¹Medicare enrollees in managed care plans are not included in the denominator used to calculate average payments.

NOTES: Table includes data for Medicare enrollees residing in Puerto Rico, U.S. Virgin Islands, Guam, other outlying areas, foreign countries, and unknown residence. Prior to 2004, number of fee-for-service enrollees, fee-for-service program payments, and fee-for-service billing reimbursement were based on a 5% annual Denominator File derived from the Centers for Medicare & Medicaid Services' (CMS) Enrollment Database and the fee-for-service claims for a 5% sample of beneficiaries as recorded in CMS' National Claims History File. Starting with 2004 data, the 100% Denominator File was used. See Appendix I, Medicare Administrative Data; Appendix II, Medicare. The 2009 payment data reported in this table have not been finalized and are subject to revision. Data for additional years are available. See Appendix III.
