Annex 3a. Empirical Questions Matrix- Draft 27-12-02

No.	Survey-Code	Country	Year	Title Survey	General Measure	Number of questions of General Measure	ICF Domain	Mixture of concepts	Duration specified	Response categories	Attribution to a health condition	Use of neutral terminology	Reference/ Norm	Complexity	Age-oriented	Need of help	Specific reference to mental health function	Specific reference to work/work activities
		EUROSTAT		Labour Force Survey 2002	Yes	1	BF, BS, (A)	Yes	Long standing/ 6months	DIC	Not Applicable	No	No	No	No	No	No	No 6
		EUROSTAT		SILC 2004 - Proposal MEHM	Yes	1	A	No	at least 6 months	Multiple	Yes	Yes	Yes	No	No	No	No	No

1 In the instruction it is clarified that the duration should be at least 3 months

2 It is not General measure because the question is related with handicap or disability officially notified

2bis It is not General Measure because asked only on who received disability pension

3 It also has a question on handicap or disability officially notified

4 It is age oriented because included "work and job tasks" but the age group is 15-64 years old

5 It takes into account: sensory functions, activities limitation, cognitive, activity of daily life and participation

6 Plus questions of the "ad hoc module on employment of disabled people"

* It is enclosed Participation because the question asked about inability (to work)

** A card is presented to help the respondents

*** total number of questions is 5 but they are divided for age of the respondents

* * *Plus questions about mental disorders
