

Update: Dialysis COVID-19 Module

Office Hours

Susan Cali, MSN, RN, MHA, CIC, FAPIC

Letty Lamping, BSBM

Serina M. Lees, MPH, CPH, CIC

March 23, 2021

Goals and Objectives

- Discuss the transition from daily calendar to weekly view in the Dialysis COVID-19 Reporting module
- Review the changes to the Dialysis COVID-19 Reporting Module
- Discuss and review the corrective action for the Dialysis COVID-19 Reporting module

Transition to the Weekly Reporting Matrix

Weekly Reporting

Click a cell to begin entering data for the week which counts are reported. Data entered should be inclusive for the entire current reporting week, which is Wednesday through Tuesday.

24 February 2021 - 06 April 2021

Record Complete

Record Incomplete

Weekly COVID-19 Summary

02/24/2021 (Wednesday) - 03/02/2021 (Tuesday)

03/03/2021 (Wednesday) - 03/09/2021 (Tuesday)

03/10/2021 (Wednesday) - 03/16/2021 (Tuesday)

03/17/2021 (Wednesday) - 03/23/2021 (Tuesday)

Additional March 2021 Updates

Reporting

Changes to the COVID-19 Data Collection Forms

- Facility operational information section was update along with the addition of a staffing question.

The screenshot displays the 'Add COVID-19 Data' form. At the top, a blue header bar contains the title. Below it, a red box highlights the 'Week of Data Collection: 12/30/2020 - 01/05/2021 (Inclusive)' field. A green tab labeled 'Outpatient Dialysis COVID-19 Data' is visible. The 'Facility Operational Information' section is highlighted with a red border and contains the following fields: Facility ID # (14003), CMS Certification Number (CCN) (0123456), Facility Name (XYZ_CDA), Week of Data Collection (12/30/2020 - 01/05/2021 (Inclusive)), and Date Last Modified (12/30/2020). Below this section, a note states: 'For the following questions, please collect data at the same time (for example, 7 AM)'. A table of questions follows, with the first three rows containing input fields with values 75, 25, and 100. The fourth row has a dropdown menu. The fifth row has a dropdown menu. The sixth row has a text input field. The seventh row has a text input field. The eighth row has a text input field. The ninth row has a text input field. The tenth row has a text input field. The eleventh row has a text input field. The twelfth row has a text input field. The thirteenth row has a text input field. The fourteenth row has a text input field. The fifteenth row has a text input field. The sixteenth row has a text input field. The seventeenth row has a text input field. The eighteenth row has a text input field. The nineteenth row has a text input field. The twentieth row has a text input field. The twenty-first row has a text input field. The twenty-second row has a text input field. The twenty-third row has a text input field. The twenty-fourth row has a text input field. The twenty-fifth row has a text input field. The twenty-sixth row has a text input field. The twenty-seventh row has a text input field. The twenty-eighth row has a text input field. The twenty-ninth row has a text input field. The thirtieth row has a text input field. The thirty-first row has a text input field. The thirty-second row has a text input field. The thirty-third row has a text input field. The thirty-fourth row has a text input field. The thirty-fifth row has a text input field. The thirty-sixth row has a text input field. The thirty-seventh row has a text input field. The thirty-eighth row has a text input field. The thirty-ninth row has a text input field. The fortieth row has a text input field. The forty-first row has a text input field. The forty-second row has a text input field. The forty-third row has a text input field. The forty-fourth row has a text input field. The forty-fifth row has a text input field. The forty-sixth row has a text input field. The forty-seventh row has a text input field. The forty-eighth row has a text input field. The forty-ninth row has a text input field. The fiftieth row has a text input field. The fifty-first row has a text input field. The fifty-second row has a text input field. The fifty-third row has a text input field. The fifty-fourth row has a text input field. The fifty-fifth row has a text input field. The fifty-sixth row has a text input field. The fifty-seventh row has a text input field. The fifty-eighth row has a text input field. The fifty-ninth row has a text input field. The sixtieth row has a text input field. The sixty-first row has a text input field. The sixty-second row has a text input field. The sixty-third row has a text input field. The sixty-fourth row has a text input field. The sixty-fifth row has a text input field. The sixty-sixth row has a text input field. The sixty-seventh row has a text input field. The sixty-eighth row has a text input field. The sixty-ninth row has a text input field. The seventieth row has a text input field. The seventy-first row has a text input field. The seventy-second row has a text input field. The seventy-third row has a text input field. The seventy-fourth row has a text input field. The seventy-fifth row has a text input field. The seventy-sixth row has a text input field. The seventy-seventh row has a text input field. The seventy-eighth row has a text input field. The seventy-ninth row has a text input field. The eightieth row has a text input field. The eighty-first row has a text input field. The eighty-second row has a text input field. The eighty-third row has a text input field. The eighty-fourth row has a text input field. The eighty-fifth row has a text input field. The eighty-sixth row has a text input field. The eighty-seventh row has a text input field. The eighty-eighth row has a text input field. The eighty-ninth row has a text input field. The ninetieth row has a text input field. The ninety-first row has a text input field. The ninety-second row has a text input field. The ninety-third row has a text input field. The ninety-fourth row has a text input field. The ninety-fifth row has a text input field. The ninety-sixth row has a text input field. The ninety-seventh row has a text input field. The ninety-eighth row has a text input field. The ninety-ninth row has a text input field. The one hundredth row has a text input field.

Input Field	Question
75	*In-center Patient Census
25	*Home Patient Census
100	*Total Certified Stations
	*Isolation Stations Included in Total Certified Stations
	*Is your facility a designated COVID unit?
	*Does your facility have designated COVID shifts?
	*Total number of staff (physician, nurses, techs, environmental services, biomed, etc.) who worked at least 1 day during the current reporting week
	How many patients on the current in-center census reside in nursing homes?
	How many patients on the current home census reside in nursing homes?

A callout bubble points to the new staffing question: '• New question added.'

Question Clarification

- The questions have been clarified with the addition of “during the current reporting week” to the end of each question.

SARS-CoV-2 Positive (+) Patients and Staff	
For the following questions, report data on the same day each week at least once a week. For questions requiring counts, include only <i>new data</i> since the last date the counts were collected for reporting in the NHSN Module.	
<input type="text"/>	*Number of newly confirmed in-center patients during the current reporting week
<input type="text"/>	*Number of newly confirmed in-center patients since during the current reporting week
<input type="text"/>	*Number of newly confirmed patients during the current reporting week
<input type="text"/>	*Number of newly confirmed staff during the current reporting week
<input type="text"/>	*Number of SARS-CoV-2 patients who are currently admitted to the hospital during the current reporting week
<input type="text"/>	*Number of confirmed patients currently self-monitoring and continuing in-center therapy during the current reporting week
<input type="text"/>	*Number of confirmed patients currently self-monitoring and continuing home therapy during the current reporting week

Correction Plan for Facilities With Data Errors

Reporting

Corrective Action

- Correct data for the 2/24 – 3/2 and 3/3 – 3/9 reporting weeks
- This one data entry is the only one to be a cumulative total – all other weeks are a weekly total
- Data mistakenly entered for the 3/17 reporting week should be corrected/overwritten on 3/24
- Going forward report consistently on Tuesday evenings or Wednesdays before 3 pm ET

Calendar Correction

Click a cell to begin entering data for the week which counts are reported. Data entered should be inclusive for the entire current reporting week, which is Wednesday through Tuesday.
