

Subject:

Information about coding of laparoscopic hysterectomy procedures

Text:

Dear Colleagues,

The attached document contains an article on coding of laparoscopic hysterectomy procedures that was published in AHA Coding Clinic for ICD-9-CM, First Quarter 2012(reproduced with their permission). We thought you might be interested in the instructions used by medical records coding professionals to guide their determinations. Please direct any questions you may have about this guidance to your medical records coding professional.
