

# The HHS Gateway to Data and Statistics

Overview and Hands-On Demo of the  
Gateway to Data and Statistics to the:

16 Aug 2010

Fulfilled as part of the DHHS contract:  
“Maintenance, Enhancements and Improvements to the HHS Data Council's  
Integrated Electronic Gateway to Data and Statistics” for the  
Office of the Assistant Secretary for Policy and Evaluation

# Agenda

## Demonstration and Hands-on Session to the NCHS

- **What is the HHS Gateway?**
  - Background
- **How can it serve you in your organization?**
  - Mission or goal specific focus
  - Standard and customized screens/reports
- **What can you do to enhance the Gateway?**
  - Increasing the quality and quantity of records
  - Improving the user interface and result listings
  - Providing feedback on the material
- **Demo**
  - Exercise in using the Gateway
  - ▶ Follow-up Scavenger hunt for information

# What is the HHS Gateway?

- The Gateway to Data and Statistics [<http://hhs-stat.net>] is a portal for health data, information and statistical resources that:
  - Catalogs websites that feature federal, state and local government created or sponsored health statistics and reports into a single, web portal, accessible worldwide to the public free of charge
  - Is sponsored by the HHS Data Council and the Office of the Assistant Secretary for Planning and Evaluation
- Users include:
  - Policy-makers
  - Researchers
  - Administrators
  - General public

# Purpose

- The HHS Gateway to Data and Statistics is designed to help users find the websites with data and statistical results that they can use to gain a better understanding of health and human services conditions and the services that respond to them.
- It provides access to an online catalog of these resources. The catalog is organized like a catalog of a library except that it refers to websites rather than books.

# Coverage

- The HHS Gateway covers all types of Health and Human Services Statistics.
- It catalogs internet-based resources including:
  - Internet sites
  - Internet-published reports
  - Tables on the internet
  - Geographically-referenced materials
  - Sites where searchers can configure their own tables
- It also links to relevant websites including those sponsored by:
  - The HHS Data Council
  - The National Committee on Vital and Health Statistics
  - Agencies within HHS as well as other federal agencies that present related data
  - The Office of Minority Health
  - The Office of Women's Health and
  - Sites that present data collected by relevant State and local government agencies

# Scope

- The HHS Gateway database includes internet resources that meet the following criteria:
  - The resource reports on statistical data or methods related to health or human services
  - The resources was created or sponsored by a Federal, state, or local government agency or organization.
  - Non-government resources are included if are funded by a government agency, but otherwise the site does not cover them.

# Features

## A. The Gateway

Serves as a window to access Health Data and Statistics and:

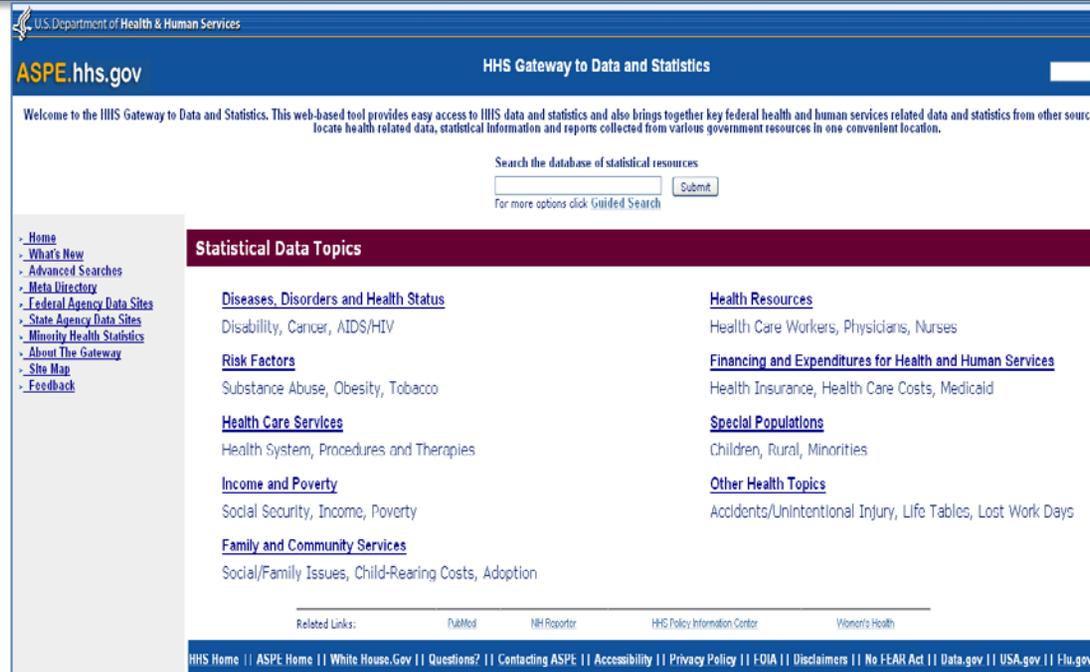

1. Catalogs web based resources.
2. Allows users to search with Boolean (think “Google” search) logic strings
3. Offers a guided search feature

## B. Other key features of the Gateway are:

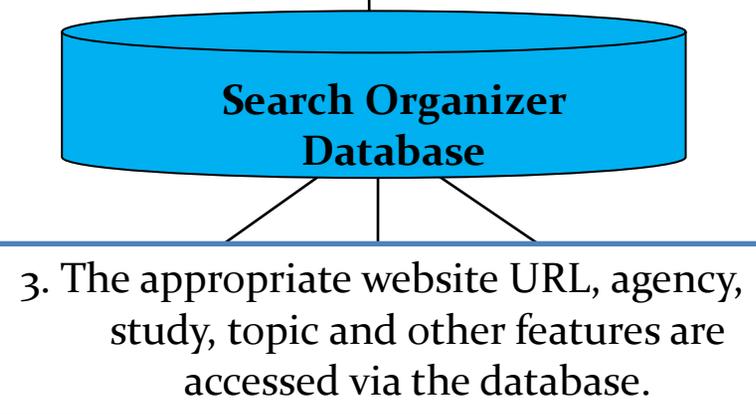

1. Use of standard terminology to catalog material.
2. Equivalence tables that direct users to terms related to those they use.
3. Information on studies, organizations and agencies.
4. Tagging of geographically referenced materials—to integrate the application with the geodata.gov initiative.

# The HHS Gateway Process

1. Users access the HHS Gateway

2. The Gateway pulls information using a tagged database

### FoodNet - Foodborne Diseases Active Surveillance Network

The Foodborne Diseases Active Surveillance Network (FoodNet) is the principal foodborne disease component of CDC's Emerging Infections Program (EIP). FoodNet is a collaborative project of the CDC, ten EIP sites, the [U.S. Department of Agriculture \(USDA\)](#), and the [Food and Drug Administration \(FDA\)](#).

The project consists of active surveillance for foodborne diseases and related epidemiologic studies designed to help public health officials better understand the epidemiology of foodborne diseases in the United States.

## 3: Guided Search

### ➤ Guided Search Categories are:

- ▶ Agency
- ▶ Geographic Area
- ▶ Study
- ▶ Topic
- ▶ Type of Site
- ▶ URL Type

You are now in [Home](#) > [DataFinder](#) > **Guided Search** >

Please specify your first criteria

Select criteria

Agency

Search

#### Steps for effective Search

1. Select Criteria - Select any search criteria from the drop down menu. eg. Agency, Study, Topic etc. A list of Agency / study/ topic will be listed when you click search.
2. Key words - If you want to narrow down the search you have the option to specify keywords in the text box.
3. Further you can narrow down the search results by using boolean operators and entering the next criteria for search. You can follow the above steps till you get your final results.
4. Conditions - Use OR, AND, NOT - (boolean operators) to add more information to the search ([see Boolean Searching help page for assistance](#)).
5. Search Results - This will show the search results for the search criterias you have entered/selected.
6. Clear Search - To start a new search click "clear search which will allow you to perform a fresh search
7. At this time Guided search does not reliably select sites with data specific to Metropolitan areas. We are aware of the problem and will have it repaired shortly.

<b>Total</b>	<b>1,082</b>	<b>2,146</b>	<b>76</b>	<b>3,304</b>	<b>93</b>

\* As of November 13, 2007.

† Cases with neurologic manifestations (i.e., West Nile meningitis, West Nile encephalitis, and West Nile myelitis).

§ Cases with no evidence of neuroinvasion.

¶ Illnesses for which sufficient clinical information was not provided.

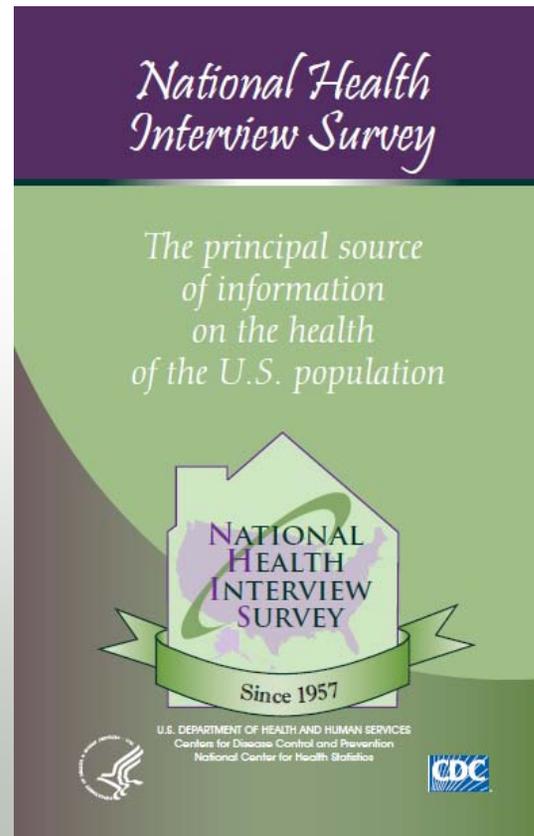

\*\* Total number of human cases of WNV illness reported to ArboNET by state and local health departments.

# HHS Gateway to Data and Statistics Exercise

## Scavenger Hunt Item #2

- Using Meta Directory of HHS Data Resources, find the brochure about the *National Health Interview Survey*

**You should see the report that looks like this one. Notify proctor when you have found it.**

# Wrap-up of the HHS Gateway Hands On Session and Scavenger Hunt

- ▲ Trifolds contain all of the HHS Gateway information
- ▲ To enhance the site by increasing the quality and quantity of records we will be:
  - ▶ Interested in obtaining your feedback and ideas on topics and areas of interest, user interface and design
  - ▶ Researching for automated tools that easily crawl and search the web for new material
  - ▶ Adding in alerts to notify us when information has changed
