

Table 8. Legal abortions, legal abortion rates, and legal abortion ratios: United States and 46 continuous reporting areas, 2002–2011

Updated data when available, Excel, PDF: <http://www.cdc.gov/nchs/hus/contents2014.htm#008>.

[Data are based on reporting by state health departments and by hospitals and other medical facilities]

Data provider	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011
Number of legal abortions reported, in thousands										
Centers for Disease Control and Prevention (CDC) ¹	854	848	839	820	852	828	826	789	766	730
Guttmacher Institute ²	1,269	1,250	1,222	1,206	1,242	1,210	1,212	1,152	1,103	1,059
CDC 46 continuous reporting areas ³										
Number of legal abortions reported, in thousands	828	824	816	806	833	817	815	777	753	718
Percent of total legal abortions reported to CDC ⁴	96.9	97.2	97.2	98.2	97.7	98.7	98.7	98.5	98.4	98.3
Number of legal abortions per 1,000 women aged 15–44	16.2	16.1	15.9	15.7	16.2	15.8	15.8	15.0	14.6	13.9
Number of legal abortions per 1,000 live births	250	245	241	236	237	230	232	227	228	219

¹Overall trends presented in this table should be interpreted with caution because of the different numbers of reporting areas that provided data to CDC in different years. The following states did not report abortion data to CDC: Alaska (2002), California (2002–2011), Delaware (2009), Louisiana (2005), Maryland (2007–2011), New Hampshire (2002–2011), and West Virginia (2003–2004). For 2006, the number of legal abortions is greater than reported in the 2006 report because of numbers subsequently provided by Louisiana. For 2009, the number of legal abortions is greater than reported in the 2009 report because of numbers subsequently provided by Delaware.

²No surveys were conducted in 2002, 2003, 2006, or 2009. Data for those years were estimated by interpolation. See Appendix I, Guttmacher Institute Abortion Provider Census.

³Because overall trends in abortion data are affected by the number of reporting areas that provide data to CDC on an annual basis, CDC also presents estimates for the 46 reporting areas that provided data for the entire period from 2002 to 2011. The 46 continuous reporting areas include all states except Alaska, California, Louisiana, Maryland, New Hampshire, and West Virginia. The District of Columbia and New York City are included in the 46 continuous reporting areas.

⁴Percentage of legal abortions that the 46 continuous reporting areas represented of the total number of legal abortions reported to CDC each year.

NOTES: Each year, CDC requests abortion data from the central health agencies of 52 reporting areas (the 50 states, the District of Columbia, and New York City). This information is provided voluntarily to CDC. See the annual Abortion Surveillance reports for more information on the characteristic-specific list of reporting areas. Available from: http://www.cdc.gov/reproductivehealth/Data_Stats/Abortion.htm. For methodological differences between CDC and the Guttmacher Institute Abortion Provider Census, see Appendix I, Abortion Surveillance System; Guttmacher Institute Abortion Provider Census. Some data were revised and differ from previous editions of *Health, United States*.
