

Data Brief 249: Health Insurance Continuity and Health Care Access and Utilization, 2014

Data table for Figure 1. Percent distribution of adults aged 18–64 according to health insurance coverage status at the time of interview and the preceding year, by age group: United States, 2014

Insurance status and age	Estimate (95% confidence interval)	Standard error
Insured for more than a year		
Ages 18–64	78.1 (77.5–78.7)	0.30
Ages 18–44	73.9 (73.1–74.6)	0.39
Ages 45–64	83.9 (83.2–84.5)	0.33
Insured for a year or less		
Ages 18–64	6.4 (6.1–6.6)	0.14
Ages 18–44	7.3 (7.0–7.7)	0.18
Ages 45–64	5.1 (4.8–5.5)	0.18
Uninsured for a year or less		
Ages 18–64	3.2 (3.0–3.4)	0.09
Ages 18–44	4.2 (4.0–4.5)	0.14
Ages 45–64	1.8 (1.6–2.0)	0.10
Uninsured for more than a year		
Ages 18–64	12.3 (11.9–12.8)	0.24
Ages 18–44	14.6 (13.9–15.2)	0.33
Ages 45–64	9.3 (8.8–9.8)	0.26

NOTES: "Insured for more than a year" includes adults who were insured at the time of interview and had been insured for more than a year. "Insured for a year or less" includes adults who were insured at the time of interview but had a period of no insurance in the past year. "Uninsured for a year or less" includes adults who were uninsured at the time of interview but had a period of insurance in the past year. "Uninsured for more than a year" includes adults who were uninsured at the time of interview and had been uninsured for more than a year.
