**Table 82. Hospital admission, average length of stay, outpatient visits, and outpatient surgery, by type of ownership and size of hospital: United States, selected years 1975–2015**

[Data are based on reporting by a census of hospitals]

Type of ownership and size of hospital	1975	1980	1990	2000	2010	2013	2014	2015
Outpatient surgery								
Community hospitals <sup>2</sup>	--	16.3	50.5	62.7	63.6	65.6	65.9	66.3

-- Data not available.

<sup>1</sup>Nonfederal hospitals comprises psychiatric hospitals, tuberculosis and other respiratory diseases hospitals, and long-term and short-term general and other special hospitals. See Appendix II, Hospital.

<sup>2</sup>Community hospitals are nonfederal short-term general and special hospitals whose facilities and services are available to the public. The types of facilities included in this category have changed over time. See Appendix II, Hospital.

<sup>3</sup>Average length of stay is the number of inpatient days divided by the number of admissions. See Appendix II, Average length of stay.

<sup>4</sup>Outpatient visits include visits to the emergency department, outpatient department, referred visits (pharmacy, EKG, radiology), and outpatient surgery. See Appendix II, Outpatient visit.

<sup>5</sup>Total surgeries is a measure of patients with at least one surgical procedure. Persons with multiple surgical procedures during the same outpatient visit or inpatient stay are counted only once. See Appendix II, Outpatient surgery.
