CE-3m. Please look at the calendar and think back to the very first time in your life that you ever had sexual intercourse with a man. In what month and year was that?

❖ If R refuses, remind her gently of the importance of the question and the confidentiality of her answer. If appropriate say: I understand that this may be a difficult question. However, this question is very important because it tells us when a woman is first exposed to the risk of becoming pregnant. Would you be willing to provide the month and year, or perhaps just the year? If not, we
