¹ Linkage-eligible MEC participants who met criteria for data linkage. Details about linkage-eligibility for each survey is documented in the Analytic Guidelines.

² Linked MEC participants are linkage-eligible and linked to the administrative records at any time during the administrative period (HUD administrative records for Multifamily program transactions that occurred between June 30, 1996 and December 31, 2014; and Public Housing and Housing Choice Voucher transactions occurring between December 1, 1999 and December 31, 2014).

³ This percentage is calculated by dividing the number of linkage-eligible MEC participants by the total number of linkage-eligible MEC participants.
