Continuing Education Credits

Continuing education credits may be awarded by the American Academy of Professional Coders (AAPC) or the American Health Information Management Association (AHIMA) for participation in CMS/NCHS ICD-10 Coordination and Maintenance (C&M) Committee Meeting.

Continuing Education Information for American Academy of Professional Coders (AAPC)

If you plan to attend or participate via telephone the ICD-10 Coordination and Maintenance (C&M) Committee Meeting, you should be aware that CMS /NCHS do not provide certificates of attendance for these calls. Instead, the AAPC will accept your printed topic packet as proof of participation. Please retain a your topic packet copy as the AAPC may request them for any conference call you entered into your CEU Tracker if you are chosen for CEU verification. Members are awarded one (1) CEU per hour of participation.

Continuing Education Information for American Health Information Management Association (AHIMA)

AHIMA credential-holders may claim 1 CEU per 60 minutes of attendance at an educational program. Maintain documentation about the program for verification purposes in the event of an audit. A program does not need to be pre-approved by AHIMA, nor does a CEU certificate need to be provided, in order to claim AHIMA CEU credit. For detailed information about AHIMA's CEU requirements, see the Recertification Guide on AHIMA's web site.

Please note: The statements above are standard language provided to NCHS by the AAPC and the AHIMA. If you have any questions concerning either statement, please contact the respective organization, not NCHS.

Chapter 5: Mental, Behavioral and Neurodevelopmental disorders (F01-F99) Addenda

The American Psychiatric Association (APA) is proposing the following addenda changes to the ICD-10-CM Tabular, related to mental, behavioral and neurodevelopmental disorders in Chapter 5 (F01-F99) as well as related conditions in other chapters in ICD-10-CM. These changes will also be reflected in the ICD-10-CM Index.

These proposed changes continue the work begun during the September 2014 Coordination and Maintenance Committee meeting intended to align/ harmonize DSM-5 terminology with ICD-10-CM.

The majority of these requested changes involve the addition of inclusion terms for DSM-5 terminology that was not added as part of the October 1, 2016 addenda. In a few circumstances APA is proposing modifications that delete inclusion terms (schizophreniform psychosis, manic type and schizophreniform psychosis, depressive type) or that revise diagnostic terms (e.g., the phrase “without agoraphobia” be removed from panic disorder [episodic paroxysmal anxiety], because this category may be diagnosed with comorbid agoraphobia).

The following addenda are proposed for implementation on October 1, 2017.
