

## Instructions for the Dialysis Patient Influenza Vaccination Denominator form (CDC 57.506)

\*Indicates a required field.

Data Field	Instructions for Data Collection
*Facility ID	<b>Required.</b> The NHSN-assigned facility ID number will auto-populate in this field.
*Vaccination type	<b>Required.</b> The vaccination type “Influenza” will auto-populate in this field.
*Influenza subtype	<p><b>Required.</b> Choose one:</p> <ul style="list-style-type: none"> <li>• Seasonal</li> <li>• Non-Seasonal</li> </ul> <p>If your facility intends to offer both seasonal and non-seasonal vaccines to at least one patient, complete a separate denominator form for each subtype each month.</p>
*Month	<b>Required.</b> Enter name of the month for which the denominator count is being reported.
*Year	<b>Required.</b> Enter the year for which the denominator count is being reported in the format: YYYY.
*Number of Patients	<p><b>Required.</b> When completing the form for the <u>first month of the vaccination campaign</u>, report the total patient census, regardless of whether or not vaccine was administered during the month, separated by patient dialysis modality. Include only patients, aged 6 months and older.</p> <p>For <u>each month following the first month of the campaign</u>, enter the number of new patients, separated by patient dialysis modality. Include only patients, aged 6 months and older.</p>
Custom Fields	<p>Optional. Up to 50 fields may be customized for local or group use in any combination of the following formats: date (MM/DD/YYYY), numeric, or alphanumeric.</p> <p>NOTE: Each Custom Field must be set up in the Facility/Custom Options section of NHSN before the field can be selected for use. CDC does not typically analyze these data.</p>
Comments	Optional. Use this field to add any additional information about this month’s vaccination surveillance that would help you to interpret the surveillance data. CDC typically does not analyze these data.
