Chapter 5: Mental, Behavioral and Neurodevelopmental disorders (F01-F99) Addenda

The American Psychiatric Association (APA) is proposing the following addenda changes to the ICD-10-CM Tabular, related to mental, behavioral and neurodevelopmental disorders in Chapter 5 (F01-F99) as well as related conditions in other chapters in ICD-10-CM. These changes will also be reflected in the ICD-10-CM Index.

These proposed changes continue the work begun during the September 2014 Coordination and Maintenance Committee meeting intended to align/ harmonize DSM-5 terminology with ICD-10-CM.

The majority of these requested changes involve the addition of inclusion terms for DSM-5 terminology that was not added as part of the October 1, 2016 addenda. In a few circumstances APA is proposing modifications that delete inclusion terms (schizophreniform psychosis, manic type and schizophreniform psychosis, depressive type) or that revise diagnostic terms (e.g., the phrase "without agoraphobia" be removed from panic disorder [episodic paroxysmal anxiety],because this category may be diagnosed with comorbid agoraphobia).

The following addenda are proposed for implementation on October 1, 2017.
