Federal Register / Vol. 71, No. 249 / Wednesday, December 27, 2006 / Notices

older than age 29, cervical cancer incidence for Hispanic women was approximately twice that for non-Hispanic women. Pap tests can prevent cervical cancer. Nevertheless, recent studies suggest that Hispanic women in the United States and Puerto Rico under-use cervical cancer screening tests. Additionally, survey data have shown that Hispanic women in the international border region of the United States under-use these Pap tests compared to non-Hispanic women in the same region. The need exists to increase Pap test screening among Hispanic women living in the United States. This purpose of this project is to refine a multi-component behavioral intervention delivered by lay health workers to increase cervical cancer screening among U.S. and foreign-born Mexican women. This proposed study will use personal interviews and workshops. There will be no cost to respondents other than their time.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

(Docket Number NIOSH-091)

NIOSH Proposed Revisions of the "Occupational Exposure Sampling Strategies Manual (OESSM)"

AGENCY: The National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

ACTION: Notice of request for public comments.

SUMMARY: The National Institute for Occupational Safety and Health (NIOSH) is considering updating the Occupational Exposure Sampling Strategies Manual (OESSM). NIOSH Document Number: DHHS (NIOSH) Publication Number 77-178; and requests user feedback to maximize the relevancy of any revisions to the document. Specifically, NIOSH seeks input in the following areas:

1. The relevancy, currency, and appropriateness of the OESSM.
2. The need for an updated OESSM: the types of information needed but not currently included in the OESSM; the revisions needed to make the OESSM more useful; the gaps.

Comments may also be submitted directly through the Web site http://www.cdc.gov/niosh/review/public/77-178. The document will remain available for comment until February 28, 2007.

All information received in response to this notice will be available for public examination and copying at the NIOSH Docket Office, Room 113, 4676 Columbia Parkway, Cincinnati, Ohio 45226.

Contact Person for Technical Information: Mary Lytton, NIOSH, 4676 Columbia Parkway, Cincinnati, Ohio 45226.

James D. Seligman, Chief Information Officer, Centers for Disease Control and Prevention.
