**Subject:** WTC cancer

**My name is Michael Jezycki, I am a retired NYC firefighter. I was active on 9/11/2001, and responded to the WTC as the towers collapsed. I spent months at the site digging for remains. In December 2008 I was diagnosed with Leukemia , and was forced to retire from FDNY after 19 years working. I am 47 years old and I have a wife and 2 children. I also know of many other firefighters with blood cancers, there seems to be too many for it NOT to have been related to the WTC. Please include cancers in the Zadroga bill. If you need more info I can be contacted at**
