 - Data editing

The Bottle/Jag example

Field test data

Upper body

	No difficulty	Some	a lot	unable to do it at all
UB_SS	93.8	3.9	1.6	0.5
UB_1	87.8	4.0	2.0	1.3
UB_2	91.3	5.0	1.9	0.7

Bending vs. Picking Up

	Floor	Table	Something else
P_UB_2	30.5	46.2	17.1

Some concerns to be comparable

- ▶ Show respondent the bottle/jag for exact weight
- ▶ Picking up small objects (button or pencil) using fingers (floor or table)...
 - clearly define
- ▶ Probing question - More than 10 percent no answer
- ▶ Age - missing

**THANK YOU FOR YOUR
ATTENTION**
