

Subject: NHSN Version 8.8 now available

Dear NHSN Users,

This past weekend, on 12/2/2017, the NHSN team deployed NHSN v8.8 into production. There have been several updates and changes with this release, including analysis updates within the Patient Safety, Healthcare Personnel Safety, Dialysis, Long Term Care and Biovigilance Components. Please carefully review the attached release notes for important details about the changes found in NHSN v8.8.

NOTE: Users who wish to use any of the new analysis output options must regenerate datasets.

As always, please send all questions to the NHSN Helpdesk: NHSN@cdc.gov.

Sincerely,

The NHSN Team
