

2020 NHSN HAI Checklists

From: NHSN (CDC) <nhsn@cdc.gov>

Sent: Tuesday, January 07, 2020 12:50 PM

Dear NHSN Users,

The 2020 National Healthcare Safety Network (NHSN) Healthcare Associated Infections (HAI) Checklists developed by the NHSN subject matter experts (SMEs) are now available on NHSN's webpage at <https://www.cdc.gov/nhsn/hai-checklists/index.html>. The 2020 HAI Checklists are intended for use in conjunction with the 2020 Patient Safety Manual to assist Infection Preventionists and other users with making a final determination for healthcare associated infections. Please note all NHSN HAI criteria for each respective module is contained in a single document. It is our hope that the checklists will help streamline your surveillance efforts. Please send any questions to nhsn@cdc.gov.

Thank you,

The NHSN Team
