Subject: Introducing the NEW NHSN Website!

Dear NHSN Members,

It is our pleasure to announce the launch of our new NHSN website, <http://www.cdc.gov/nhsn> ! Please bookmark this new address.

There are a few important pieces of information to keep in mind as you visit the new NHSN website:

1. The NHSN Manual: Patient Safety Protocol has been posted as separate chapters. PLEASE NOTE: We have TEMPORARILY posted the protocol as one full document, in addition to the separated chapters. The full protocol is 205 pages and will be available for a short time for our users to print.
2. You may notice an opportunity to complete a survey when visiting the new NHSN website. This survey will allow you to provide feedback regarding the layout and organization of content on our new website. Thank you in advance for your participation as this will help us to continue to improve the website.
3. You can now receive an email each time we make important updates to our website by subscribing to CDC's Gov Delivery service. More information is available at: <http://www.cdc.gov/nhsn/stayUpdated.html>. When subscribing, NHSN updates are available under the "Surveillance" category.
4. As appropriate, we will now archive emails sent to the NHSN user community in the Communications section of our website.
