7733 Greenleaf Ave.
Whittier, CA 90602
U.S.A.

Comments

For the safety of all emergency personnel NIOSH need to eliminate the 1984 prohibition on buddy breathing. The changes in technology have increased the efficiency and safety of using a buddy breathing device. Exposure to IDLH is eliminated and allows for rescue options that other systems do not offer. NIOSH approval of a buddy breathing system will initiate NFPA testing procedures, training and operational use standards.
