### Appendix 7a: List of Restricted-Use Analytic Variables for the Female File

(not including contextual variables)

Most of these variables have been included on the NSFG Public Use File in some form – e.g., with fewer categories, with some values top- or bottom-coded, or with new variables to summarize information from several variables. Those measures were taken to minimize the risk of inadvertent disclosure, but the full detail of these analytic variables remains accessible through the NCHS Research Data Center.

Note: The variables beginning with "IN" are available on the Public Use Files with the same variable name, minus the "IN."

| Variable Name | Section | Variable Label  | Variable Type |
|---------------|---------|---|---------------|
| INHISGRP      | A       | Hispanic subgroup   | raw           |
| RRACE1        | A       | Race of respondent - 1st reported   | raw           |
