

Table 7. Instructions for Completion of Healthcare Personnel Safety Component – Annual Facility Survey (CDC 57.200)

This form must be completed once a year by any facility using the Healthcare Personnel Safety Component.

Data Field	Instructions for Data Collection/Entry
Tracking #	Required. The NHSN-assigned Tracking # will be auto-entered by the application.
Facility ID #	Required. The NHSN-assigned facility ID will be auto-entered by the application.
Survey year	Required. Enter the year of the survey using the format: yyyy.
Total beds set up and staffed	Required. Enter the number of all active beds across specialties and intensive care units.
Patient admissions	Required. Enter the number of patients, excluding newborns, admitted for inpatient service.
Inpatient days	Required. Enter the number of adult and pediatric days of care, excluding newborn days of care, rendered during a specified reporting period.
Outpatient encounters	Required. Enter the number of visits by patients who are not admitted as inpatients to the hospital while receiving medical, dental, or other services.
Number of hours worked by all employees	Optional. Number of hours worked is available from OSHA300 reporting logs. The value can also be calculated by identifying the number of full time employees working in your facility within a year, multiply by the number of work hours for one full time employee in a year (typically ranges from 2000-2100 hours per year). Add in overtime hours and total hours worked by part-time, temporary, and contracted staff.
Number of HCWs	Required. HCWs are all persons who work in the hospital. Calculate the number of attending physicians by including only those who are active or associate staff (e.g. similar methodology to the American Hospital Association annual survey, if applicable). Do not include courtesy, consulting, honorary, provisional, or other attending physicians in this number. If you cannot determine the exact number for a particular category, please estimate it. If the facility does not have any HCP in a specific occupation, the user may enter 0. This is the denominator when used to calculate rates of particular exposure events per HCW.
Number of FTEs	Required. A subset of total number of HCP. FTEs are all HCP whose regularly scheduled workweek is 35 hours or more. To calculate the number of FTE's add the number of FTEs to ½ the number of part-time HCP (e.g., 2 part-time HCP = 1 FTE). If you cannot determine the exact number for a particular category, please estimate it. If the facility does not have any FTEs in a specific occupation, the user may enter 0. This is the denominator used to calculate rates of particular exposure events per FTE.
