Subject: Thyroid Cancer

I have worked for IBM Endicott . My jobs were anywhere from the
have worked at full time for IBM for
the . I was wondering if you had any cases of Thyroid
Cancer due to the IBM contamination. I had have had 2 thyroid
surgeries. The first one was inconclusive but the 2nd surgery was to
remove my thyroid due to cancer. I had this the first time at years of age
and then again. I am currently years old and continue to have this
monitored yearly.

Have you heard of any other cases of Thyroid Cancer from IBM Endicott Employees?
