[Data are compiled from various sources by the Centers for Medicare & Medicaid Services]

¹Year 2009 = 100. For more information on the detailed price series recommended for deflating each category of spending see the National Health Expenditure Accounts Methodology Paper, 2013 and NHE Deflator Methodology paper. Available from:

³See Appendix II, Average annual rate of change (percent change).

NOTES: Dollar amounts shown are in current dollars. See Appendix II, Gross domestic product (GDP); Health expenditures, national. Percents are calculated using unrounded data. Estimates may not add to totals because of rounding. Census resident-based population less armed forces overseas and population of outlying areas used to calculate per capita. For more information on NHE categories, sources, and methods, see the National Health Expenditure Accounts Methodology Paper, 2013. Available from: http://www.ems.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/NationalHealthExpendData/downloads/dsm-13.pdf. See Appendix I, National Health Expenditure Accounts (NHEA). Data have been revised and differ from previous editions of *Health, United States*.
