[Data are compiled by the Centers for Medicare & Medicaid Services from the Medicaid Data System]

- - - Data not available.

[1]Starting with 2011, a new tabular methodology was used. Therefore, estimates may not be comparable to earlier data and caution should be used with trend analysis.

[2]Beneficiaries include those who received services through Medicaid or the Children's Health Insurance Program (CHIP). Beneficiary counts for 2011 and 2012 data were derived from MSIS claims files. Separate CHIP beneficiaries are included for 2011 and 2012.

[3]Includes adults who meet the requirements for the Aid to Families with Dependent Children (AFDC) program that were in effect in their state on July 16, 1996, or, at state option, more liberal criteria (with some exceptions). Includes adults in the Temporary Assistance for Needy Families (TANF) program. Starting with 2001 data, includes women in the Breast and Cervical Cancer Prevention and Treatment Program and unemployed adults. For more information on the eligibility requirements, see Appendix II, Medicaid.

[4]Includes children (including those in the foster care system) in the TANF program. For more information on the eligibility requirements, see Appendix II, Medicaid.

[5]Includes some participants in the Supplemental Security Income program and other people deemed medically needy in participating states. Prior to 2001, includes unemployed adults. Excludes foster care children and includes unknown eligibility.

[6]CHIP is Children's Health Insurance Program. CHIP provides federal funds for states to provide health care coverage to eligible low-income, uninsured children who do not qualify for Medicaid. Some states use CHIP funds to expand Medicaid. For 2012 data, all states except Colorado and Idaho had separate CHIP beneficiaries. See Appendix II, Children's Health Insurance Program (CHIP).

[7]Race and Hispanic origin are as determined on initial Medicaid application. Categories are mutually exclusive. Starting with 2001 data, the Hispanic category included Hispanic persons, regardless of race. Persons indicating more than one race were included in the multiple race category.

[8]Payments for 2011 and 2012 data were derived from MSIS claims files. Medicaid payment data for 2010 and earlier excluded disproportionate share hospital (DSH) payments ($14.7 billion in FY2010) and DSH mental health facility payments ($2.9 billion in FY2010).

NOTES: Data are for fiscal year ending September 30. See Appendix II, Medicaid; Medicaid payments. For more information, see: http://www.medicaid.gov. Colorado and Idaho had not reported 2012 data as of the date accessed. Starting with 2011, a new tabular methodology was used. Therefore, estimates may not be comparable to earlier data and caution should be used with trend analysis. For more information on data and analytic issues, see: https://www.cms.gov/Research-Statistics-Data-and-Systems/Computer-Data-and-Systems/MedicaidDataSourcesGenInfo/MSIS-Tables.html. Estimates for 2011 have been revised and differ from previous editions of *Health, United States*.
