### VOLUME 4

Appendix C. American Community Survey 2006-2008 3-Year Estimates Summary File Documentation

## Chapter 1. Introduction

The purpose of the Continuous National Survey of Family Growth, 2006-2008 Contextual Data File for Place of Interview is to provide a wide array of county-level characteristics by which researchers can investigate contextual influences on the fertility-related behaviors studied by the Continuous National Survey of Family Growth, 2006-2008 (NSFG06-08). The first of two contextual data files produced by ICPSR for NSFG06-08, it describes the characteristics of the 203 counties and county equivalents in which the NSFG06-08 respondents resided when they were interviewed during 2006-2008.<sup>1</sup> In contrast, the other contextual data file describes the characteristics of the counties in which the respondents resided on April 1, 2000.

This contextual data file contains 782 variables derived from four data sources: the NSFG06-08 sampling files, County Characteristics, 2000-2007 (ICPSR 20660), Census 2000 Summary File 3 (SF3), and the American Community Survey 2006-2008 3-Year Estimates Summary File (ACS3). County-level characteristics covered by the variables in the contextual data file include population by age, sex, race, and Hispanic origin; rural and urban population; income, poverty, and income inequality; earnings and employment by industry; citizenship and foreign born population; households by type and presence of children; marital status, birth rates, and children per family; and school enrollment and educational attainment. In addition, the file has variables describing each county's labor force participation and unemployment; housing characteristics and housing authorized by building permits; land surface form topography and climate; government revenue and expenditures; crimes reported to police; presidential election results; Medicare enrollment; and health profession shortage areas.

Although many of the variables in the contextual data file were computed from variables in the data sources, most were just copied from the sources without any recoding. All of the variables in the file are numeric, except for nine character variables: RESP\_GENDER, StateName, CountyName, CBSA\_Title, MetroDivTitle, CSA\_Title, ClimateZone, KoppenClass, and ClimateRegion.

Supplied as a SAS CPORT file named nsfg0608.stc, the contextual data file contains 13,495 cases, one for each of the NSFG06-08 respondents, and can be merged with the main NSFG06-08 data files by matching on the common respondent identification variable named CASEID. Instructions for merging the files are provided below in Section 1.1.

This four-volume codebook consists of five chapters and three appendices. Chapter 1 contains an overview of the contextual data file and explains how to use the file. Next, the variable descriptions, including the formulas used to calculate the computed variables, constitute Chapter 2. The third chapter describes the data sources and explains how the contextual variables were named, while Chapter 4 explains the missing value codes. Completing the first volume of the codebook, Chapter 5 comprises descriptive statistics for every numeric variable in the contextual data file. Finally, for easy reference, the original codebooks for ICPSR 20660, SF3, and ACS3

---

1. The county equivalents comprise Washington, D.C., parishes in Louisiana, a borough in Alaska, and independent cities, mostly in Virginia. For the sake of brevity, all of these entities are referred to as counties in this codebook.

are provided in Appendices A, B, and C, respectively, with a separate volume for each appendix.

For examples of the uses of these data, see the following report which used the NSFG Cycle 5 Contextual Data File:

William Mosher, Lionel Deang, and Mathew Bramlett. "Community Environment and Women's Health Outcomes: Contextual Data." *Vital and Health Statistics, Series 23, No. 23*, April 2003. Hyattsville, MD: National Center for Health Statistics.

### 1.1. How to Use the Contextual File

As noted above, the contextual data are supplied as a portable SAS CPORT file named nsfg0608.stc. The CPORT file contains a SAS dataset with the contextual data and variable labels, plus a SAS formats catalog with the value labels.

To read the CPORT file into SAS, execute these SAS commands:

```
proc cimport file="path and file name" lib=work;
run;
```

where "path and file name" is the location and name of the CPORT file on your computer system. For example, if nsfg0608.stc is located in the root directory of drive c: on a PC running Windows, then we have:

```
proc cimport file="c:\nsfg0608.stc" lib=work;
run;
```

This will extract the SAS dataset and formats catalog in nsfg0608.stc and copy them to the temporary SAS library named "work."

Note: Some users may see this warning when proc cimport is executed:

```
WARNING: The transport file is from an earlier SAS release. If this transport file contains
non-English data, there may be problems importing national characters. If problems do
occur, the transport file will need to be imported again. If the transport file was
created by a Unicode SAS session, start a new SAS session, set the ENCODING startup
option to UTF8, and redo the import. Otherwise, set the LOCALE option to match the
LOCALE of the SAS session which created the transport file and redo the import.
```

This warning does not indicate that anything is wrong with the contextual data file. None of the issues mentioned in the warning apply to the file.

The variables in the contextual data file can be merged with the main NSFG06-08 data files by matching on the common respondent identification variable named CASEID. For example, if the CPORT file is in the same location noted above, we could merge the female respondent data file with the contextual data file by adding these statements at the end of the SAS setup for the female respondent data file:

```
/* Sort female respondents data by CASEID */
proc sort data=work.data1;
  by CASEID;

/* Read contextual data file and sort by CASEID */
proc cimport file="c:\nsfg0608.stc" lib=work;
proc sort data=work.nsfg0608;
  by CASEID;

/* Merge the files */
data;
  merge work.data1 (in=t1) work.nsfg0608 (in=t2);
  if t1 and t2;

/* Add analysis statements here */

run;
```

## **1.2. Merging External Contextual Data**

The contextual data file contains geographic identification codes for each respondent's address at the time of interview—including region, division, state, Core Based Statistical Area, county, census tract, block group, and block codes—which can be used to merge the NSFG06-08 data with contextual variables from other sources, for example, Census 2000 tract-level variables.

## Chapter 2. Variable Descriptions

Chapter 2 describes the variables in the contextual data file. The chapter has four sections, one for each of the four data sources of the variables in the contextual data file. The variable descriptions are presented in the order of the variables in the contextual data file.

Section 2.1 describes the nine variables derived from the NSFG06-08 sampling files: the NSFG06-08 respondent identification number, respondent gender, and seven geographic identification variables. Three of these variables were computed from variables in the NSFG06-08 sampling files, while six were just copied from the sampling files.

The second section, Section 2.2, describes the 466 variables taken from County Characteristics, 2000-2007 (ICPSR 20660). All of the variables in ICPSR 20660 are included in the contextual file, except for variables ID (Case number), State (state FIPS code), County (county FIPS code), and FIPS (state and county FIPS code). Variable ID was excluded because it has no analytical value, and variables State, County, and FIPS were excluded because they are identical to variables already derived from the NSFG06-08 sampling files. None of variables derived from ICPSR 20660 were computed—all were copied from the data source without any recoding. For additional information about these variables, see Appendix A which contains the original ICPSR 20660 codebook.

Next, Section 2.3 describes the 226 variables derived from Census 2000 Summary File 3 (SF3). These variables are the same as the county-level, SF3-derived variables in the NSFG Cycle 6 contextual data files, except for some duplicate variables which were omitted from this file. While many of the variables were copied as is from SF3, most were computed from variables in SF3. The variable descriptions in Section 2.3 include the formulas that were used to calculate the computed variables. In the formulas, the original SF3 variables are identified by their names in ICPSR's SAS, SPSS, and Stata setups for SF3, which are very similar to their names (data dictionary reference names) in the original SF3 codebook. To facilitate the use of these variables, the original SF3 codebook is provided in Appendix B. In addition, Table 3.1 in Chapter 3 contains a crosswalk between the variable names in the setups and the original SF3 codebook.

The last section, Section 2.4 describes the 81 variables derived from the American Community Survey 2006-2008 3-Year Estimates Summary File (ACS3). Like the variables in Sections 2.1 and 2.3, these variables comprise computed variables and variables copied from the data source without any recoding. And, as in Section 2.3, the variable descriptions include computational formulas. In the formulas, the original ACS3 variables are identified by their names in the SAS setups prepared by the Census Bureau for ACS3. More information about this section's variables can be found in Appendix C which contains the original ACS3 documentation.

## 2.1. Variables Derived from the NSFG06-08 Sampling Files

Variable Name	Description
CASEID	NSFG06-08 respondent identification number
RESP_GENDER	Respondent's gender  <u>Code</u> <u>Description</u> F Female M Male
<b>Geographic Identification Variables</b>	
STATE	State FIPS code  Code descriptions shown in Appendix A (County Characteristics, 2000-2007 (ICPSR 20660) codebook)
COUNTY	County FIPS code  Code descriptions shown in Appendix A (County Characteristics, 2000-2007 (ICPSR 20660) codebook)
TRACT	Census 2000 census tract (two implied decimal places)
BLKGRP	Census 2000 block group  BLKGRP is the first digit of variable BLOCK
BLOCK	Census 2000 block
FIPS	State and county FIPS Code  FIPS was created by concatenating variable STATE and COUNTY:  $\text{FIPS} = (\text{STATE} \times 10^3) + \text{COUNTY}$

Variable Name	Description
SRC_BLOCK	<p>Unique block group ID</p> <p>SRC_BLOCK was created by concatenating variables STATE, COUNTY, TRACT , and BLKGRP:</p> $\text{SRC\_BLOCK} = (\text{STATE} \times 10^{10}) + (\text{COUNTY} \times 10^7) + (\text{TRACT} \times 10) + \text{BLKGRP}$

## 2.2. Variables from County Characteristics, 2000-2007 (ICPSR 20660)

Variable Name	Description
	<b>Geographic Identification Variables</b>
StateName	State name
CountyName	County name
Region	<p>Census Region Code</p> <p><u>Code</u> <u>Description</u></p> <p>1 Northeast</p> <p>2 Midwest</p> <p>3 South</p> <p>4 West</p>
Division	<p>Census Division Code</p> <p><u>Code</u> <u>Description</u></p> <p>1 New England</p> <p>2 Middle Atlantic</p> <p>3 East North Central</p>

Variable Name	Description
	4 West North Central 5 South Atlantic 6 East South Central 7 West South Central 8 Mountain 9 Pacific
CBSA	Core Based Statistical Area Code  Code descriptions shown in Appendix A (County Characteristics, 2000-2007 (ICPSR 20660) codebook) Counties not in CBSAs are coded 0.
CBSA_Status	CBSA status  <u>Code Description</u> 0 Not in a CBSA 1 Metropolitan Statistical Area 2 Micropolitan Statistical Area
CBSA_Title	Core Based Statistical Area (CBSA) title
MetroDiv	Metropolitan Division Code  Code descriptions shown in Appendix A (County Characteristics, 2000-2007 (ICPSR 20660) codebook) Counties not in Metropolitan Divisions are coded 0.
MetroDivTitle	Metropolitan Division title
CSA	Combined Statistical Area (CSA) Code  Code descriptions shown in Appendix A (County Characteristics, 2000-2007 (ICPSR 20660) codebook)

<b>Variable Name</b>	<b>Description</b>
	Counties not in CSAs are coded 0.
CSA_Title	Combined Statistical Area title
	<b>Geographic Coordinates, Land Area, and Water Area, 2000</b>
Latitude	Latitude of a point within the county measured in degrees to six decimal places
Longitude	Longitude of a point within the county measured in degrees to six decimal places
LandArea	Land area in square miles rounded to two decimal places
WaterArea	Water area in square miles rounded to two decimal places
	<b>Total Population, 2000-2005</b>
PopCen00	Census 2000 total resident population, 4/1/00
PopBase00	Total resident population estimates base, 4/1/00
Pop00	Total resident population, 7/1/00
Pop01	Total resident population, 7/1/01
Pop02	Total resident population, 7/1/02
Pop03	Total resident population, 7/1/03
Pop04	Total resident population, 7/1/04
Pop05	Total resident population, 7/1/05
	<b>Population Growth and Components of Population Growth, 2000-2005</b>
PopGr4_00_05	Percent population growth, 4/1/00 to 7/1/05

<b>Variable Name</b>	<b>Description</b>
PopGr00_05	Percent population growth, 7/1/00 to 7/1/05
Births4_7_00	Births 4/1/00 to 7/1/00
Births01	Births 7/1/00 to 7/1/01
Births02	Births 7/1/01 to 7/1/02
Births03	Births 7/1/02 to 7/1/03
Births04	Births 7/1/03 to 7/1/04
Births05	Births 7/1/04 to 7/1/05
Deaths4_7_00	Deaths 4/1/00 to 7/1/00
Deaths01	Deaths 7/1/00 to 7/1/01
Deaths02	Deaths 7/1/01 to 7/1/02
Deaths03	Deaths 7/1/02 to 7/1/03
Deaths04	Deaths 7/1/03 to 7/1/04
Deaths05	Deaths 7/1/04 to 7/1/05
IntlMig4_7_00	Net international migration 4/1/00 to 7/1/00
IntlMig01	Net international migration 7/1/00 to 7/1/01
IntlMig02	Net international migration 7/1/01 to 7/1/02
IntlMig03	Net international migration 7/1/02 to 7/1/03
IntlMig04	Net international migration 7/1/03 to 7/1/04

<b>Variable Name</b>	<b>Description</b>
IntlMig05	Net International Migration 7/1/04 to 7/1/05
IntMig4_7_00	Net internal migration 4/1/00 to 7/1/00
IntMig01	Net internal migration 7/1/00 to 7/1/01
IntMig02	Net internal migration 7/1/01 to 7/1/02
IntMig03	Net internal migration 7/1/02 to 7/1/03
IntMig04	Net internal migration 7/1/03 to 7/1/04
IntMig05	Net internal migration 7/1/04 to 7/1/05
Residual4_7_00	Residual 4/1/00 to 7/1/00
Residual01	Residual 7/1/00 to 7/1/01
Residual02	Residual 7/1/01 to 7/1/02
Residual03	Residual 7/1/02 to 7/1/03
Residual04	Residual 7/1/03 to 7/1/04
Residual05	Residual 7/1/04 to 7/1/05
	<b>Group quarters population, 2000-2005</b>
GQPopBase00	Group quarters population estimates base, 4/1/00
GQPop00	Group quarters population, 7/1/00
GQPop01	Group quarters population, 7/1/01
GQPop02	Group quarters population, 7/1/02

<b>Variable Name</b>	<b>Description</b>
GQPop03	Group quarters population, 7/1/03
GQPop04	Group quarters population, 7/1/04
GQPop05	Group quarters population, 7/1/05
	<b>Housing Units and Housing Units Growth, 2000-2005</b>
HU_Cen00	Census 2000 housing units, 4/1/00

KoppenClass	<p>Koppen classification corresponding to 2004 IECC Climate Zone</p> <p><u>Code</u> <u>Description</u></p> <p>Aw Tropical wet and dry</p> <p>Caf Humid subtropical (warm summer)</p> <p>BWh Arid subtropical</p> <p>BSk/BWh/H Semiarid middle latitude/arid subtropical/highlands</p> <p>Cs Dry summer subtropical (Mediterranean)</p>

Variable Name	Description
	Caf/Daf Humid subtropical/humid continental (warm summer) Daf Humid continental (warm summer) BSk/H Semiarid middle latitude/highlands Cb Marine (cool summer) Daf/Dbf Humid continental (warm/cool summer) Dbf Humid continental (cool summer) Dcf Subarctic
ClimateRegion	Buiding America Climate Region  <u>Codes</u> Hot-Dry Hot-Humid Mixed-Dry Mixed-Humid Marine Cold Very Cold Subarctic  Code descriptions shown in Appendix A (County Characteristics, 2000-2007 (ICPSR 20660) codebook)
	<b>Federal Government Direct Expenditures or Obligations, Fiscal Year 2004</b>
CFFR_DR04	Federal direct expenditures or obligations: Retirement/disability payments for individuals, fiscal year 2004
CFFR_DO04	Federal direct expenditures or obligations: Other direct payments for individuals, fiscal year 2004
CFFR_DX04	Federal direct expenditures or obligations: Direct payments other than for individuals, fiscal year 2004
CFFR_GG04	Federal direct expenditures or obligations: Grants (block, formula, project, and cooperative agreements), fiscal year 2004

<b>Variable Name</b>	<b>Description</b>
CFFR_PC04	Federal direct expenditures or obligations: Procurement contracts, fiscal year 2004
CFFR_SW04	Federal direct expenditures or obligations: Salaries and wages, fiscal year 2004
CFFR_Dir04	Total federal direct expenditures or obligations, fiscal year 2004
CFFR_Def04	Federal direct expenditures or obligations: Defense, fiscal year 2004
CFFR_NDef04	Federal direct expenditures or obligations: Non-Defense, fiscal year 2004
	<b>Other Federal Government Assistance, Fiscal Year 2004</b>
CFFR_DL04	Other federal assistance: Direct loans, fiscal year 2004
CFFR_GL04	Other federal assistance: Guaranteed/insured loans, fiscal year 2004
CFFR_II04	Other federal assistance: Insurance, fiscal year 2004
CFFR_Oth04	Total other federal assistance, fiscal year 2004
	<b>Local Government Revenue and Expenditures, 2001-2002 Fiscal Year</b>
PropTax02	Local government property tax revenue (\$1,000s) , 2001-2002 fiscal year
PropTaxPerCap02	Local government property tax revenue per capita, 2001-2002 fiscal year
LocTax02	Local government tax revenue (\$1,000s), 2001-2002 fiscal year
LocTaxPerCap02	Local government tax revenue per capita, 2001-2002 fiscal year
LocRev02	Local government general revenue (\$1,000s), 2001-2002 fiscal year
LocExp02	Local government direct general expenditures (\$1,000s), 2001-2002 fiscal year
	<b>Crimes Reported to Police, 2004</b>

<b>Variable Name</b>	<b>Description</b>
CrimePop04	County population of agencies reporting crimes, 2004
IdxCrime04	Total number of index crimes reported to police, 2004
M_IdxCrime04	Total number of index crimes reported to police plus arson, 2004
Muder04	Number of murders reported to police, 2004
Rape04	Number of rapes reported to police, 2004
Robbery04	Number of robberies reported to police, 2004
Assault04	Number of aggravated assaults reported to police, 2004
Burglary04	Number of burglaries reported to police, 2004
Larceny04	Number of larcenies reported to police, 2004
MVTheft04	Number of motor vehicle thefts reported to police, 2004
Arson04	Number of arsons reported to police, 2004
CrimeRate04	Index crime rate (per 100,000 persons), 2004
	<b>2004 Presidential Election Results</b>
TotalVotes04	2004 presidential election: Total votes
BushVotes04	2004 presidential election: Votes for Bush
KerryVotes04	2004 presidential election: Votes for Kerry
OtherVotes04	2004 presidential election: Votes for other candidates
PctBush04	2004 presidential election: Percent of votes for Bush

<b>Variable Name</b>	<b>Description</b>
PctKerry04	2004 presidential election: Percent of votes for Kerry
PctOther04	2004 presidential election: Percent of votes for other candidates
	<b>New Privately-Owned Residential Housing Units Authorized by Building Permits, 2005</b>
P1Bldg05	New privately-owned residential housing units authorized by building permits: Single family houses (estimates with imputation), 2005
P1Units05	New privately-owned residential housing units authorized by building permits: Units in single family houses (estimates with imputation), 2005
P1Cost05	New privately-owned residential housing units authorized by building permits: Construction cost of single family houses (estimates with imputation), 2005
P2Bldg05	New privately-owned residential housing units authorized by building permits: 2-family buildings (estimates with imputation), 2005
P2Units05	New privately-owned residential housing units authorized by building permits: Units in 2-family buildings (estimates with imputation), 2005
P2Cost05	New privately-owned residential housing units authorized by building permits: Construction cost of 2-family buildings (estimates with imputation), 2005
P3Bldg05	New privately-owned residential housing units authorized by building permits: 3-4 family buildings (estimates with imputation) , 2005
P3Units05	New privately-owned residential housing units authorized by building permits: Units in 3-4 family buildings (estimates with imputation), 2005
P3Cost05	New privately-owned residential housing units authorized by building permits: Construction cost of 3-4 family buildings (estimates with imputation), 2005

<b>Variable Name</b>	<b>Description</b>
P5Bldg05	New privately-owned residential housing units authorized by building permits: 5+ family buildings (estimates with imputation), 2005
P5Units05	New privately-owned residential housing units authorized by building permits: Units in 5+ family buildings (estimates with imputation), 2005
P5Cost05	New privately-owned residential housing units authorized by building permits: Construction cost of 5+ family buildings (estimates with imputation), 2005
P_Bldg05	New privately-owned residential housing units authorized by building permits: Total number of buildings (estimates with imputation), 2005
P_Units05	New privately-owned residential housing units authorized by building permits: Total number of units (estimates with imputation), 2005
P_Cost05	New privately-owned residential housing units authorized by building permits: Total construction cost (estimates with imputation) , 2005
P1BldgR05	New privately-owned residential housing units authorized by building permits: Single family houses (reported only), 2005
P1UnitsR05	New privately-owned residential housing units authorized by building permits: Units in single family houses (reported only), 2005
P1CostR05	New privately-owned residential housing units authorized by building permits: Construction cost of single family houses (reported only), 2005
P2BldgR05	New privately-owned residential housing units authorized by building permits: 2-family buildings (reported only), 2005
P2UnitsR05	New privately-owned residential housing units authorized by building permits: Units in 2-family buildings (reported only), 2005

<b>Variable Name</b>	<b>Description</b>
P2CostR05	New privately-owned residential housing units authorized by building permits: Construction cost of 2-family buildings (reported only), 2005
P3BldgR05	New privately-owned residential housing units authorized by building permits: 3-4 family buildings (reported only), 2005
P3UnitsR05	New privately-owned residential housing units authorized by building permits: Units in 3-4 family buildings (reported only), 2005
P3CostR05	New privately-owned residential housing units authorized by building permits: Construction cost of 3-4 family buildings (reported only), 2005
P5BldgR05	New privately-owned residential housing units authorized by building permits: 5+ family buildings (reported only), 2005
P5UnitsR05	New privately-owned residential housing units authorized by building permits: Units in 5+ family buildings (reported only), 2005
P5CostR05	New privately-owned residential housing units authorized by building permits: Construction cost of 5+ family buildings (reported only), 2005
P_BldgR05	New privately-owned residential housing units authorized by building permits: Total number of buildings (reported only), 2005
P_UnitsR05	New privately-owned residential housing units authorized by building permits: Total number of units (reported only), 2005
P_CostR05	New privately-owned residential housing units authorized by building permits: Total construction cost (reported only), 2005
P_Miss05	Did the county have a record in the building permits data source?

<b>Variable Name</b>	<b>Description</b>
	<u>Code Description</u> 0 No 1 Yes
	<b>Health Profession Shortage Areas (HPSA), 2007</b>
P_HPSA_Cty07	Whole county designated as a Single County Primary Care HPSA, 6/21/07
P_HPSA_Geo07	At least one area within the county designated as a Geographic Area Primary Care HPSA, 6/21/07
P_HPSA_Pop07	At least one population within the county designated as a Population Group Primary Care HPSA, 6/21/07
P_HPSA_Oth07	At least one facility/program within the county designated as an other Primary Care HPSA, 6/21/07
M_HPSA_Cty07	Whole county designated as a Single County Mental Health Care HPSA, 6/21/07
M_HPSA_Geo07	At least one area within the county designated as a Geographic Area Mental Health Care HPSA, 6/21/07
M_HPSA_Pop07	At least one population within the county designated as a Population Group Mental Health Care HPSA, 6/21/07
M_HPSA_Oth07	At least one facility/program within the county designated as an other Mental Health Care HPSA, 6/21/07
D_HPSA_Cty07	Whole county designated as a Single County Dental Care HPSA, 6/21/07
D_HPSA_Geo07	At least one area within the county designated as a Geographic Area Dental Care HPSA, 6/21/07
D_HPSA_Pop07	At least one population within the county designated as a Population Group Dental Care HPSA, 6/21/07
D_HPSA_Oth07	At least one facility/program within the county designated as an other Dental Care HPSA, 6/21/07
	<b>Medicare Enrollment, 2003</b>
Mcare_Agd03	Aged Medicare Part A and/or Part B enrollees, 7/1/03

<b>Variable Name</b>	<b>Description</b>
McareA_Agd03	Aged Medicare Part A enrollees, 7/1/03
McareB_Agd03	Aged Medicare Part B enrollees, 7/1/03
Mcare_Dsb03	Disabled Medicare Part A and/or Part B enrollees, 7/1/03
McareA_Dsb03	Disabled Medicare Part A enrollees, 7/1/03
McareB_Dsb03	Disabled Medicare Part B enrollees, 7/1/03
Mcare03	Total aged and disabled Medicare Part A and/or Part B enrollees, 7/1/03
McareA03	Total aged and disabled Medicare Part A enrollees, 7/1/03
McareB03	Total aged and disabled Medicare Part B enrollees, 7/1/03

### 2.3 Variables Derived from Census 2000 Summary File 3

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
	<b>Land Area, 2000</b>	
C_AREALAND	Land area in square meters, 2000 - county	AREALAND
	<b>Sample Size for Census 2000 Long Questionnaire, and 100% Counts of Population and Housing Units, 2000</b>	
C_P2_1	Unweighted sample count of the population, 2000 - county	P2_1
C_H2_1	Unweighted sample housing units, 2000 - county	H2_1
C_POP100	100% count of total population, 2000 - county	POP100
C_H3_1	100% count of housing units, 2000 - county	H3_1

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
	<b>Total, Urban, and Rural Population, 2000</b>	
C_P1_1	Total population, 2000 - county	P1_1
C_P5_2	Urban population, 2000 - county	P5_2
C_P5_3	Urban population inside urbanized areas, 2000 - county	P5_3
C_P5_4	Urban population inside urban clusters, 2000 - county	P5_4
C_P5_5	Rural population, 2000 - county	P5_5
C_P5_6	Rural farm population, 2000 - county	P5_6
C_P5_7	Rural nonfarm population, 2000 - county	P5_7
	<b>Total Non-Hispanic Population, Non-Hispanic Population by Race, and Total Hispanic Population, 2000</b>	
C_P7_2	Not Hispanic or Latino population, 2000 - county	P7_2
C_P7_3	Not Hispanic or Latino population, white alone, 2000 - county	P7_3
C_P7_4	Not Hispanic or Latino population, black or African American alone, 2000 - county	P7_4
C_P7_5	Not Hispanic or Latino population, American Indian and Alaska native alone, 2000 - county	P7_5
C_P7_6	Not Hispanic or Latino population, Asian alone, 2000 - county	P7_6
C_P7_7	Not Hispanic or Latino population, native Hawaiian and other Pacific islander alone, 2000 - county	P7_7
C_P7_8	Not Hispanic or Latino population, some other race alone, 2000 - county	P7_8
C_P7_9	Not Hispanic or Latino population of two or more races, 2000 - county	P7_9

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
C_P7_10	Hispanic or Latino population, 2000 - county	P7_10
	<b>Urbanized and Rural Population (Proportions) and Population Density, 2000</b>	
CST00002	Proportion of population urban inside urbanized area, 2000 - county	$P5\_3 / P5\_1$
CST00003	Proportion of population rural, 2000 - county	$P5\_5 / P5\_1$
CST00004	Proportion of population rural farm, 2000 - county	$P5\_6 / P5\_1$
CST00005	Population density (persons per square kilometer), 2000 - county	$P1\_1 / (\text{AREALAND}/1000000)$
	<b>Population by Race and Hispanic Origin (Proportions), 2000</b>	
CST00006	Proportion of population white alone, 2000 - county	$P6\_2 / P6\_1$
CST00007	Proportion of population black or African American alone, 2000 - county	$P6\_3 / P6\_1$
CST00008	Proportion of population Asian and other races, 2000 - county	$(P6\_4 + \dots + P6\_8) / P6\_1$
CST00009	Proportion of population Hispanic or Latino, 2000 - county	$P7\_10 / P7\_1$
CST00010	Proportion of population Hispanic or Latino, white alone, 2000 - county	$P7\_11 / P7\_1$
CST00011	Proportion of population Hispanic or Latino, black or African American alone, 2000 - county	$P7\_12 / P7\_1$
CST00012	Proportion of population Hispanic or Latino, Asian and other races, 2000 - county	$(P7\_13 + \dots + P7\_17) / P7\_1$
	<b>Total and Female Population by Age, Race, and Hispanic Origin, 2000</b>	
CST00601	Population aged 0-14, 2000 - county	$P8\_3 + \dots + P8\_17 + P8\_42 + \dots + P8\_56$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00602	Population aged 15-24, 2000 - county	$P8\_18 + \dots + P8\_25 + P8\_57 + \dots + P8\_64$
CST00603	Population aged 25-34, 2000 - county	$P8\_26 + P8\_27 + P8\_65 + P8\_66$
CST00604	Population aged 35-44, 2000 - county	$P8\_28 + P8\_29 + P8\_67 + P8\_68$
CST00605	Population aged 45-64, 2000 - county	$P8\_30 + \dots + P8\_34 + P8\_69 + \dots + P8\_73$
CST00606	Population aged 65+, 2000 - county	$P8\_35 + \dots + P8\_40 + P8\_74 + \dots + P8\_79$
CST00608	White alone population aged 0-14, 2000 - county	$P145A\_3 + \dots + P145A\_5 + P145A\_27 + \dots + P145A\_29$
CST00609	White alone population aged 15-24, 2000 - county	$P145A\_6 + \dots + P145A\_10 + P145A\_30 + \dots + P145A\_34$
CST00610	White alone population aged 25-34, 2000 - county	$P145A\_11 + P145A\_12 + P145A\_35 + P145A\_36$
CST00611	White alone population aged 35-44, 2000 - county	$P145A\_13 + P145A\_14 + P145A\_37 + P145A\_38$
CST00612	White alone population aged 45-64, 2000 - county	$P145A\_15 + \dots + P145A\_19 + P145A\_39 + \dots + P145A\_43$
CST00613	White alone population aged 65+, 2000 - county	$P145A\_20 + \dots + P145A\_25 + P145A\_44 + \dots + P145A\_49$
CST00614	White alone population, all ages, 2000 - county	$P145A\_1$
CST00615	Black or African American alone population aged 0-14, 2000 - county	$P145B\_3 + \dots + P145B\_5 + P145B\_27 + \dots + P145B\_29$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00616	Black or African American alone population aged 15-24, 2000 - county	P145B_6 +...+ P145B_10 + P145B_30 +...+ P145B_34
CST00617	Black or African American alone population aged 25-34, 2000 - county	P145B_11 + P145B_12 + P145B_35 + P145B_36
CST00618	Black or African American alone population aged 35-44, 2000 - county	P145B_13 + P145B_14 + P145B_37 + P145B_38
CST00619	Black or African American alone population aged 45-64, 2000 - county	P145B_15 +...+ P145B_19 + P145B_39 +...+ P145B_43
CST00620	Black or African American alone population aged 65+, 2000 - county	P145B_20 +...+ P145B_25 + P145B_44 +...+ P145B_49
CST00621	Black or African American alone population, all ages, 2000 - county	P145B_1
CST00622	Hispanic or Latino population aged 0-14, 2000 - county	P145H_3 +...+ P145H_5 + P145H_27 +...+ P145H_29
CST00623	Hispanic or Latino population aged 15-24, 2000 - county	P145H_6 +...+ P145H_10 + P145H_30 +...+ P145H_34
CST00624	Hispanic or Latino population aged 25-34, 2000 - county	P145H_11 + P145H_12 + P145H_35 + P145H_36
CST00625	Hispanic or Latino population aged 35-44, 2000 - county	P145H_13 + P145H_14 + P145H_37 + P145H_38
CST00626	Hispanic or Latino population aged 45-64, 2000 - county	P145H_15 +...+ P145H_19 + P145H_39 +...+ P145H_43
CST00627	Hispanic or Latino population aged 65+, 2000 - county	P145H_20 +...+ P145H_25 + P145H_44 +...+ P145H_49
CST00628	Hispanic or Latino population, all ages, 2000 - county	P145H_1

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00629	Female population aged 0-14, 2000 - county	P8_42 +...+ P8_56
CST00630	Female population aged 15-24, 2000 - county	P8_57 +...+ P8_64
CST00631	Female population aged 25-34, 2000 - county	P8_65 + P8_66
CST00632	Female population aged 35-44, 2000 - county	P8_67 + P8_68
CST00633	Female population aged 45-64, 2000 - county	P8_69 +...+ P8_73
CST00634	Female population aged 65+, 2000 - county	P8_74 +...+ P8_79
CST00635	Female population, all ages, 2000 - county	P8_41
CST00636	Female population white alone aged 0-14, 2000 - county	P145A_27 + P145A_28 + P145A_29
CST00637	Female population white alone aged 15-24, 2000 - county	P145A_30 +...+ P145A_34
CST00638	Female population white alone aged 25-34, 2000 - county	P145A_35 + P145A_36
CST00639	Female population white alone aged 35-44, 2000 - county	P145A_37 + P145A_38
CST00640	Female population white alone aged 45-64, 2000 - county	P145A_39 +...+ P145A_43
CST00641	Female population white alone aged 65+, 2000 - county	P145A_44 +...+ P145A_49
CST00642	Female population white alone, all ages, 2000 - county	P145A_26
CST00643	Female population black or African American alone aged 0-14, 2000 - county	P145B_27 +...+ P145B_29
CST00644	Female population black or African American alone aged 15-24, 2000 - county	P145B_30 +...+ P145B_34
CST00645	Female population black or African American alone aged 25-34, 2000 - county	P145B_35 + P145B_36
CST00646	Female population black or African American alone aged 35-44, 2000 - county	P145B_37 + P145B_38

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00647	Female population black or African American alone aged 45-64, 2000 - county	P145B_39 +...+ P145B_43
CST00648	Female population black or African American alone aged 65+, 2000 - county	P145B_44 +...+ P145B_49
CST00649	Female population black or African American alone, all ages, 2000 - county	P145B_26
CST00650	Female population Hispanic or Latino aged 0-14, 2000 - county	P145H_27 +...+ P145H_29
CST00651	Female population Hispanic or Latino aged 15-24, 2000 - county	P145H_30 +...+ P145H_34
CST00652	Female population Hispanic or Latino aged 25-34, 2000 - county	P145H_35 + P145H_36
CST00653	Female population Hispanic or Latino aged 35-44, 2000 - county	P145H_37 + P145H_38
CST00654	Female population Hispanic or Latino aged 45-64, 2000 - county	P145H_39 +...+ P145H_43
CST00655	Female population Hispanic or Latino aged 65+, 2000 - county	P145H_44 +...+ P145H_49
CST00656	Female population Hispanic or Latino, all ages, 2000 - county	P145H_26
	<b>Marital Status, Non-movers, and Foreign Born Population (Proportions), 2000</b>	
CST00127	Proportion of males aged 15+ who were never married, 2000 - county	P18_3 / P18_2
CST00128	Proportion of males aged 15+ who are married, spouse present, 2000 - county	P18_5 / P18_2
CST00129	Proportion of males aged 15+ who are separated or divorced, 2000 - county	(P18_7 + P18_10) / P18_2
CST00130	Proportion of males aged 15+ ever married who are separated or divorced, 2000 - county	(P18_7 + P18_10) / (P18_4 + P18_9 + P18_10)

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00131	Proportion of females aged 15+ who were never married, 2000 - county	$P18\_12 / P18\_11$
CST00132	Proportion of females aged 15+ who are married, spouse present, 2000 - county	$P18\_14 / P18\_11$
CST00133	Proportion of females aged 15+ who are separated or divorced, 2000 - county	$(P18\_16 + P18\_19) / P18\_11$
CST00134	Proportion of females aged 15+ ever married who are separated or divorced, 2000 - county	$(P18\_16 + P18\_19) / (P18\_13 + P18\_18 + P18\_19)$
CST00155	Proportion of females aged 15-24 who were never married, 2000 - county	$(PT7\_85 + \dots + PT7\_87) / (P8\_57 + \dots + P8\_64)$
CST00156	Proportion of females aged 25-34 who were never married, 2000 - county	$(PT7\_88 + PT7\_89) / (P8\_65 + P8\_66)$
CST00157	Proportion of females aged 35-44 who were never married, 2000 - county	$PT7\_90 / (P8\_67 + P8\_68)$
CST00158	Proportion of females aged 45+ who were never married, 2000 - county	$(PT7\_91 + \dots + PT7\_96) / (P8\_69 + \dots + P8\_79)$
CST00208	Proportion of 2000 population aged 5+ in same house as in 1995 - county	$P24\_2 / P24\_1$
CST00209	Proportion of 2000 population aged 5+ in same county as in 1995 - county	$(P24\_2 + P24\_5) / P24\_1$
CST00210	Proportion of 2000 population aged 5+ in same state as in 1995 - county	$(P24\_2 + P24\_5 + P24\_7) / P24\_1$
CST00213	Proportion of population foreign born, 2000 - county	$P21\_13 / P21\_1$
	<b>Total Households and Household Type (Proportions), 2000</b>	

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00228	Total households, 2000 - county	P10_1
CST00229	Proportion of households that are non-family households, 2000 - county	$(P10\_2 + P10\_17) / P10\_1$
CST00230	Proportion of households that are married couple households with own children under 18, 2000 - county	$P10\_8 / P10\_1$
CST00231	Proportion of households with female householder, no husband present and own children under 18, 2000 - county	$P10\_15 / P10\_1$
CST00232	Proportion of family households that are married couple family households, 2000 - county	$P10\_7 / P10\_6$
CST00233	Proportion of family households that are married couple households with own children under 18, 2000 - county	$P10\_8 / P10\_6$
CST00234	Proportion of family households with female householder, no husband present, 2000 - county	$P10\_14 / P10\_6$
CST00235	Proportion of family households with female householder, no husband present and own children under 18, 2000 - county	$P10\_15 / P10\_6$
CST00236	Proportion of family households with own children under 18, 2000 - county	$(P10\_8 + P10\_12 + P10\_15) / P10\_6$
	<b>Children Per Family and Household Type (Proportions), 2000</b>	
CST00237	Number of own children under 18 per family household with own children under 18, 2000 - county	$P16\_1 / (P10\_8 + P10\_12 + P10\_15)$
CST00238	Proportion of family households with own children under 18 with female householder, no husband present, 2000 - county	$P10\_15 / (P10\_8 + P10\_12 + P10\_15)$
CST00239	Proportion of married couple households with own children under 18, 2000 - county	$P10\_8 / P10\_7$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00240	Number of own children under 18 per married couple family household with own children under 18, 2000 - county	$P16\_2 / P10\_8$
CST00241	Proportion of female householder, no husband present households with own children under 18, 2000 - county	$P10\_15 / P10\_14$
CST00242	Number own children under 18 per female householder, no husband present households with own children under 18, 2000 - county	$P16\_19 / P10\_15$
	<b>Household and Family Income (Medians, Proportions, and Means), 1999</b>	
CST00243	Median Household Income in 1999 - county	$P53\_1$
CST00244	Median 1999 household income for households with householder white alone - county	$P152A\_1$
CST00245	Median 1999 household income for households with householder black or African American alone - county	$P152B\_1$

Variable Name	Description	Formula
CST00246	Median 1999 household income for households with householder Asian and other races - county	<p>This median was derived from the amalgamated income distribution obtained by combining corresponding cells in Tables P151C_1, P151D_1, P151E_1, P151F_1, and P151G_1. For example, the number of Asians and others with incomes \$20,000 to \$24,999 equals the sum of P151C_1_5, P151D_1_5, P151E_1_5, P151F_1_5, and P151G_1_5.</p> <p>Using Pareto interpolation for categorized data, the median was computed as</p> $\exp(M_{lb} + [p(M_{ub} - M_{lb})]),$ <p>where <math>M_{ub}</math> and <math>M_{lb}</math> are the logarithms of the upper and lower bounds of the income category that contains the median, and <math>p</math> is the proportion of that category which lies at or below the median.</p> <p>If the median fell in the highest, open-ended interval of the income distribution (\$200,000 or more), then <math>CST00246 = 200,001</math>. If the median fell in the lowest income interval (less than \$10,000), then <math>CST00246 = 9,999</math>.</p>

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00247	Median 1999 household income for households with householder Latino or Hispanic - county	P152H_1
CST00253	Proportion of households with 1999 income less than \$15,000 - county	$(P52\_2 + P52\_3) / P52\_1$
CST00254	Proportion of households with 1999 income \$60,000 or more - county	$(P52\_12 + \dots + P52\_17) / P52\_1$
CST00255	Proportion of households with public assistance income in 1999 - county	P64_2 / P64_1
CST00256	Public assistance income in 1999 per household with public assistance income - county	P73_1 / P64_2
CST00257	Median Family Income in 1999 - county	P77_1
CST00259	Proportion of families with 1999 income less than \$15,000 - county	$(P76\_2 + P76\_3) / P76\_1$
CST00260	Proportion of families with 1999 income \$60,000 or more - county	$(P76\_12 + \dots + P76\_17) / P76\_1$
CST00261	Average 1999 family income of married couple families with own children under 18 - county	PT41_3 / P15_3
CST00262	Average 1999 family income of female householder, no husband present families with own children under 18 - county	PT41_10 / P15_16
CST00263	Per capita income in 1999 of persons living in households - county	P57_1 / P9_2
	<b>Poverty (Proportions), 2000</b>	
CST00264	Proportion of population with 1999 income below poverty level - county	P87_2 / P87_1
CST00265	Proportion of population white alone with 1999 income below poverty level - county	P159A_2 / P159A_1
CST00266	Proportion of population black or African American alone with 1999 income below poverty level - county	P159B_2 / P159B_1

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00267	Proportion of population Asian and other races with 1999 income below poverty level - county	$(P159C\_2 + P159D\_2 + P159E\_2 + P159F\_2 + P159G\_2) / (P159C\_1 + P159D\_1 + P159E\_1 + P159F\_1 + P159G\_1)$
CST00268	Proportion of population Hispanic or Latino with 1999 income below poverty level - county	$P159H\_2 / P159H\_1$
CST00269	Proportion of population under 18 with 1999 income below poverty level - county	$(P87\_3 + \dots + P87\_6) / (P87\_3 + \dots + P87\_6 + P87\_11 + \dots + P87\_14)$
CST00280	Proportion of families with 1999 income below poverty level - county	$P90\_2 / P90\_1$
CST00281	Proportion of families with related children under 18 with 1999 income below poverty level - county	$(P90\_4 + P90\_11 + P90\_17) / (P90\_4 + P90\_11 + P90\_17 + P90\_24 + P90\_31 + P90\_37)$
CST00282	Proportion of female householder, no husband present families with 1999 income below poverty level - county	$P90\_16 / (P90\_16 + P90\_36)$
CST00283	Proportion female householder, no husband present families with related children under 18 with 1999 income below poverty level - county	$P90\_17 / (P90\_17 + P90\_37)$
CST00284	Proportion of married couple families with 1999 income below poverty level - county	$P90\_3 / (P90\_3 + P90\_23)$
CST00285	Proportion of married couple families with related children under 18 with 1999 income below poverty level - county	$P90\_4 / (P90\_4 + P90\_24)$
	<b>Education and School Enrollment (Proportions), 2000</b>	
CST00286	Proportion of population aged 25+ with no high school diploma or equivalency, 2000 - county	$(P37\_3 + \dots + P37\_10 + P37\_20 + \dots + P37\_27) / P37\_1$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00287	Proportion of white alone population aged 25+ with no high school diploma or equivalency, 2000 - county	$(P148A_3 + P148A_4 + P148A_{11} + P148A_{12}) / P148A_1$
CST00288	Proportion of black/African American alone population aged 25+ with no high school diploma or equivalency, 2000 - county	$(P148B_3 + P148B_4 + P148B_{11} + P148B_{12}) / P148B_1$
CST00289	Proportion of Asian and other races population aged 25+ with no high school diploma or equivalency, 2000 - county	$(P148C_3 + P148C_4 + P148C_{11} + P148C_{12} + P148D_3 + P148D_4 + P148D_{11} + P148D_{12} + P148E_3 + P148E_4 + P148E_{11} + P148E_{12} + P148F_3 + P148F_4 + P148F_{11} + P148F_{12} + P148G_3 + P148G_4 + P148G_{11} + P148G_{12}) / (P148C_1 + P148D_1 + P148E_1 + P148F_1 + P148G_1)$
CST00290	Proportion of Hispanic or Latino population aged 25+ with no high school diploma or equivalency, 2000 - county	$(P148H_3 + P148H_4 + P148H_{11} + P148H_{12}) / P148H_1$
CST00291	Proportion of population aged 25+ with college associate degree or more, 2000 - county	$(P37_{14} + \dots + P37_{18} + P37_{31} + \dots + P37_{35}) / P37_1$
CST00292	Proportion of white alone population aged 25+ with college associate degree or more, 2000 - county	$(P148A_7 + \dots + P148A_9 + P148A_{15} + \dots + P148A_{17}) / P148A_1$
CST00293	Proportion of black or African American alone population aged 25+ with college associate degree or more, 2000 - county	$(P148B_7 + \dots + P148B_9 + P148B_{15} + \dots + P148B_{17}) / P148B_1$

Variable Name	Description	Formula
CST00294	Proportion of Asian and other races population aged 25+ with college associate degree or more, 2000 - county	$\frac{(P148C_7 + \dots + P148C_9 + P148C_{15} + \dots + P148C_{17} + P148D_7 + \dots + P148D_9 + P148D_{15} + \dots + P148D_{17} + P148E_7 + \dots + P148E_9 + P148E_{15} + \dots + P148E_{17} + P148F_7 + \dots + P148F_9 + P148F_{15} + \dots + P148F_{17} + P148G_7 + \dots + P148G_9 + P148G_{15} + \dots + P148G_{17})}{(P148C_1 + P148D_1 + P148E_1 + P148F_1 + P148G_1)}$
CST00295	Proportion of Hispanic or Latino population aged 25+ with college associate degree or more, 2000 - county	$\frac{(P148H_7 + \dots + P148H_9 + P148H_{15} + \dots + P148H_{17})}{P148H_1}$
CST00296	Proportion of population aged 18+ with no high school diploma or equivalency, 2000 - county	$\frac{(PT25_4 + PT25_5 + PT25_{12} + PT25_{13} + PT25_{20} + PT25_{21} + PT25_{28} + PT25_{29} + PT25_{36} + PT25_{37} + PT25_{45} + PT25_{46} + PT25_{53} + PT25_{54} + PT25_{61} + PT25_{62} + PT25_{69} + PT25_{70} + PT25_{77} + PT25_{78})}{PT25_1}$
CST00297	Proportion of population aged 18+ with college associate degree or more, 2000 - county	$\frac{(PT25_8 + \dots + PT25_{10} + PT25_{16} + \dots + PT25_{18} + PT25_{24} + \dots + PT25_{26} + PT25_{32} + \dots + PT25_{34} + PT25_{40} + \dots + PT25_{42} + PT25_{49} + \dots + PT25_{51} + PT25_{57} + \dots + PT25_{59} + PT25_{65} + \dots + PT25_{67} + PT25_{73} + \dots + PT25_{75} + PT25_{81} + \dots + PT25_{83})}{PT25_1}$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00298	Proportion of population aged 18-24 with no high school diploma or equivalency, 2000 - county	$(PT25\_4 + PT25\_5 + PT25\_45 + PT25\_46) / (PT25\_3 + PT25\_44)$
CST00299	Proportion of population aged 18-24 with college associate degree or more, 2000 - county	$(PT25\_8 + \dots + PT25\_10 + PT25\_49 + \dots + PT25\_51) / (PT25\_3 + PT25\_44)$
CST00300	Proportion of civilian population aged 16-19 that is enrolled in school, 2000 - county	$P38\_10 / P38\_9$
CST00301	Proportion of population aged 16-19 not in school or armed forces and not high school graduate, 2000 - county	$P38\_19 / P38\_1$
CST00302	Proportion of population 16-19 not in school or armed forces, not high school graduate, and not in labor force, 2000 - county	$P38\_22 / P38\_1$
	<b>Female Labor Force Participation and Work Hours (Proportions) and Female Labor Force Opportunity Index, 2000</b>	
CST00303	Proportion of civilian labor force that is female, 2000 - county	$P43\_12 / (P43\_5 + P43\_12)$
CST00304	Proportion of females aged 16+ not in armed forces who are in civilian labor force, 2000 - county	$P43\_12 / (P43\_12 + P43\_15)$
CST00305	Proportion of white alone females aged 16+ not in armed forces who are in civilian labor force, 2000 - county	$P150A\_12 / (P150A\_12 + P150A\_15)$
CST00306	Proportion of black/African American alone females aged 16+ not in armed forces who are in civilian labor force, 2000 - county	$P150B\_12 / (P150B\_12 + P150B\_15)$
CST00307	Proportion of Asian and other races females aged 16+ not in armed forces who are in civilian labor force, 2000 - county	$(P150C\_12 + P150D\_12 + P150E\_12 + P150F\_12 + P150G\_12) / (P150C\_12 + P150C\_15 + P150D\_12 + P150D\_15 + P150E\_12 + P150E\_15 + P150F\_12 + P150F\_15 + P150G\_12 + P150G\_15)$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00308	Proportion of Hispanic or Latino females aged 16+ not in armed forces who are in civilian labor force, 2000 - county	$P150H_{12} / (P150H_{12} + P150H_{15})$
CST00309	Proportion of females aged 16+ who worked in 1999 - county	$P47_{27} / P47_{26}$
CST00310	Proportion of females aged 16+ who usually worked 35 hours or more per week for 48 weeks or more in 1999 - county	$(P47_{29} + P47_{30}) / P47_{26}$
CST00311	Proportion of females aged 16+ who usually worked 15-34 hours per week for 48 weeks or more in 1999 - county	$(P47_{36} + P47_{37}) / P47_{26}$
CST00312	Among females aged 16+ who worked in 1999, proportion who usually worked 35+ hours per week for 48+ weeks - county	$(P47_{29} + P47_{30}) / P47_{27}$
CST00313	Among females aged 16+ who worked in 1999, proportion who usually worked 15-35 hours per week for 48+ weeks - county	$(P47_{36} + P47_{37}) / P47_{27}$
CST00314	Proportion of females aged 16+ with own children under 6 but no children 6-17 who are in labor force, 2000 - county	$P45_{4} / P45_{3}$
CST00315	Proportion of females aged 16+ with own children 6-17 but no children under 6 who are in labor force, 2000 - county	$P45_{14} / P45_{13}$
CST00316	Proportion of females aged 16+ with own children under 6 and 6-17 who are in labor force, 2000 - county	$P45_{9} / P45_{8}$
CST00317	Proportion of females aged 16+ with own children under 18 who are in labor force, 2000 - county	$(P45_{4} + P45_{14} + P45_{9}) / P45_{2}$
CST00318	Proportion of females aged 16+ with no children under 18 who are in labor force, 2000 - county	$P45_{19} / P45_{18}$

Variable Name	Description	Formula
CST00319	Female Labor Force Opportunity Index, 2000 - county	<p>This index measures the expected number of jobs for female workers relative to the potential supply of female workers, taking into account the sex segregated nature of the national labor market. It is defined as</p> $\frac{\sum p_i w_i}{F},$ <p>where <math>w_i</math> is the number of workers in the county who are in occupation category <math>i</math>, <math>p_i</math> is the national proportion of workers in occupation category <math>i</math> who are female, and <math>F</math> is the potential supply of women workers expressed as the number of women in the county aged 16 and older.</p> <p><math>p_i</math> was derived from Table P50 at the national level, <math>w_i</math> was derived from Table P50 at the county level, and <math>F</math> was derived from Table P8 at the county level.</p> <p>The index was taken from Nakamura, Masao, Alice Nakamura, and Dallas Cullen (1979), "Job Opportunities, the Offered Wage, and the Labor Supply of Married Women," <i>American Economic Review</i>, Vol. 69, pp. 787-805.</p>

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
	<b>Male Labor Force Participation and Work Hours (Proportions), 2000</b>	
CST00320	Proportion of males aged 16+ not in armed forces who are in civilian labor force, 2000 - county	$P43\_5 / (P43\_5 + P43\_8)$
CST00321	Proportion of white alone males aged 16+ not in armed forces who are in civilian labor force, 2000 - county	$P150A\_5 / (P150A\_5 + P150A\_8)$
CST00322	Proportion of black/African American alone males aged 16+ not in armed forces who are in civilian labor force, 2000 - county	$P150B\_5 / (P150B\_5 + P150B\_8)$
CST00323	Proportion of Asian and other races males aged 16+ not in armed forces who are in civilian labor force, 2000 - county	$(P150C\_5 + P150D\_5 + P150E\_5 + P150F\_5 + P150G\_5) / (P150C\_5 + P150C\_8 + P150D\_5 + P150D\_8 + P150E\_5 + P150E\_8 + P150F\_5 + P150F\_8 + P150G\_5 + P150G\_8)$
CST00324	Proportion of Hispanic or Latino males aged 16+ not in armed forces who are in civilian labor force, 2000 - county	$P150H\_5 / (P150H\_5 + P150H\_8)$
CST00325	Proportion of males aged 16+ who worked in 1999 - county	$P47\_3 / P47\_2$
CST00326	Proportion of males aged 16+ who usually worked 35 hours or more per week for 48 weeks or more in 1999 - county	$(P47\_5 + P47\_6) / P47\_2$
CST00327	Among males aged 16+ who worked in 1999, proportion who usually worked 35+ hours per week for 48+ weeks - county	$(P47\_5 + P47\_6) / P47\_3$
	<b>Armed Forces (Proportions), 2000</b>	
CST00328	Proportion of persons aged 16+ in the labor force who are in armed forces, 2000 - county	$(P43\_4 + P43\_11) / (P43\_3 + P43\_10)$
CST00329	Proportion of males aged 16+ in the labor force who are in armed forces, 2000 - county	$P43\_4 / P43\_3$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00330	Proportion of females aged 16+ in the labor force who are in armed forces, 2000 - county	$P43\_11 / P43\_10$
	<b>Unemployment Rates, 2000</b>	
CST00331	Unemployment rate for total population, 2000 - county	$(P43\_7 + P43\_14) / (P43\_5 + P43\_12)$
CST00332	Unemployment rate for males, 2000 - county	$P43\_7 / P43\_5$
CST00333	Unemployment rate for females, 2000 - county	$P43\_14 / P43\_12$
CST00334	Unemployment rate for population white alone, 2000 - county	$(P150A\_7 + P150A\_14) / (P150A\_5 + P150A\_12)$
CST00335	Unemployment rate for population black or African American alone, 2000 - county	$(P150B\_7 + P150B\_14) / (P150B\_5 + P150B\_12)$
CST00336	Unemployment rate for population Asian and other races, 2000 - county	$(P150C\_7 + P150C\_14 + P150D\_7 + P150D\_14 + P150E\_7 + P150E\_14 + P150F\_7 + P150F\_14 + P150G\_7 + P150G\_14) / (P150C\_5 + P150C\_12 + P150D\_5 + P150D\_12 + P150E\_5 + P150E\_12 + P150F\_5 + P150F\_12 + P150G\_5 + P150G\_12)$
CST00337	Unemployment rate for males white alone, 2000 - county	$P150A\_7 / P150A\_5$
CST00338	Unemployment rate for females white alone, 2000 - county	$P150A\_14 / P150A\_12$
CST00339	Unemployment rate for males black or African American alone, 2000 - county	$P150B\_7 / P150B\_5$
CST00340	Unemployment rate for females black or African American alone, 2000 - county	$P150B\_14 / P150B\_12$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00341	Unemployment rate for males Asian and other races, 2000 - county	$(P150C_7 + P150D_7 + P150E_7 + P150F_7 + P150G_7) / (P150C_5 + P150D_5 + P150E_5 + P150F_5 + P150G_5)$
CST00342	Unemployment rate for females Asian and other races, 2000 - county	$(P150C_{14} + P150D_{14} + P150E_{14} + P150F_{14} + P150G_{14}) / (P150C_{12} + P150D_{12} + P150E_{12} + P150F_{12} + P150G_{12})$
CST00343	Unemployment rate for population Hispanic or Latino, 2000 - county	$(P150H_7 + P150H_{14}) / (P150H_5 + P150H_{12})$
CST00344	Unemployment rate for males Hispanic or Latino, 2000 - county	$P150H_7 / P150H_5$
CST00345	Unemployment rate for females Hispanic or Latino, 2000 - county	$P150H_{14} / P150H_{12}$
	<b>Industry and Occupation (Proportions), 2000</b>	
CST00346	Proportion of employed civilians aged 16+ employed in agriculture, forestry, fishing, hunting, and mining, 2000 - county	$(P49_3 + P49_{30}) / P49_1$
CST00347	Proportion of employed civilians aged 16+ employed in construction, 2000 - county	$(P49_6 + P49_{33}) / P49_1$
CST00348	Proportion of employed civilians aged 16+ employed in manufacturing, 2000 - county	$(P49_7 + P49_{34}) / P49_1$
CST00356	Proportion of employed civilians aged 16+ employed in public administration, 2000 - county	$(P49_{28} + P49_{55}) / P49_1$
CST00357	Proportion of employed civilians aged 16+ employed in management, professional, and related occupations, 2000 - county	$(P50_3 + P50_{50}) / P50_1$
CST00358	Proportion of employed civilians aged 16+ employed in sales and office occupations, 2000 - county	$(P50_{31} + P50_{78}) / P50_1$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00359	Proportion of employed civilians aged 16+ employed in service occupations, 2000 - county	$(P50\_23 + P50\_70) / P50\_1$
CST00360	Proportion of employed civilians aged 16+ employed in farming, fishing, and forestry occupations, 2000 - county	$(P50\_34 + P50\_81) / P50\_1$
	<b>Total Housing Units and Housing Characteristics (Proportions and Medians), 2000</b>	
CST00363	Total housing units, 2000 - county	H1_1
CST00364	Proportion of housing units vacant, 2000 - county	$H6\_3 / H6\_1$
CST00365	Proportion of occupied housing units that are owner occupied, 2000 - county	$H7\_2 / H7\_1$
CST00366	Proportion of housing units built 1995 to March 2000 - county	$(H34\_2 + H34\_3) / H34\_1$
CST00367	Median year housing units built, 2000 - county	H35_1
CST00368	Proportion of occupied housing units that were moved into 1995 to March 2000 - county	$(H38\_3 + H38\_4 + H38\_10 + H38\_11) / H38\_1$
CST00369	Proportion of owner occupied housing units that were moved into 1995 to March 2000 - county	$(H38\_3 + H38\_4) / H38\_2$
CST00370	Proportion of renter occupied housing units that were moved into 1995 to March 2000 - county	$(H38\_10 + H38\_11) / H38\_9$
CST00371	Median gross rent of specified renter-occupied housing units paying cash rent, 2000 - county	H63_1
CST00373	Median value of specified owner-occupied housing units, 2000 - county	H76_1
CST00375	Proportion of housing units lacking complete plumbing facilities, 2000 - county	$H47\_3 / H47\_1$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
CST00376	Proportion of owner occupied housing units lacking complete plumbing facilities, 2000 - county	H48_4 / H48_2
CST00377	Proportion of renter occupied housing units lacking complete plumbing facilities, 2000 - county	H48_7 / H48_5

#### 2.4. Variables Derived From the American Community Survey 2006-2008 3-Year Estimates Summary File

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
	<b>ACS3 Sample Size, 2006-2008</b>	
B00001e1_06_08	Unweighted sample count of the population, 2006-2008 - county	B00001e1
B00002e1_06_08	Unweighted sample housing units, 2006-2008 - county	B00002e1
	<b>Total Population and Females Ages 15-44, 2006-2008</b>	
B01001e1_06_08	Total Population, 2006-2008 - county	B01001e1
F15_44_06_08	Females ages 15-44, 2006-2008 - county	B01001e30 + B01001e31 + B01001e32 + B01001e33 + B01001e34 + B01001e35 + B01001e36 + B01001e37 + B01001e38
	<b>Total Non-Hispanic Population and Non-Hispanic Population by Race, 2006-2008</b>	
C03002e2_06_08	Population not Hispanic or Latino, 2006-2008 - county	C03002e2
B01001He1_06_08	Population not Hispanic or Latino white alone, 2006-2008 - county	B01001He1
C03002e4_06_08	Population not Hispanic or Latino black or African American alone, 2006-2008 - county	C03002e4

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
	<b>Median Age, 2006-2008</b>	
B01002e1_06_08	Median age of both sexes, 2006-2008 - county	B01002e1
B01002e2_06_08	Median age of males, 2006-2008 - county	B01002e2
B01002e3_06_08	Median age of females, 2006-2008 - county	B01002e3
	<b>Hispanic Population, 2006-2008</b>	
C01001Ie1_06_08	Population Hispanic or Latino, 2006-2008 - county	C01001Ie1
C03001e4_06_08	Population Hispanic or Latino: Mexican, 2006-2008 - county	C03001e4
C03001e5_06_08	Population Hispanic or Latino: Puerto Rican, 2006-2008 - county	C03001e5
C03001e6_06_08	Population Hispanic or Latino: Cuban, 2006-2008 - county	C03001e6
	<b>Not U.S. Citizen (Percent), 2006-2008</b>	
C05001e5P_06_08	Percent of population not a U.S. citizen, 2006-2008 - county	$(C05001e5 / C05001e1) \times 100$
	<b>Workers with No Vehicle (Percents), 2006-2008</b>	
B08014e2P_06_08	Percent of workers ages 16+ in households with no vehicle available, 2006-2008 - county	$(B08014e2 / B08014e1) \times 100$
B08014e9P_06_08	Percent of male workers ages 16+ in households with no vehicle available, 2006-2008 - county	$(B08014e9 / B08014e8) \times 100$
B08014e16P_06_08	Percent of female workers ages 16+ in households with no vehicle available, 2006-2008 - county	$(B08014e16 / B08014e15) \times 100$
	<b>Household Type (Percents), 2006-2008</b>	
C11016e2P_06_08	Percent of households that are family households, 2006-2008 - county	$(C11016e2 / C11016e1) \times 100$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
C11016e3P_06_08	Percent of family households with 2 persons, 2006-2008 - county	$(C11016e3 / C11016e2) \times 100$
C11016e4P_06_08	Percent of family households with 3 persons, 2006-2008 - county	$(C11016e4 / C11016e2) \times 100$
C11016e5P_06_08	Percent of family households with 4 persons, 2006-2008 - county	$(C11016e5 / C11016e2) \times 100$
C11016e6P_06_08	Percent of family households with 5 or more persons, 2006-2008 - county	$(C11016e6 / C11016e2) \times 100$
C11016e7P_06_08	Percent of households that are non-family households, 2006-2008 - county	$(C11016e7 / C11016e1) \times 100$
C11016e8P_06_08	Percent of non-family households with 1 person, 2006-2008 - county	$(C11016e8 / C11016e7) \times 100$
C11016e9P_06_08	Percent of non-family households with 2 persons, 2006-2008 - county	$(C11016e9 / C11016e7) \times 100$
C11016e10P_06_08	Percent of non-family households with 3 persons, 2006-2008 - county	$(C11016e10 / C11016e7) \times 100$
C11016e11P_06_08	Percent of non-family households with 4 persons, 2006-2008 - county	$(C11016e11 / C11016e7) \times 100$
C11016e12P_06_08	Percent of non-family households with 5 or more persons, 2006-2008 - county	$(C11016e12 / C11016e7) \times 100$
	<b>Marital Status (Percents), 2006-2008</b>	
B12001e3P_06_08	Percent of males ages 15+ never married, 2006-2008 - county	$(B12001e3 / B12001e2) \times 100$
B12001e4P_06_08	Percent of males ages 15+ now married, 2006-2008 - county	$(B12001e4 / B12001e2) \times 100$
B12001e12P_06_08	Percent of females ages 15+ never married, 2006-2008 - county	$(B12001e12 / B12001e11) \times 100$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
B12001e13P_06_08	Percent of females ages 15+ now married, 2006-2008 - county	$(B12001e13 / B12001e11) \times 100$
	<b>ACS Birth Rates, 2006-2008</b>	
BR15_19_06_08	ACS Birth Rate per 1,000 married and unmarried women ages 15-19, 2006-2008 - county	$((B13002e4 + B13002e8) / (B13002e4 + B13002e8 + B13002e13 + B13002e17)) \times 1000$
BR20_34M_06_08	ACS Birth Rate per 1,000 married women ages 20-34, 2006-2008 - county	$( B13002e5 / (B13002e5 + B13002e14)) \times 1000$
BR35_50M_06_08	ACS Birth Rate per 1,000 married women ages 35-50, 2006-2008 - county	$( B13002e6 / (B13002e6 + B13002e15)) \times 1000$
BR20_34NM_06_08	ACS Birth Rate per 1,000 unmarried women ages 20-34, 2006-2008 - county	$( B13002e9 / (B13002e9 + B13002e18)) \times 1000$
BR35_50NM_06_08	ACS Birth Rate per 1,000 unmarried women ages 35-50, 2006-2008 - county	$( B13002e10 / (B13002e10 + B13002e19) ) \times 1000$
	<b>School Enrollment and Education (Percents), 2006-2008</b>	
B14001e2P_06_08	Percent of population ages 3+ enrolled in school, 2006-2008 - county	$(B14001e2 / B14001e1) \times 100$
Enrl_N_12_06_08	Percent of population ages 3+ enrolled in nursery school to grade 12, 2006-2008 - county	$((B14001e3 + B14001e4 + B14001e5 + B14001e6 + B14001e7) / B14001e1) \times 100$
Enrl_Coll_06_08	Percent of population ages 3+ enrolled in college or graduate school, 2006-2008 - county	$((B14001e8 + B14001e9) / B14001e1) \times 100$
C15001e12P_06_08	Percent of males ages 25-34 with a BA or higher, 2006-2008 - county	$(C15001e12 / C15001e8) \times 100$
C15001e38P_06_08	Percent of females ages 25-34 with a BA or higher, 2006-2008 - county	$(C15001e38 / C15001e34) \times 100$

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
M_BA_Plus_06_08	Percent of males ages 25+ with a BA or higher, 2006-2008 - county	$((C15002e8 + C15002e9) / C15002e2) \times 100$
F_BA_Plus_06_08	Percent of females ages 25+ with a BA or higher, 2006-2008 - county	$((C15002e16 + C15002e17) / C15002e10) \times 100$
M_No_HSDip_06_08	Percent of males ages 25+ with less than a high school diploma, 2006-2008 - county	$((C15002e3 + C15002e4) / C15002e2) \times 100$
F_No_HSDip_06_08	Percent of females ages 25+ with less than a high school diploma, 2006-2008 - county	$((C15002e11 + C15002e12) / C15002e10) \times 100$
	<b>Poverty (Percents), 2006-2008</b>	
C17001e3P_06_08	Percent of males with income in the past 12 months below poverty level, 2006-2008 - county	$(C17001e3 / (C17001e3 + C17001e12)) \times 100$
C17001e7P_06_08	Percent of females with income in the past 12 months below poverty level, 2006-2008 - county	$(C17001e7 / (C17001e7 + C17001e16)) \times 100$
	<b>Household Income (Percents), 2006-2008</b>	
I_lt_50K_06_08	Percent of households with household income less than \$50,000 (2008 dollars), 2006-2008 - county	$((C19001e2 + C19001e3 + C19001e4 + C19001e5 + C19001e6) / C19001e1) \times 100$
I_50K_99K_06_08	Percent of households with household income \$50,000-\$99,999, (2008 dollars) 2006-2008 - county	$((C19001e7 + C19001e8) / C19001e1) \times 100$
I_ge_100K_06_08	Percent of households with household income \$100,000 or more, (2008 dollars) 2006-2008 - county	$((C19001e9 + C19001e10 + C19001e11) / C19001e1) \times 100$
	<b>Median Household Income, 2006-2008</b>	
B19013e1_06_08	Median household income of all households (2008 dollars), 2006-2008 - county	B19013e1

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
B19013He1_06_08	Median household income of households with householder not Hispanic or Latino, white alone (2008 dollars), 2006-2008 - county	B19013He1
B19013Ie1_06_08	Median household income of households with householder Hispanic or Latino (2008 dollars), 2006-2008 - county	B19013Ie1
B19049e2_06_08	Median household income of households with householder ages < 25 (2008 dollars), 2006-2008 - county	B19049e2
B19049e3_06_08	Median household income of households with householder ages 25-44 (2008 dollars), 2006-2008 - county	B19049e3
B19049e4_06_08	Median household income of households with householder ages 45-64 (2008 dollars), 2006-2008 - county	B19049e4
B19049e5_06_08	Median household income of households with householder ages 65+ (2008 dollars), 2006-2008 - county	B19049e5
	<b>Income Inequality (Percents and Gini Index), 2006-2008</b>	
B19082e1_06_08	Percent of aggregate household income held by lowest quintile, 2006-2008 - county	B19082e1
B19082e2_06_08	Percent of aggregate household income held by 2nd quintile, 2006-2008 - county	B19082e2
B19082e3_06_08	Percent of aggregate household income held by 3rd quintile, 2006-2008 - county	B19082e3
B19082e4_06_08	Percent of aggregate household income held by 4th quintile, 2006-2008 - county	B19082e4
B19082e5_06_08	Percent of aggregate household income held by 5th quintile, 2006-2008 - county	B19082e5

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
B19082e6_06_08	Percent of aggregate household income held by top 5%, 2006-2008 - county	B19082e6
B19083e1_06_08	Gini Index of income inequality, 2006-2008 - county	B19083e1
	<b>Per Capita Income, 2006-2007</b>	
B19301e1_06_08	Per capita income (2008 dollars), 2006-2008 - county	B19301e1
	<b>Unemployment Rates, 2006-2008</b>	
UR_M_06_08	Unemployment rate for males, 2006-2008 - county	$((C23001e8 + C23001e15 + C23001e22 + C23001e29 + C23001e36 + C23001e41 + C23001e46) / (C23001e6 + C23001e13 + C23001e20 + C23001e27 + C23001e34 + C23001e39 + C23001e44)) \times 100$
UR_F_06_08	Unemployment rate for females, 2006-2008 - county	$((C23001e54 + C23001e61 + C23001e68 + C23001e75 + C23001e82 + C23001e87 + C23001e92) / (C23001e52 + C23001e59 + C23001e66 + C23001e73 + C23001e80 + C23001e85 + C23001e90)) \times 100$
UR_M16_44_06_08	Unemployment rate for males ages 16-44, 2006-2008 - county	$((C23001e8 + C23001e15 + C23001e22) / (C23001e6 + C23001e13 + C23001e20)) \times 100$
UR_F16_44_06_08	Unemployment rate for females ages 16-44, 2006-2008 - county	$((C23001e54 + C23001e61 + C23001e68) / (C23001e52 + C23001e59 + C23001e66)) \times 100$
	<b>Housing Units, 2006-2008</b>	
B25001e1_06_08	Total housing units, 2006-2008 - county	B25001e1

<b>Variable Name</b>	<b>Description</b>	<b>Formula</b>
	<b>Housing Unit Vacancy and Tenure (Percents), 2006-2008</b>	
HU_vacant_06_08	Percent of housing units vacant, 2006-2008) - county	$(B25002e3 / B25002e1) \times 100$
HU_owner_06_08	Percent of housing units owner occupied, 2006-2008) - county	$(B25003e2 / B25002e1) \times 100$
HU_rent_06_08	Percent of housing units renter occupied, 2006-2008) - county	$(B25003e3 / B25002e1) \times 100$
	<b>Median Number of Rooms, 2006-2008</b>	
B25021e2_06_08	Median number of rooms in owner occupied housing units, 2006-2008 – county	B25021e2
B25021e3_06_08	Median number of rooms in renter occupied housing units, 2006-2008 - county	B25021e3
	<b>Type of Housing Structure (Percents), 2006-2008</b>	
One_HU_06_08	Percent of occupied housing units in 1 unit structure, 2006-2008 - county	$((C25032e3 + C25032e8) / (C25032e2 + C25032e7)) \times 100$
TwoPls_HU_06_08	Percent of occupied housing units in 2+ units structure, 2006-2008 - county	$((C25032e4 + C25032e5 + C25032e9 + C25032e10) / (C25032e2 + C25032e7)) \times 100$
MobilHome_06_08	Percent of occupied housing units mobile home/other type structure, 2006-2008 - county	$((C25032e6 + C25032e11) / (C25032e2 + C25032e7)) \times 100$
	<b>Median Rent, 2006-2008</b>	
B25064e1_06_08	Median gross rent of renter-occupied housing units paying cash rent, 2006-2008 - county	B25064e1

## Chapter 3. Data Sources and Variable Naming Conventions

This chapter describes the sources of the variables in the contextual data file and explains how the variables in the contextual data file are named.

### 3.1. NSFG06-08 Sampling Files

Generated by the NSFG06-08 sampling process, the sampling files identify the location of each NSFG06-08 respondent at the time of interview, including the state, county, census tract, and block of each respondent's address.

### 3.2. County Characteristics, 2000-2007 (ICPSR 20660)

ICPSR produced *County Characteristics, 2000-2007* in order to facilitate multi-level data analyses. The file contains numerous county-level variables that can be used to investigate contextual influences at the county level. Included are population size and the components of population change during 2000-2005 and a wide range of characteristics on or about 2005: population by age, sex, race, and Hispanic origin; labor force size and unemployment; personal income; earnings and employment by industry; land surface form topography and climate; government revenue and expenditures; crimes reported to police; 2004 presidential election results; housing authorized by building permits; Medicare enrollment; and health profession shortage areas.

With some exceptions, the variables were derived from data files (hundreds of data files comprising millions of records) prepared by various federal agencies: the Bureau of the Census, the Bureau of Economic Analysis, the Bureau of Labor Statistics, the Centers for Medicare and Medicaid Services, the Department of Energy, the Economic Research Service of the Department of Agriculture, and the Health Resources and Services Administration. Twenty-two variables were obtained from other sources. Crime statistics (twelve variables) were taken from a data file prepared by ICPSR's National Archive of Criminal Justice Data, and the presidential election returns (seven variables) were derived from a data file provided by Charles Haines Stewart III, head of the Department of Political Science at the Massachusetts Institute of Technology. Two climate variables were taken from a building code proposal submitted by the Department of Energy to the International Code Council, and a third climate variable was taken from an article by Robert S. Briggs, Robert G. Lucas, and Z. Todd Taylor<sup>1</sup>.

About one half of the variables in ICPSR 20660 were copied verbatim from the data sources, while the rest were computed. Most of the computed variables were generated by combining information across records or variables in the original data files. In addition, some rates, percentages, and sums were computed. ICPSR 20660 has a separate record for each of the 3,141 counties and county equivalents in the United States in 2005.

1. Briggs, Robert S., Lucas, Robert G., and Taylor, Z. Todd. Climate Classification for Building Energy Codes and Standards: Part 2 - Zone Definitions, Maps and Comparisons, Technical and Symposium Papers, ASHRAE Winter Meeting, Chicago, IL, January, 2003.

All of the variables taken from ICPSR 20660 retained their original names in this contextual data file.

### **3.3. Census of Population and Housing, 2000: Summary File 3 (SF3)**

Summary File 3 (SF3) contains 813 tables of population and housing characteristics tabulated from the Census 2000 data. Each table cell is represented by a separate SF3 variable, 16,603 variables in all. Topics covered by the tables include sex, age, race, Hispanic origin, marital status, migration, year moved into residence, education, labor force participation, unemployment, income in 1999, poverty status, occupation, industry, household type, housing value, plumbing facilities, year structure built, and other characteristics. The tables are presented for the nation as a whole and for smaller subdivisions of the nation down to the block group, such as regions, states, Metropolitan Statistical Areas, counties, places, ZIP Code Tabulation Areas, and census tracts. Derived from the Census 2000 long-form questionnaire which sampled about one-sixth of the population, the SF3 variables are estimates of the actual figures that would have been obtained from a complete count. However, as a result of the procedure that the Census Bureau used to compute the weights for the long-form data, the SF3 total population estimates for counties (and other large geographic units) agree with the 100 percent census counts obtained from the Census 2000 short-form questionnaire. Some 4,000 discrete data files constitute the SF3 data.

In this contextual data file, the variables derived from SF3 retained the names assigned to them in the NSFG Cycle 6 contextual data files. Two naming conventions were applied for these variables in Cycle 6:

1. The first 21 variables (C\_AREALAND to C\_P7\_10) were named by prepending “C\_” to their names in ICPSR’s SAS, SPSS, and Stata setups for SF3. Table 3-1 at the end of this chapter contains a crosswalk between the setup names and the variable names in the original SF3 codebook.
2. The remaining variables were named according to the convention followed in the NSFG Cycle 6 contextual data files. Accordingly, each of these variable names has eight characters. The first character is “C” which indicates that the variable is a county-level variable. Next comes the four-letter string “ST00” which identifies the data source and the year it represents: “ST” denotes SF3 and “00” the year 2000. Finally, a tree-digit sequence number, identical to the sequence number assigned in Cycle 6, completes the variable name.

### **3.4. American Community Survey 2006-2008 3-Year Estimates Summary File (ACS3)**

The American Community Survey is a continuous nationwide survey which disseminates population and housing information every year. A critical element in the Census Bureau's reengineered decennial census program, the American Community Survey replaced the long form questionnaires administered by censuses before the 2010 Census. Population topics covered by the survey include sex, age, relationship to householder, marital status, Hispanic origin, race, place of birth, citizenship, year of entry into the United States, school enrollment, educational

attainment, ancestry, language spoken at home, ability to speak English, residence 1 year ago, disability, fertility, grandparents as caregivers, military service, employment, means of transportation, travel time to work, industry, occupation, and income. Housing topics include year structure built, year householder moved into unit, acreage, agricultural sales, business on property, number of rooms and bedrooms, plumbing facilities, kitchen facilities, telephone service available, vehicles available, house heating fuel, cost of utilities, condominium status and fee, tenure, monthly rent, value of property, real estate taxes, insurance for fire, hazard, and flood, mortgage, home equity loan, mobile home costs, and seasonal residence.

In 2005, the American Community Survey expanded its sample to housing units in all counties in the 50 states and the District of Columbia and to all 78 municipios in Puerto Rico. About three million housing unit addresses are sampled annually throughout the United States and Puerto Rico. In 2006, the sample was expanded to include the population living in group quarters. Group quarters include nursing homes, correctional facilities, military barracks, and college/university housing among others.

Beginning with the 2005 American Community Survey, and continuing every year thereafter, 1-year estimates of demographic, social, economic and housing characteristics are available for geographic areas with a population of 65,000 or more. This includes the nation, all states and the District of Columbia, all congressional districts, approximately 800 counties, and 500 metropolitan and micropolitan statistical areas, among others.

In 2008, the American Community Study released its first multiyear estimates based on data collected from 2005 through 2007, and in 2009 estimates based on data collected from 2006 through 2008 were released. These 3-year estimates of demographic, social, economic and housing characteristics are available for geographic areas with a population of 20,000 or more, including the nation, all states and the District of Columbia, all congressional districts, approximately 1,800 counties, and 900 metropolitan and micropolitan statistical areas, among others. For areas with a population less than 20,000, 5-year estimates will be available. The first 5-year estimates, based on data collected from 2005 through 2009, will be released in 2010.

Some 25,000 discrete data files constitute the American Community Survey 2006-2008 3-Year Estimates Summary File. The ACS3 data are similar in structure to the SF3 data. Like SF3, ACS3 comprises numerous tables of population and housing characteristics which are presented for the nation as a whole and for smaller subdivisions of the nation, and each cell in every ACS3 table is represented by a separate variable in the ACS3 data. Moreover, like the SF3 variables, virtually every ACS3 variable is a sample estimate of the actual figure that would have been obtained from a complete count. However, the overall ACS3 sampling fraction is smaller than the SF3 sampling rate, resulting in less precise estimates than SF3. Another difference is that ACS3 includes variables showing standard errors and margins of error but SF3 does not.

Three conventions were used to name the contextual variables derived from ACS3:

1. For variables copied as is from ACS3, the variable name consists of the name assigned to the variable in the original ACS3 SAS setups prepared by the Census Bureau, followed by the suffix “\_06\_08.” In the setups, each variable name comprises the ACS3 table ID and cell position

within the table corresponding to the variable, separated by the letter “e.” For example, the variable corresponding to the fourth cell of table C03001 in ACS3 is named C03001e4 in the setups and C03001e4\_06\_08 in the contextual data file.

2. For computed variables representing the percentage of persons or housing units in an ACS3 table cell, the variable name has three components: the name assigned in the Census Bureau’s SAS setups, followed by the letter P and then the suffix “\_06\_08.”

3. For other computed variables, the variable name consists of a descriptive acronym followed by the suffix “\_06\_08.”

## Chapter 4. Missing Values

For some respondents, no data value is stored for one or more variables in the contextual data file. These missing values are indicated by missing value codes, which are the subject of this chapter. Chapter 4 describes the missing value codes and explains why some values are missing.

The contextual data file has five missing value codes: the SAS numeric missing value code represented by a period (.) and the SAS special numeric missing value codes represented by the letters D, L, M, and S. While four of these codes—D, L, M, and “.”—appear in the variables taken from ICPSR 20660, only “S” is present in the SF3-derived variables and only “.” exists in the ACS3-derived variables. None of the variables derived from the NSFG06-08 sampling files have any missing values.

**Table 4-1. Summary of Missing Value Codes in the Contextual Data File**

Missing Value Code	Description	Data Source
D	Value suppressed to avoid disclosure.	ICPSR 20660
L	Value suppressed to avoid disclosure. Represents less than \$50,000 or 10 jobs.	ICPSR 20660
M	Bureau of Economic Analysis did not report data for Virginia county/independent city separately.	ICPSR 20660
S	Value suppressed because it is based on unacceptably small sample size	SF3
.	Meaning is variable specific. Description provided below.	ICPSR 20660, ACS3

### 4.1. Missing Values in the Variables Taken from ICPSR 20660

The variables taken from ICPSR 20660 have four missing value codes: D, L, M, and “.” The first three appear only in the Regional Economic Information System variables CA05N0010\_05 to CA35\_340\_05, while “.” appears in the topology and climate variables AmenityFIPS to AmenityRank, the federal government expenditure variables CFFR\_DR04 to CFFR\_Oth04, the local government expenditure and revenue variables PropTax02 to LocExp02, the crime statistics variables CrimePop04 to CrimeRate04, the election variables TotalVotes04 to PctOther04, and the Medicare variables Mcare\_Agd03 to McareB03.

Variables CA05N0010\_05 to CA35\_340\_05

Both D and L indicate that the Bureau of Economic Analysis (the source of variables CA05N0010\_05 to CA35\_340\_05 in ICPSR 20660) suppressed a value in order to avoid disclosure. However, L is more informative than D. L indicates that the value was suppressed because it represents less than \$50,000 or 10 jobs, while D just says that the value was suppressed without offering any information about the missing value.

M indicates that a value is missing because the respondent resided in a Virginia county or independent city for which the Bureau of Economic Analysis did not report data. The BEA combined the data of small independent cities in Virginia with an adjacent county instead of reporting on them separately.

The missing value code “.” appears in variables AmenityFIPS to AmenityRank, CFFR\_DR04 to CFFR\_Oth04, PropTax02 to LocExp02, CrimePop04 to CrimeRate04, TotalVotes04 to PctOther04, and Mcare\_Agd03 to McareB03, as explained below.

#### Variables AmenityFIPS to AmenityRank

The topology and climate variables AmenityFIPS to AmenityRank are coded “.” for the respondents who were interviewed in Alaska, Hawaii, and Jefferson County, Colorado. The source from which ICPSR 20660 took these variables did not have data for Alaska and Hawaii, and the values for Jefferson County were set to missing in ICPSR 20660 because the data source predated a boundary change in 2001 in which Jefferson County lost territory to Broomfield County, Colorado.

#### Variables CFFR\_DR04 to CFFR\_Oth04 and PropTax02 to LocExp02

The government revenue and expenditure variables CFFR\_DR04 to CFFR\_Oth04 and PropTax02 to LocExp02 are coded “.” for the respondents in the five counties that constitute New York City. They are coded missing because the original data source of these variables in ICPSR 20660 reported only aggregate data for New York City as whole and not for its constituent counties separately.

#### Variables CrimePop04 to CrimeRate04

The crime statistics variables CrimePop04 to CrimeRate04 are coded “.” for respondents in Alaska, Connecticut, and Illinois. The Alaska and Connecticut cases are coded missing because in the original FBI data, which are the source of these variables in ICPSR 20660, the crimes reported by the Alaska and Connecticut state police are shown separately instead of being allocated to counties. The Illinois cases are coded missing because the original FBI data for Illinois were very incomplete.

Besides being coded missing for cases in Alaska, Connecticut, and Illinois, variable CrimeRate04 is also coded “.” whenever variable CrimePop04, the denominator of CrimeRate04, equals zero.

#### Variables TotalVotes04 to PctOther04

The 2004 presidential election variables TotalVotes04 to PctOther04 are coded “.” for Alaskan respondents because the Alaskan election results were reported by election districts instead of counties.

## Variables Mcare\_Agd03 to McareB03

The Medicare variables Mcare\_Agd03 to McareB03 are coded “.” for persons in Jefferson County, Colorado and Fairbanks North Star Borough, Alaska. The Jefferson County cases are coded missing because the original Medicare data, which are the source of these variables in ICPSR 20660, used outdated boundaries for this county—the data reported for Jefferson County included a part of Broomfield County, which was created in 2001 from parts of Adams, Boulder, Jefferson, and Weld Counties in Colorado. The cases in Fairbanks North Star Borough are coded missing because the original Medicare data did not have a record for this borough.

### **4.2. Missing Values in the Variables Derived from SF3**

At the request of the NSFG staff at the National Center for Health Statistics, ICPSR suppressed ratios (proportions, rates, and means) and medians derived from SF3 based on unacceptably small sample sizes. The suppressed values were recoded to the missing value code S in the contextual data file.

Two distinct thresholds were used to suppress the ratios, one for binary variables and the other for non-binary variables:

1. Ratios derived from binary variables in the Census 2000 questionnaire were recoded to missing if the estimated sample size of their denominators was less than 10. For every county, we estimated the sample size of each ratio by multiplying the estimated population size of the ratio's denominator, given by the SF3 variable that is the denominator of the ratio, by the proportion of persons or housing units (sampling fraction) within the county in the Census 2000 long questionnaire sample. In terms of the variables names in the original SF3 codebook, the sampling fraction for person-based ratios was computed as  $P002001/POP100$ , where P002001 is the unweighted sample count of the population and POP100 is the 100 percent population count. Similarly, the sampling fraction for housing-based ratios was computed as  $H002001/H003001$ , where H002001 is the unweighted sample count of housing units and H003001 is 100 percent count of housing units. For example, for variable  $CST00242 = P016019/P010015$ , the estimated sample size of the denominator is  $P010015(P002001/POP100)$ .

2. Ratios derived from non-binary variables were recoded to missing if the estimated population size of their denominators was less than 120, i.e., if the SF3 variable that is the denominator of a given ratio is less than 120. For population variables, this corresponds to an estimated sample size of about 13 to 41, since the range of  $P002001/POP100$  is 0.1093317 to 0.3394110 for the counties in the NSFG06-08 sample. For housing variables, it corresponds to an estimated sample size of about 13 to 42, since the range of  $H002001/H003001$  is 0.1110883 to 0.3469722.

Medians were suppressed if the estimated size of the universe covered by the median was less than 120. Like the second threshold for ratios, this corresponds to an estimated sample size of about 13 to 41 for population variables and 13 to 42 for housing variables.

These suppression rules apply only to ratios and medians. ICPSR did not recode to missing any of the SF3-derived variables that are absolute numbers, e.g., C\_P5\_2 and CST00601.

### **4.3. Missing Values in the Variables Derived from ACS3**

The variables derived from ACS3 have one missing data code: “.” These variables are coded missing for two reasons:

1. ACS3 does not have data for the counties in which the respondents resided. The ACS3-derived variables are coded missing for 1,027 respondents in counties and county equivalents that were excluded from ACS3 because they had less than 20,000 persons each, the cutoff point for inclusion in the American Community Survey three-year estimates. Thus, every variable derived from ACS3 has at least 1,027 missing cases.
2. The variable was derived from an ACS3 table that is coded missing in the ACS3 data. If more than half of the cells in an ACS3 table were not statistically significant (not sufficiently precise) for a given county, then the Census Bureau recoded to missing the county’s values for all of the ACS3 variables representing that table. Consequently, any variable derived from that table is also coded missing for the NSFG06-08 respondents in the county.

## Chapter 5. Descriptive Statistics

<b>Variable Name</b>	<b>Variable Label</b>	<b>Missing Cases</b>	<b>Non-Missing Cases</b>	<b>Minimum</b>	<b>Maximum</b>	<b>Mean</b>
