NOTES: The target universe consists of physicians classified as providing direct patient care in office-based practices. Radiologists, anesthesiologists, and pathologists are excluded. Physician offices were classified by the 2013 NCHS urban–rural classification scheme for counties. The medium and small metropolitan categories were combined for this analysis. For more information, see: Ingram DD, Franco SJ. 2013 NCHS urban–rural classification scheme for counties. Vital and health statistics reports; series 2 no 166. Hyattsville, MD: NCHS. 2014. Available from: [http://www.cdc.gov/nchs/data\\_access/urban\\_rural.htm](http://www.cdc.gov/nchs/data_access/urban_rural.htm). Estimates presented here may differ from estimates based on the same data presented elsewhere if different rules were used for including observations in the analysis.
