Question ID: **Variable:** DEP_R_A **Module:** Adult **Section:** DEP

Description:

Regularly had feelings of depression recode - Early Release

File(s):

Adult

Data type:

Numeric

Response:

1	Yes
2	No
3	Unknown

Universe description:

Sample adults 18+

Notes:

Adults were defined as regularly having feelings of depression if they had these feelings daily and reported the level as "a lot," or "somewhere in between a little and a lot," or b) had these feelings weekly and reported the level as "a lot".

2020 Quarter 1 National Health Interview Survey (NHIS)
Preliminary Microdata File Variable Codebook
Document Version:08/13/2020

Question ID: Variable: DISAB3_A Module: Adult Section: UPP

Description:

Washington Group short set composite disability recode - Early Release

File(s):

Adult

Data type:

Numeric

Response:

1	Yes
2	No
9	Don't Know

Universe description:

Sample adults 18+

Notes:

Disability is defined by the reported level of difficulty (no difficulty, some difficulty, a lot of difficulty, or cannot do at all) in six functioning domains: seeing (even if wearing glasses), hearing (even if wearing hearing aids), mobility (walking or climbing stairs), communication (understanding or being understood by others), cognition (remembering or concentrating), and self-care (such as washing all over or dressing). Sample adults who responded "a lot of difficulty" or "cannot do at all" to at least one question were considered to have a disability.
