Description:

Age 65 or older

File(s):

Adult

Data type:

Numeric

#### Response:

1	Less than 65
2	65 or older
7	Refused
9	Don't Know

#### Universe description:

Person is 18 years or older but refused or don't know specific age

#### Notes:

This variable is collected during rostering from a household respondent who answered refuse or don't know to the age of a household member who is subsequently selected as the Sample Adult, and for whom the household respondent indicated that the person is 18 and over. AGE65 may be inconsistent with AGEP\_A because AGEP\_A is confirmed with the Sample Adult respondent and uses date of birth to verify age. Analysts may use AGE65 when AGEP\_A is unknown for categorizing Sample Adults less than age 65 and 65 and over.
