1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.”
Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race.
Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates.]

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates)

1 Rank based on number of deaths.

Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates.]

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates.]

1 Rank based on number of deaths.
LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

--- Data not available

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates)

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates)

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates.]

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates.)

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates)

1 Rank based on number of deaths.
LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates)

1 Rank based on number of deaths.
LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates)

--- Data not available

1 Rank based on number of deaths.
LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates)

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

## LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates.)

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

† Rank based on number of deaths.

Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

1 Rank based on number of deaths.

Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates)

1 Rank based on number of deaths.
LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates)

1 Rank based on number of deaths.

### LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates.]

1 Rank based on number of deaths.
LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates].

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

1 Rank based on number of deaths.
LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for “all ages” include deaths for age “Under 1 year.” Figures for “age not stated” are included in “all ages” but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

1 Rank based on number of deaths.

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]

¹ Rank based on number of deaths.

Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

(Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates.)

1 Rank based on number of deaths.
LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and Hispanic origin, and sex: United States, 2015

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated by race; data for non-Hispanic persons are tabulated by race. Data for racial and ethnic groups other than non-Hispanic white and non-Hispanic black should be interpreted with caution because of misreporting of race and Hispanic origin on death certificates]
