

**Table 7. Legal abortions, legal abortion rates, and legal abortion ratios: United States and 47 continuous reporting areas, 2004–2013**

Excel and PDF versions (with more data years and standard errors when available): <http://www.cdc.gov/nchs/hus/contents2016.htm#007>.

[Data are based on reporting by state health departments and by hospitals and other medical facilities]

Data provider	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013
Number of legal abortions reported, in thousands										
Centers for Disease Control and Prevention (CDC) <sup>1</sup> . . . . .	839	820	852	828	826	789	766	730	699	664
Guttmacher Institute <sup>2</sup> . . . . .	1,222	1,206	1,242	1,210	1,212	1,152	1,103	1,059	---	---
CDC 47 continuous reporting areas <sup>3</sup>										
Number of legal abortions reported, in thousands . . . . .	818	808	835	819	817	779	755	720	688	653
Number of legal abortions per 1,000 women aged 15–44 . . . . .	15.9	15.7	16.2	15.8	15.8	15.0	14.6	13.9	13.2	12.5
Number of legal abortions per 1,000 live births . . . . .	241	236	237	229	232	227	227	219	210	200

--- Data not available.

<sup>1</sup> Overall trends presented in this table should be interpreted with caution because of the different numbers of reporting areas that provided data to CDC in different years. The following states did not report abortion data to CDC in the specified year: California (2004–2013), Louisiana (2005), Maryland (2007–2013), New Hampshire (2004–2013), and West Virginia (2004). For 2006, the number of legal abortions is greater than reported in the 2006 report because of numbers subsequently provided by Louisiana. For 2009, the number of legal abortions is greater than reported in the 2009 report because of numbers subsequently provided by Delaware.

<sup>2</sup> No surveys were conducted in 2006 or 2009. Data for those years were estimated by interpolation. See Appendix I, Guttmacher Institute Abortion Provider Census.

<sup>3</sup> Because overall trends in abortion data are affected by the number of reporting areas that provide data to CDC on an annual basis, CDC also presents estimates for the 47 reporting areas that provided data for the entire period from 2004 to 2013. The 47 continuous reporting areas include all states except California, Louisiana, Maryland, New Hampshire, and West Virginia. The District of Columbia and New York City are included in the 47 continuous reporting areas.

NOTES: Each year, CDC requests abortion data from the central health agencies of 52 reporting areas (the 50 states, the District of Columbia, and New York City). This information is provided voluntarily to CDC. See the annual Abortion Surveillance reports for more information on the characteristic-specific list of reporting areas. Available from: [http://www.cdc.gov/reproductivehealth/Data\\_Stats/Abortion.htm](http://www.cdc.gov/reproductivehealth/Data_Stats/Abortion.htm). For methodological differences between CDC and the Guttmacher Institute Abortion Provider Census, see Appendix I, Abortion Surveillance System; Guttmacher Institute Abortion Provider Census. Some data were revised and differ from previous editions of *Health, United States*.
