*Estimates of death rates for the black population in nonmetropolitan counties in the Northeast and West may be unreliable, possibly due to anomalies in population estimates for the black population in nonmetropolitan counties in these regions.
Urbanization levels are for county of residence of decedent. The levels were developed by NCHS using information from the Office of Management and Budget, Department of Agriculture, and Census Bureau. More information on this six-level urban-rural classification scheme is available from: http://www.cdc.gov/nchs/data_access/urban_rural.htm. See Appendix II, Urbanization.
Age-adjusted rates are calculated using the year 2000 standard population. Prior to 2003, age-adjusted rates were calculated using standard million proportions based on rounded population numbers. Starting with 2003 data, unrounded population numbers are used to calculate age-adjusted rates.
See Appendix II, Age adjustment. Prior to 2008-2010, denominators for rates are resident population estimates for the middle year of each 3-year period, multiplied by 3. Starting with 2008-2010, denominators for rates are the 3-year average population.
NOTES: The race groups, white and black, include persons of Hispanic and non-Hispanic origin.
Starting with 2003 data, some states allowed the reporting of more than one race on the death certificate. The multiple-race data for these states were bridged to the single-race categories of the 1977 Office of Management and Budget standards, for comparability with other states. See Appendix II, Hispanic origin; Race.
Starting with 2003 data, the race groups, white and black, include persons of Hispanic and non-Hispanic origin.
Rates for 1999-2001 were calculated using intercensal population estimates, 2000 bridged-race April 1 census counts, and postcensal population estimates for 2001.
Starting with 2003 data, some states allowed the reporting of more than one race on the death certificate. The multiple-race data for these states were bridged to the single-race categories of the 1977 Office of Management and Budget standards, for comparability with other states. See Appendix II, Hispanic origin; Race.
