# **National Ambulatory Medical Care Survey (NAMCS) and National Hospital Ambulatory Medical Care Survey (NHAMCS) List of Publications (05/18/2020)**

This list includes reports produced within the National Center for Health Statistics as well as journal articles and books using NAMCS and NHAMCS data. Selections are listed by topic in chronological order, beginning with the most recent in each section. NCHS reports comprise several different formats: *Advance Data from Vital Statistics* reports (ADR) are short summaries, generally not more than 32 pages in length. As of January 2008, this format became *National Health Statistics Reports* (NHSR). *Vital and Health Statistics Series* reports present detailed descriptive statistics. *Data Briefs* are a shorter NCHS report format, generally no more than 8 pages, that was initiated in 2007. Some overlap of topics will be apparent in certain articles.

NAMCS was conducted annually from 1973-1981, again in 1985, and has been an annual survey since 1989. NHAMCS was first conducted in 1992; publications summarizing those data can be found after the NAMCS listings.

### **1a. NCHS SUMMARY REPORTS AND DATA BRIEFS**

NOTE: Beginning with 2008 NAMCS data, the traditional summary reports are no longer available. Instead, short reports featuring new data focused on a particular topic are being published in the NCHS *Data Brief* series. Also available at the NAMCS/NHAMCS [website](#) are [web tables](#), starting with 2008 data, which include many of the tables previously published in the annual summary reports. The NCHS summary reports and data briefs cited below can be found [here](#).

### **1a. NCHS SUMMARY REPORTS and DATA BRIEFS**

NOTE: Beginning with 2008 NHAMCS data, the traditional summary reports are no longer available. Instead, short reports featuring new data focused on a particular topic are being published in the NCHS *Data Brief* series. Also available at the NAMCS/NHAMCS [website](#) are [web tables](#), starting with 2008 data, which include many of the tables previously published in the annual summary reports. The NCHS summary reports and data briefs cited below can be found [here](#).
