---Data not available.

A/Data not shown. Due to a change in reporting, data are not comparable to other years. See footnote 4.

¹Excludes live births with unknown birthweight. Percent based on live births with known birthweight. See Appendix II, Birthweight.

²Starting with 2003 data, estimates are not available for Asian or Pacific Islander subgroups during the transition from single-race to multiple-race reporting. See Appendix II, Race.

³Prior to 1993, data from states lacking an Hispanic-origin item on the birth certificate were excluded. See Appendix II, Hispanic origin.

Data for non-Hispanic white and non-Hispanic black women for years prior to 1989 are not nationally representative and are provided for comparison with Hispanic data.

⁴Percent based on live births with known smoking status of mother and known birthweight.

Only reporting areas that have implemented the 2003 Revision of the U.S. Standard Certificate of Live Birth are shown because maternal tobacco use data based on the 2003 revision are not comparable with data based on the 1989 or earlier revisions to the U.S. Standard Certificate of Live Birth.

Data are for the 21 reporting areas that used the 2003 Revision of the U.S. Standard Certificate of Live Birth for data on smoking in 2007 and 2008. See Appendix II, Cigarette smoking.

For data for reporting areas that use the 1989 Revision of the U.S. Standard Certificate of Live Birth, see:

NOTES: The race groups, white, black, American Indian or Alaska Native, and Asian or Pacific Islander, include persons of Hispanic and non-Hispanic origin.

Persons of Hispanic origin may be of any race. Starting with 2003 data, some states reported multiple-race data.

The multiple-race data for these states were bridged to the single-race categories

of the 1977 Office of Management and Budget standards for comparability with other states. See Appendix II, Race.

Interpretation of trend data should take into consideration expansion of reporting areas and immigration.

Data for additional years are available. See Appendix III.
