

NATIONAL CENTER FOR HEALTH STATISTICS PUBLICATIONS USING LONG-TERM CARE DATA

This is a descriptive list of all NCHS data products and reports using Long-Term Care (LTC) Statistics data. LTC data products and reports are listed from the National Master Facility Inventory (NMFI) -health facilities, National Nursing Home Survey (NNHS), National Nursing Assistant Survey (NNAS), National Home and Hospice Care Survey (NHHCS), and the National Home Health Aide Survey (NHHAS) and the National Survey of Residential Care Facilities (NSRCF). The National Center for Health Statistics is launching a new National Study of Long-Term Care Providers (NSLTCP) (see newsletter). This document will be updated periodically to accurately report all available data products and reports from LTC surveys.

Advance Data Reports; Data Briefs, National Health Statistics Reports; Series Reports; Web Tables; and Newsletters.

NCHS Publications using Long-Term Care Data

Introduction

The NCHS reports in this list consists of analyses of health topics, survey summaries, subject matter topics (i.e. emergency department visits, advance directives, pressure ulcers, medications, etc.), and survey methodology/data collection. The format of the directory includes a chronological list of reports by provider type according to six topics—characteristics of providers and users, utilization, quality of care, specific conditions and services, payment data (including cost, financing, and regulation), staffing, and electronic information systems. If a report covers multiple providers the report is listed for each provider type.

The table of contents is bookmarked to facilitate navigation throughout the document. Full text (.PDF) files are linked to each item on list, if for any reason a .PDF file does not exist, a note will indicate that fact(i.e. internet release only, E-stat). Citation of source is appreciated when using data or quotations from any long-term care data products. Please review the National Center for Health Statistics [How to Cite NCHS Publications](#) for examples.

Nursing Homes and Health Facilities

Characteristics of Providers and Users

Web Tables: 2004 Facility Tables. Topics covered — Characteristics, Staffing, and Management; Programs and Services; and Employee Vaccinations-Available at:
