NHSN Dialysis COVID-19 Module Overview

Jeneita Bell, MD, MPH Susan Cali, MSN, RN, MHA, CIC, FAPIC Serina Lees, MPH, CPH, CIC Darius McDaniel, MSPH Emily Witt, MPH, CHES

About NHSN

The NHSN Outpatient Dialysis Component is supporting the nation's COVID-19 emergency response with a COVID-19 module designed to collect data pertaining to in-center dialysis, home dialysis, and peritoneal dialysis patients.

The COVID-19 Module has a single data entry page with four sections:

- Patient Impact
- Staff and Personnel Impact
- Supply and Personal Protective Equipment
- Testing

Goals and Objectives

- Review the enrollment process for the National Healthcare Safety Network (NHSN)
- Describe the reporting forms and review the required and optional fields
- Explain the steps to enter data into the NHSN application
- Describe how data will be exported from NHSN and the data file format
- Review the webpage resources for the Dialysis
 COVID-19 module

Agenda

- Dialysis Team Introductions
- Enrollment Review
- COVID-19 Module
 - Forms
 - Table of Instructions (TOI)
 - Data Review
- Dialysis COVID-19 Website
 - Resources
 - Frequently Asked Questions (FAQ)

Enrollment and NHSN Set-up

Frequently Asked Questions

Facility Not Enrolled

What if my facility is not currently enrolled in NHSN in any capacity?

- Visit the Dialysis NHSN site to review the steps for enrollment
 - <u>https://www.cdc.gov/nhsn/dialysis/enroll.html</u>
- Review the "NHSN Facility Administrator Enrollment Guide" at the top of the page
- Follow the steps outlined
 - **1**. Training and Preparation
 - 2. Register
 - 3. Register with SAMS, complete and submit identity proofing verification
 - 4. Submit NHSN forms electronically
 - 5. Submit Agreement to Participate and Consent

Enrollment: NHSN Training Section

Is the NHSN Training required to enroll?

- Training, while highly encouraged, is not required to register and enroll with NHSN.
 - When registering with NHSN, you will see a section for "NHSN Training Date".
 - For the NHSN Training Date, please use the date of registration. The current webinar will serve as training for Outpatient Dialysis COVID-19 reporting.

Registration Form

Please entersthe values for the fields listed below and click on the **Submit** button. (*) indicates a required field. For additional information on NHSN Training, please visit the NHSN Training Website.

NHSN Set-up: Adding the Dialysis Component

My facility is already enrolled in NHSN and has access to the HCP module. I need to add the Dialysis Event Component.

- 1. The Facility Administrator will log into the facility
- 2. Select "Facility" on the left side navigation bar
- 3. Select "Add/Edit Component"

NHSN Set-up: Adding the Dialysis Component, continued

My facility is already enrolled in NHSN and has access to the HCP Component. I need to add the Dialysis Event Component.

4. Under "Components Followed" select the Dialysis Component

Components Followed

Follow/ Followed	Component	Activated	Deactivated	Agreement Accepted	View Agreement
	Biovigilance				
	Dialysis	10/27/2020		Y	View Agreement
	Healthcare Personnel Safety				
	Long Term Care Facility				
	Outpatient Procedure				
	Patient Safety				

NHSN Set-up: Adding the Dialysis Component, continued

My facility is already enrolled in NHSN and has access to the HCP Component. I need to add the Dialysis Event Component.

 You will then be prompted to complete information for the Dialysis Component Primary Contact

		survey for the most recently complete calendar year if Healthcare Personnel Exposure reporting is selected on you

Warning

You must define the Primary Contact for this component before you can start following it.

Go to the Contact Data section of the page to enter the Primary Contact information. Note: You will be required to complete a survey for the most recently completed calendar year if Healthcare Personnel Exposure reporting is selected on your monthly plan. Please print the survey from

OK

NHSN Set-up: Facility Administrator

My facility is enrolled in NHSN, but the Facility Administrator needs to be changed/updated.

 Please review the information on reassigning a Facility Administrator and then submit the Facility Admin change request form: <u>https://www.cdc.gov/nhsn/fac</u> <u>admin/index.html</u>.

Change NHSN Facility Administrator

NHSN Facility Administrator Reassignment

When the NHSN Facility Administrator role needs to be reassigned, the current Facility Administrator should follow the steps below to ensure that the role is properly reassigned to an additional facility user. Furthermore, facility users that no longer require access to NHSN can be deactivated by following the steps below. This process can be completed by any user with administrative rights.

Reassigning the NHSN Facility Administra

- From the left navigation bar, you will select Facility > it
- From the Edit Facility Information screen, go to the Cont
- Find "Facility Administrator" on the list and click the "reafind and select an existing user who will be reassigned ti with administrative rights. Once selected, remember to page.

Deactivating Users

- Note: Users cannot be deleted once added to NHSN.
- Select USERS on the left navigation bar, select FIND, and profile, go to EDIT, at the USER ACTIVE drop down, toggt

If the current NHSN Facility Administrator is no longer availab the form below to request the change in the absence of the c

Please contact <u>NHSN@cdc.gov</u> for additional support.

<i>ity > Fac</i> he Cont the "rea igned ti hber to :	Facility Name

NHSN Set-up: Adding Additional Users, continued

My facility is enrolled in NHSN but needs to add an additional user to handle the Dialysis COVID reporting.

- Assign the new user rights that they will need to use NHSN
- 6. Click on SAVE at the bottom of page
- Please check to ensure that you have made them an Active User

NHSN Set-up: Adding Additional Users, continued

My facility is enrolled in NHSN but needs to add an additional user to handle the Dialysis COVID reporting.

8. Once added to the facility, the new user will receive a "Welcome to NHSN" email. The new user will agree to the Rule of Behavior via a link within the email to begin the SAMS registration process.

COVID-19 Dialysis Module

Data Entry and Data Fields

Sections of NHSN Dialysis COVID-19 Module

- The COVID-19 Module for dialysis consists of four sections:
 - 1. Patient Impact
 - 2. Staff and Personnel Impact
 - Supplies and Personal Protective Equipment
 - 4. Laboratory Testing

NHSN Application COVID-19 Dialysis Data Entry

- Log into your facility in NHSN.
- The "COVID-19" option on the left-hand navigation bar will appear following the release of the application update on 11/12/2020.

Tracking Infections in Outpatient Dialysis Facilities

A leading cause of death among hemodialysis patients, second only to vascular disease, bloodstream and other types of infections are a significant threat to patient safety. CDC helps the dialysis community prevent infections by providing evidence-based guidelines and access to the National Healthcare Safety Network (NHSN), a surveillance system that allows facilities to track infections. These resources are critical for tracking and preventing infections and for evaluating the effectiveness of a specific infection prevention effort.

In 2008, CDC estimated that 37,000 bloodstream infections occurred among hemodialysis patients with central lines. One in four of these infected patients may have died as a result of the infection. Since 1993, hospitalization rates among hemodialysis patients have increased 47% for bloodstream infection and 87% for vascular access infection.

In the Future...

- Additional sections of the NHSN Dialysis COVID-19 module will become required including staff and personnel impact, supplies and personal protective equipment, and laboratory testing
- Vaccine modules
- Additional analysis capabilities
- Updated and additional education surrounding these changes

Please contact <u>NHSN@cdc.gov</u> with any questions!
