LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and sex: United States, 2010

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys]

<sup>---</sup> Data not available

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and sex: United States, 2010

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys]

	Cause of linconsistencies between the reporting of race on death certificates and on censuses and surveys  Cause of death (based on the International Classification of Diseases,		Percent of total

<sup>---</sup> Data not available

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and sex: United States, 2010

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys]

<sup>...</sup> Category not applicable

<sup>---</sup> Data not available

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and sex: United States, 2010

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys]

<sup>&</sup>lt;sup>1</sup> Rank based on number of deaths.

<sup>\*</sup> Figure does not meet standards of reliability or precision

<sup>...</sup> Category not applicable

<sup>---</sup> Data not available

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and sex: United States, 2010

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys]

Number   deaths   Rate	Caution De	Cause of death (based on the International Classification of Diseases,		Percent of total	
All causes	Rank <sup>1</sup>		Number		Rate

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and sex: United States, 2010

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys]

<sup>---</sup> Data not available

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and sex: United States, 2010

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys]

Caution De	Cause of death (based on the International Classification of Diseases,		Percent of total	
Rank <sup>1</sup>	Tenth Revision, Second Edition, 2004), race, sex, and age	Number	deaths	Rate

<sup>---</sup> Data not available

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and sex: United States, 2010

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys]

Cause of death (based on the International Classification of Diseases, Rank   Tenth Revision, Second Edition, 2004), race, sex, and age	Caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys  Percent of		Percent of

<sup>---</sup> Data not available

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and sex: United States, 2010

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys]

LCWK1. Deaths, percent of total deaths, and death rates for the 15 leading causes of death in 5-year age groups, by race and sex: United States, 2010

[Rates per 100,000 population in specified group. Rates are not shown for age groups over 85 years. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys]

	Cause of death (based on the International Classification of Diseases,	Percent of total		
Rank <sup>1</sup>	Tenth Revision, Second Edition, 2004), race, sex, and age	Number	deaths	Rate
	Asian or Pacific Islander, female, 95-99 years			
	All causes	1,170	100.0	
1	Diseases of heart (I00-I09,I11,I13,I20-I51)	386	33.0	
2	Cerebrovascular diseases (I60-I69)	103	8.8	
3	Alzheimer's disease (G30)	84	7.2	
4	Malignant neoplasms (C00-C97)	66	5.6	
5	Influenza and pneumonia (J09-J18)	60	5.1	
6	Diabetes mellitus (E10-E14)	42	3.6	
7	Essential hypertension and hypertensive renal disease (I10,I12,I15)	37	3.2	
7	Chronic lower respiratory diseases (J40-J47)	37	3.2	
9	Nephritis, nephrotic syndrome and nephrosis (N00-N07,N17-N19,N25-N27)	26	2.2	
10	Accidents (unintentional injuries) (V01-X59,Y85-Y86)	21	1.8	
11	Pneumonitis due to solids and liquids (J69)	12	1.0
