Subject: Docket #221

I am a Emergency Service District Commissioner and with the economy the way it is only makes sence to allow the purchase of SCBA cylinders from a more economical sorce which in most cases is direct from the manuafactor of the cylinder. If a cylinder were to fail the manufacturer of the SCBA would tell you to go to the manufacturer of the cylinder. So please try and change 42 CFR Part 84 to help bring budget relief to every one that needs to purchase SCBA's.
