1 Rank based on number of deaths

* Figure does not meet standards of reliability or precision

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys. The title of ICD-10 code J09 was amended in 2009 to reflect the inclusion of Influenza A/H1N1 pandemic 2009 [swine flu]. The new J09 title is Influenza due to certain identified influenza virus]

1 Rank based on number of deaths

* Figure does not meet standards of reliability or precision

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys. The title of ICD-10 code J09 was amended in 2009 to reflect the inclusion of Influenza A/H1N1 pandemic 2009 [swine flu]. The new J09 title is Influenza due to certain identified influenza virus]

1 Rank based on number of deaths

* Figure does not meet standards of reliability or precision

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys. The title of ICD-10 code J09 was amended in 2009 to reflect the inclusion of Influenza A/H1N1 pandemic 2009 [swine flu]. The new J09 title is Influenza due to certain identified influenza virus]

1 Rank based on number of deaths

* Figure does not meet standards of reliability or precision

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys. The title of ICD-10 code J09 was amended in 2009 to reflect the inclusion of Influenza A/H1N1 pandemic 2009 [swine flu]. The new J09 title is Influenza due to certain identified influenza virus]

1 Rank based on number of deaths

* Figure does not meet standards of reliability or precision

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys. The title of ICD-10 code J09 was amended in 2009 to reflect the inclusion of Influenza A/H1N1 pandemic 2009 [swine flu]. The new J09 title is Influenza due to certain identified influenza virus]

1 Rank based on number of deaths

* Figure does not meet standards of reliability or precision

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys. The title of ICD-10 code J09 was amended in 2009 to reflect the inclusion of Influenza A/H1N1 pandemic 2009 [swine flu]. The new J09 title is Influenza due to certain identified influenza virus]

1 Rank based on number of deaths

* Figure does not meet standards of reliability or precision

[Rates per 100,000 population in specified group. Rates for "all ages" include deaths for age "Under 1 year." Figures for "age not stated" are included in "all ages" but are not distributed among age groups. Data for races other than white and black should be interpreted with caution because of inconsistencies between the reporting of race on death certificates and on censuses and surveys. The title of ICD-10 code J09 was amended in 2009 to reflect the inclusion of Influenza A/H1N1 pandemic 2009 [swine flu]. The new J09 title is Influenza due to certain identified influenza virus]
