Deaths: Final Data for 2014

Supplemental tables

- Table I-1. Number of deaths, death rates, and age-adjusted death rates for injury by firearms, by race and sex: United States, 1999-2014
- Table I–2. Number of deaths, death rates, and age-adjusted death rates for injury by firearms, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2014
- Table I-3. Number of deaths, death rates, and age-adjusted death rates for drug-induced causes, by race and sex: United States, 1999-2014
- Table I–4. Number of deaths, death rates, and age-adjusted death rates for drug-induced causes, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2014
- Table I–5. Number of deaths, death rates, and age-adjusted death rates for alcohol-induced causes, by race and sex: United States, 1999–2014
- Table I–6. Number of deaths, death rates, and age-adjusted death rates for alcohol-induced causes, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2014
- Table I–7. Number of deaths, death rates, and age-adjusted death rates for ages 15 and over, by marital status and sex: United States, 2014
- Table I–8. Number of deaths, death rates, and age-adjusted death rates for ages 25–64, by educational attainment and sex: Total of 43 reporting states and District of Columbia using the 2003 version of the U.S. Standard Certificate of Death and total of 4 reporting states using the 1989 version of the U.S. Standard Certificate of Death, 2014
- Table I–9. Number of deaths, death rates, and age-adjusted death rates for injury at work for ages 15 and over, by race and sex: United States, 2014
- Table I-10. Number of deaths, death rates, and age-adjusted death rates for injury at work, by race and sex: United States, 1993-2014

See footnotes at end of table.

Table I-1. Number of deaths, death rates, and age-adjusted death rates for injury by firearms, by race and sex: United States, 1999-2014

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys; see Technical Notes. A listing of the *International Classification of Diseases, Tenth Revision* (ICD–10) codes included in this table can be found in the note at the bottom of the table]

Table I–1. Number of deaths, death rates, and age-adjusted death rates for injury by firearms, by race and sex: United States, 1999–2014—Con.

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys; see Technical Notes. A listing of the *International Classification of Diseases, Tenth Revision* (ICD-10) codes included in this table can be found in the note at the bottom of the table]

¹Multiple-race data were reported by 46 states and the District of Columbia in 2014, by 42 states and the District of Columbia in 2012 and 2013, by 38 states and the District of Columbia in 2011, by 37 states and the District of Columbia in 2010, by 34 states and the District of Columbia in 2008 and 2009, by 27 states and the District of Columbia in 2007, by 25 states and the District of Columbia in 2006, by 21 states and the District of Columbia in 2005, by 15 states in 2004, and by 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

NOTE: Causes of death attributable to injury by firearms include ICD-10 codes *U01.4, W32-W34, X72-X74, X93-X95, Y22-Y24, and Y35.0.

²Includes Aleut and Eskimo persons.

³Includes Chinese, Filipino, Hawaiian, Japanese, and other Asian or Pacific Islander persons.

⁴For method of computation, see Technical Notes.

Table I–2. Number of deaths, death rates, and age-adjusted death rates for injury by firearms, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2014

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. A listing of the International Classification of Diseases, Tenth Revision (ICD-10) codes included in this table can be found in the note at the bottom of the table]

Table I–2. Number of deaths, death rates, and age-adjusted death rates for injury by firearms, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2014—Con.

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. A listing of the International Classification of Diseases, Tenth Revision (ICD-10) codes included in this table can be found in the note at the bottom of the table]

¹Figures for origin not stated are included in "All origins" but are not distributed among specified origins.

NOTE: Causes of death attributable to injury by firearms include ICD-10 codes *U01.4, W32-W34, X72-X74, X93-X95, Y22-Y24, and Y35.0.

²Includes races other than white and black.

³Multiple-race data were reported by 46 states and the District of Columbia in 2014, by 42 states and the District of Columbia in 2013, by 38 states and the District of Columbia in 2011, by 37 states and the District of Columbia in 2010, by 34 states and the District of Columbia in 2008, by 27 states and the District of Columbia in 2007, by 25 states and the District of Columbia in 2006, by 21 states and the District of Columbia in 2005, by 15 states in 2004, and by 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

⁴For method of computation, see Technical Notes.

Table I-3. Number of deaths, death rates, and age-adjusted death rates for drug-induced causes, by race and sex: United States, 1999–2014

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. ¹Multiple-race data were reported by 46 states and the District of Columbia in 2014, by 42 states and the District of Columbia in 2012 and 2013, by 38 states and the District of Columbia in 2010, by 34 states and the District of Columbia in 2008 and 2009, by 27 states and the District of Columbia in 2007, by 25 states and the District of Columbia in 2006, by 21 states and the District of Columbia in 2005, by 15 states in 2004, and by 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

NOTE: Causes of death attributable to drug-induced mortality include ICD-10 codes D52.1, D59.0, D59.2, D61.1, D64.2, E06.4, E16.0, E23.1, E24.2, E27.3, E66.1, F11.1-F11.5, F11.7-F11.9, F12.1-F12.5, F12.7-F12.9, F13.1-F13.5, F13.7-F13.9, F14.1-F14.5, F14.7-F14.9, F15.1-F15.5, F15.7-F15.9, F16.1-F16.5, F16.7-F16.9, F17.3-F17.5, F17.7-F17.9, F18.1-F18.5, F18.7-F18.9, F19.1-F19.5, F19.7-F19.9, G21.1, G24.0, G25.1, G25.4, G25.6, G44.4, G62.0, G72.0, I95.2, J70.2-J70.4, K85.3, L10.5, L27.0-L27.1, M10.2, M32.0, M80.4, M81.4, M83.5, M87.1, R50.2, R78.1-R78.5, X40-X44, X60-X64, X85, and Y10-Y14. In 2006, the list of drug-induced codes was modified to include two new ICD-10 codes, Drug-induced acute pancreatitis (K85.3) and Drug-induced fever (R50.2).

²Includes Aleut and Eskimo persons.

³Includes Chinese, Filipino, Hawaiian, Japanese, and other Asian or Pacific Islander persons.

⁴For method of computation, see Technical Notes.

Table I-4. Number of deaths, death rates, and age-adjusted death rates for drug-induced causes, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2014

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. A listing of the International Classification of Diseases, Tenth Revision (ICD-10) codes included in this table can be found in the note at the bottom of the table]

See footnotes at end of table.															

Table I-4. Number of deaths, death rates, and age-adjusted death rates for drug-induced causes, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2014—Con.

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. A listing of the International Classification of Diseases, Tenth Revision (ICD-10) codes included in this table can be found in the note at the bottom of the table]

		All origins	s ¹		Hispani	С	N	on-Hispar	nic ²	Non-	Hispanic	white ³	Non-	Hispanic	black ³

¹Figures for origin not stated are included in "All origins" but are not distributed among specified origins.

NOTE: Causes of death attributable to drug-induced mortality include ICD-10 codes D52.1, D59.0, D59.2, D61.1, D64.2, E06.4, E16.0, E23.1, E24.2, E27.3, E66.1, F11.1-F11.5, F11.7-F11.9, F12.1-F12.5, F12.7-F12.9, F13.1-F13.5, F13.7-F13.9, F14.1-F14.5, F14.7-F14.9, F15.1-F15.5, F15.7-F15.9, F16.1-F16.5, F16.7-F16.9, F17.3-F17.5, F17.7-F17.9, F18.1-F18.5, F18.7-F18.9, F19.1-F19.5, F19.7-F19.9, G21.1, G24.0, G25.1, G25.4, G25.6, G44.4, G62.0, G72.0, I95.2, J70.2-J70.4, K85.3, L10.5, L27.0-L27.1, M10.2, M32.0, M80.4, M81.4, M83.5, M87.1, R50.2, R78.1-R78.5, X40-X44, X60-X64, X85, and Y10-Y14. In 2006, the list of drug-induced codes was modified to include two new ICD-10 codes, Drug-induced acute pancreatitis (K85.3) and Drug-induced fever (R50.2).

²Includes races other than white and black.

³Multiple-race data were reported by 46 states and the District of Columbia in 2014, by 42 states and the District of Columbia in 2012 and 2013, by 38 states and the District of Columbia in 2011, by 37 states and the District of Columbia in 2008, by 27 states and the District of Columbia in 2007, by 25 states and the District of Columbia in 2006, by 21 states and the District of Columbia in 2005, by 15 states in 2004, and by 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

⁴For method of computation, see Technical Notes.

Table I-5. Number of deaths, death rates, and age-adjusted death rates for alcohol-induced causes, by race and sex: United States, 1999–2014

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys; see Technical Notes. A listing of the *International Classification of Diseases, Tenth Revision* (ICD-10) codes included in this table can be found in the note at the bottom of the table]

Table I–5. Number of deaths, death rates, and age-adjusted death rates for alcohol-induced causes, by race and sex: United States, 1999–2014—Con.

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys; see Technical Notes. A listing of the *International Classification of Diseases, Tenth Revision* (ICD-10) codes included in this table can be found in the note at the bottom of the table]

		All races	3		White ¹			Black ¹			rican In ska Nat		Asian c	or Pacific I	slander ^{1,3}

¹Multiple-race data were reported by 46 states and the District of Columbia in 2014, by 42 states and the District of Columbia in 2012 and 2013, by 38 states and the District of Columbia in 2011, by 37 states and the District of Columbia in 2010, by 34 states and the District of Columbia in 2008 and 2009, by 27 states and the District of Columbia in 2007, by 25 states and the District of Columbia in 2006, by 21 states and the District of Columbia in 2005, by 15 states in 2004, and by 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

NOTE: Causes of death attributable to alcohol-induced mortality include ICD-10 codes E24.4, F10, G31.2, G62.1, G72.1, I42.6, K29.2, K70, K85.2, K86.0, R78.0, X45, X65, and Y15. In 2006, the list of alcohol-induced codes was modified to include a new ICD-10 code, Alcohol-induced acute pancreatitis (K85.2).

²Includes Aleut and Eskimo persons.

³Includes Chinese, Filipino, Hawaiian, Japanese, and other Asian or Pacific Islander persons.

⁴For method of computation, see Technical Notes.

Table I-6. Number of deaths, death rates, and age-adjusted death rates for alcohol-induced causes, by Hispanic origin, race for non-Hispanic population, and sex: United States, 1999–2014

[Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. A listing of the International Classification of Diseases, Tenth Revision (ICD-10) codes included in this table can be found in the note at the bottom of the table]

¹Figures for origin not stated are included in "All origins" but are not distributed among specified origins.

NOTE: Causes of death attributable to alcohol-induced mortality include ICD-10 codes E24.4, F10, G31.2, G62.1, G72.1, I42.6, K29.2, K70, K85.2, K86.0, R78.0, X45, X65, and Y15. In 2006, the list of alcohol-induced codes was modified to include a new ICD-10 code, Alcohol-induced acute pancreatitis (K85.2).

²Includes races other than white and black.

³Multiple-race data were reported by 46 states and the District of Columbia in 2014, by 42 states and the District of Columbia in 2012 and 2013, by 38 states and the District of Columbia in 2011, by 37 states and the District of Columbia in 2008, by 27 states and the District of Columbia in 2007, by 25 states and the District of Columbia in 2006, by 21 states and the District of Columbia in 2005, by 15 states in 2004, and by 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

⁴For method of computation, see Technical Notes.

Table I–7. Number of deaths, death rates, and age-adjusted death rates for ages 15 and over, by marital status and sex: United States, 2014

[Rates are per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Population estimates used for computing death rates are based on the American Community Survey adjusted to postcensal July 1, 2014, resident population control totals for the United States; see Technical Notes]

Table I-10. Number of deaths, death rates, and age-adjusted death rates for injury at work, by race and sex: United States, 1993-2014—Con.

[Includes ages 15 years and over; excludes figures for age not stated. Rates are on an annual basis per 100,000 population in specified group; age-adjusted rates are per 100,000 U.S. standard population; see Technical Notes. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years; see Technical Notes. Race categories are consistent with the 1977 Office of Management and Budget (OMB) standards. For a discussion of injury at work, see Technical Notes]

- Year							All other ¹							
	All races			White ¹			Total ¹			Black ¹				
	Both sexes	Male	Female	Both sexes	Male	Female	Both	Male	Female	Both	Male	Female		
	Age-adjusted rate ³													
2004	2.2	4.2	0.4	2.3	4.4	0.3	1.7	3.2	0.4	2.0	3.8	0.4		
2003	2.2	4.1	0.3	2.3	4.2	0.3	1.9	3.6	0.3	2.1	4.2	0.3		
2002	2.4	4.4	0.4	2.4	4.6	0.4	1.9	3.7	0.4	2.1	4.1	0.4		
2001 ²	3.7	6.6	1.0	3.8	6.8	0.9	3.1	5.3	1.1	3.1	5.5	1.1		
2000	2.5	4.6	0.4	2.5	4.8	0.4	2.1	3.9	0.4	2.3	4.6	0.4		
1999	2.6	4.9	0.4	2.6	4.9	0.4	2.3	4.5	0.4	2.6	5.1	0.4		
1998	2.6	4.8	0.5	2.7	5.0	0.5	2.1	4.1	0.4	2.3	4.7	0.4		
1997	2.7	5.0	0.5	2.7	5.0	0.5	2.6	5.0	0.5	2.8	5.5	0.4		
1996	2.8	5.2	0.5	2.8	5.3	0.4	2.5	4.8	0.5	2.6	5.3	0.5		
1995	2.8	5.3	0.5	2.9	5.4	0.5	2.7	5.3	0.5	3.0	6.0	0.5		
1994	2.9	5.5	0.5	3.0	5.6	0.5	2.8	5.4	0.6	3.1	6.0	0.6		
1993	2.9	5.5	0.5	2.9	5.5	0.5	2.8	5.4	0.6	3.0	6.0	0.5		

¹Includes multiple-race data for 46 states and the District of Columbia in 2014, 42 states and the District of Columbia in 2013, 38 states and the District of Columbia in 2011, 37 states and the District of Columbia in 2010, 34 states and the District of Columbia in 2008 and 2009, 27 states and the District of Columbia in 2007, 25 states and the District of Columbia in 2006, 21 states and the District of Columbia in 2005, 15 states in 2004, and 7 states in 2003; see Technical Notes. The multiple-race data for these reporting areas were bridged to the single-race categories of the 1977 OMB standards for comparability with other reporting areas; see Technical Notes.

²Figures include September 11, 2001, terrorism-related deaths for which death certificates were filed as of October 24, 2002; see Technical Notes from *National Vital Statistics Report*, "Deaths: Final data for 2001," Volume 52, Number 3.

³For method of computation, see Technical Notes.
