

Data Uses

Rates per 10,000 population of first-listed and any-listed diagnosis of septicemia or sepsis discharges: United States, 2000-2010

SOURCE: CDC/NCHS, National Hospital Discharge Survey.

- Hospitalizations for septicemia or sepsis (as a first-listed or principal diagnosis) increased from 326,000 in 2000 to 816,000 in 2010, and the rate of these hospitalizations more than doubled from 11.6 per 10,000 population in 2000 to 26.5 per 10,000 population in 2010. Overall hospitalizations did not increase during this period.
