal, does your practice routinely order an HPV DNA test to be performed on that sample (commonly called reflex HPV DNA testing)? (An HPV DNA test may be run on the same liquid-based medium as the screening Pap test or an HPV DNA test specimen may be collected at the same time as the conventional Pap test.)
   - [ ] Yes – Go to item 4b
   - [ ] No
   - [ ] Unknown

   SKIP to item 5a on page 3

4b. For which abnormal or borderline Pap test result would your practice order or collect an HPV DNA test?
   (Mark [X] all that apply.)
   - [ ] ASC-US (atypical squamous cells of undetermined significance)
   - [ ] ASC-H (atypical squamous cells of undetermined significance – cannot exclude high-grade intraepithelial lesion)
   - [ ] LSIL (low-grade squamous intraepithelial lesion, encompassing mild dysplasia/CIN1)
   - [ ] HSIL (high-grade squamous intraepithelial lesion, moderate dysplasia/CIN2, severe dysplasia/CIN3, and carcinoma in situ)
   - [ ] AGC (atypical glandular cells)

5a. Does your practice routinely recall patients to come back for a second sample collection for an HPV DNA test if their screening Pap test is abnormal or borderline (recall testing)?
   - [ ] Yes – Go to item 5b
   - [ ] No
   - [ ] Unknown

   SKIP to item 6a

b. For which abnormal or borderline Pap test result would your practice recall a patient for an HPV DNA test?
   (Mark [X] all that apply.)
   - [ ] Women under 30 years old
   - [ ] Women 30 years old and over
   - [ ] Other – Specify

   SKIP to item 7 on page 4

6a. Does your practice routinely order or collect an HPV DNA test at the same time as the Pap test as part of routine cervical cancer screening (sometimes called adjunct HPV testing or cotesting)?
   - [ ] Yes – Go to item 6b
   - [ ] No
   - [ ] Unknown

   SKIP to item 7 on page 4

b. For which patients does your practice routinely order or collect an HPV DNA test along with the Pap test?
   (Mark [X] all that apply.)
   - [ ] Women under 30 years old
   - [ ] Women 30 years old and over
   - [ ] Women who request the test for cervical cancer screening
   - [ ] Women who request the test to check their HPV infection status
   - [ ] Other – Specify

2. Does your practice perform colposcopy?
- Yes
- No
- Unknown

3a. Does your practice ever order or collect the Human Papillomavirus (HPV) DNA test?
- Yes – Go to item 3b
- No – SKIP to item 3c
- Not aware of HPV DNA test
- Unknown

3b. Which of the following HPV DNA tests are ordered or collected in your practice?
- High risk (HR) HPV DNA test
- Low risk (LR) HPV DNA test
- Not aware there was a high risk or low risk HPV DNA test
- Unknown

3c. Why is the HPV DNA test not ordered or collected in your practice?
- My practice does not see the types of patients for whom the HPV DNA test is indicated.
- My patients in my practice have timely access to colposcopy.
- Assessing patients' HPV infection status is not a priority at my practice.
- The labs affiliated with my practice do not offer the HPV DNA test.
- The health plans or health systems affiliated with my practice do not recommend the HPV DNA test.
- The HPV DNA test is not a reimbursed or covered service for most patients in my practice.
- Discussing cervical cancer screening in the context of an STD is avoided in my practice.
- Notifying or counseling patients about positive HPV DNA test results would take too much time.
- Notifying or counseling patients about positive HPV DNA test results might make clinicians in my practice feel uncomfortable.
- Notifying or counseling patients about positive HPV DNA test results might make patients in my practice feel uncomfortable, angry, or upset.
- My practice does not see the types of patients for whom the HPV DNA test is indicated.
