Subject: New 2016 Training Materials posted to the National Healthcare Safety Network

Dear NHSN Users,

We would like to alert you to new 2016 training materials posted to the National Healthcare Safety Network website. Resources available on the website include:

- Presentations with case studies from the 2016 annual training
- Quick Learn videos on 2016 NHSN Changes
- Self-Paced Interactive Computer Based Training Modules

All materials can be found on the NHSN training page at:

<http://www.cdc.gov/nhsn/training/index.html>

Topics covered in the training materials include NHSN definition and rule changes for 2016, CLABSI, CAUTI, MRSA and CDI, VAE, and SSI surveillance updates, new NHSN analysis tools, ICD-10 PCT and CPT Transition, Reporting MRSA and CDI LabID Data, and analysis of Antimicrobial Use and Resistance.

For NHSN 2016 training materials, Continuing Education (CE) credit is pending with the accreditation office. Stay posted for more information from NHSN about how to receive CE credits in early May.

Thank you,

NHSN Protocol and Training Team
