FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice
have applied to the Board for approval
pursuant to the Bank Holding Company
(BHC Act), Regulation Y (12 CFR part
225), and all other applicable statutes
and regulations to become a bank
holding company and/or to acquire the
assets or the ownership of, control of,
or the power to vote shares of a bank or
bank holding company and all of the
banks and nonbanking companies
owned by the bank holding company,
including the companies listed below.

The applications listed below, as well
as other related filings required by the
Board, are available for immediate
inspection at the Federal Reserve Bank
indicated. The applications will also be
available for inspection at the offices of
the Board of Governors. Interested
persons may express their views in
writing on the standards enumerated in
the BHC Act (12 U.S.C. 1842(c)). If the
proposal also involves the acquisition of
a nonbanking company, the review also
includes whether the acquisition of the
nonbanking company complies with the
standards in section 4 of the BHC Act
noted, nonbanking activities will be
conducted throughout the United States.

Unless otherwise noted, comments
regarding each of these applications
must be received at the Reserve Bank
indicated or the offices of the Board of
Governors not later than May 11, 2018.

A. Federal Reserve Bank of Dallas

Robert L. Tripplett III, Senior Vice
President) 2200 North Pearl Street,
Dallas, Texas 75201–2272:

1. Maedgen & White, LTD.,
Maedgen & White, LTD.,
Diamond
HTH Stock Company
Diamond
HTH Stock Company

Stock Company, LP, Diamond A
Financial, L.P., Hilltop Holdings, Inc.,
Financial, L.P., Hilltop Holdings, Inc.,
and PlainsCapital Corporation, all of
and PlainsCapital Corporation, all of
Dallas, Texas; to acquire voting shares
of The Bank of River Oaks, Houston,
Dallas, Texas; to acquire voting shares
of The Bank of River Oaks, Houston,
Texas.

Ann Mishback,
Secretary of the Board.

BILLING CODE 6210–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket Number CDC–2018–0028, NIOSH–310]

Draft—National Occupational Research
Agenda for Wholesale and Retail Trade

AGENCY: National Institute for
Occupational Safety and Health
(NIOSH) of the Centers for Disease
Control and Prevention (CDC),
Department of Health and Human
Services (HHS).

ACTION: Request for comment.

SUMMARY: The National Institute for
Occupational Safety and Health of the
Centers for Disease Control and
Prevention announces the availability of
draft NORA Agenda entitled National
Occupational Research Agenda for
Wholesale and Retail Trade for public
comment. To view the notice and
related materials, visit https://
www.regulations.gov and enter CDC–
2018–0028 in the search field and click
“Search.”

DATES: Electronic or written comments
must be received by June 25, 2018.

ADDRESSES: You may submit comments,
identified by CDC–2018–0028 and
docket number NIOSH–310, by any of
the following methods:

• Federal eRulemaking Portal:
https://www.regulations.gov. Follow the
instructions for submitting comments.

• Mail: National Institute for
Occupational Safety and Health, NIOSH
Docket Office, 1090 Tusculum Avenue,

Instructions: All submissions received
in response to this notice must include
the agency name and docket number
[CDC–2018–0028; NIOSH–310]. All
relevant comments received will be
posted without change to
https://www.regulations.gov. All
information received in response to this
notice will also be available for public
examination and copying at the NIOSH
Docket Office, 1150 Tusculum Avenue,
Room 155, Cincinnati, OH 45226–1998.

FOR FURTHER INFORMATION CONTACT:
Emily Novicki (NORACoordinator@
cdc.gov), National Institute for
Occupational Safety and Health, Centers
for Disease Control and Prevention,
Mailstop E–20, 1600 Clifton Road NE,
Atlanta, GA 30329, phone (404) 498–
2581 (not a toll free number).
SUPPLEMENTARY INFORMATION: The National Occupational Research Agenda (NORA) is a partnership program created to stimulate innovative research and improved workplace practices. The national agenda is developed and implemented through the NORA sector and cross-sector councils. Each council develops and maintains an agenda for its sector or cross-sector.

Background: The National Occupational Research Agenda for Wholesale and Retail Trade (WRT) is intended to identify the research, information, and actions most urgently needed to prevent occupational illnesses and injuries in the WRT sector. The National Occupational Research Agenda for WRT provides a vehicle for stakeholders to describe the most relevant issues, gaps, and safety and health needs for the sector. Each NORA research agenda is meant to guide or promote high priority research efforts on a national level, conducted by various entities, including: Government, higher education, and the private sector.

The first National Occupational Research Agenda for WRT was published in 2009 for the second decade of NORA (2006–2016). This draft is an updated agenda for the third decade of NORA (2016–2026). The revised agenda was developed considering new information about injuries and illnesses, the state of the science, and the probability that new information and approaches will make a difference. As the steward of the NORA process, NIOSH invites comments on the draft National Occupational Research Agenda for Wholesale and Retail Trade.

Comments expressing support or with specific recommendations to improve the Agenda are requested. A copy of the draft Agenda is available at https://www.cdc.gov/niosh/docs/2014-106/pdf/2014-106.pdf and again in 2013 https://www.cdc.gov/niosh/docs/2014-106/pdf/2014-106.pdf. NIOSH would like to build on the accomplishments of ongoing research to develop the next strategic research goals and objectives for 2018–2025. NIOSH has identified 10 critical research areas for nanotechnology research and communication. These 10 critical research areas are: (1) Toxicity and internal dose, (2) measurement methods, (3) exposure assessment, (4) epidemiology and surveillance, (5) risk assessment, (6) engineering controls and personal protective equipment (PPE), (7) fire and explosion safety, (8) recommendations and guidance, (9) global collaborations, and (10) applications and informatics.

NIOSH is considering focusing the overarching strategic research goals for these critical areas on 5 key goals: (1) Increase understanding of new hazards and related health risks to nanomaterial workers, (2) expand understanding of the initial hazard findings of engineered nanomaterials, (3) support the creation of guidance materials to inform nanomaterial workers, employers, health professionals, regulatory agencies, and decision makers about hazards, risks and risk management approaches, (4) support epidemiologic studies for nanomaterial workers, including medical and exposure studies, and (5) assess and promote national

Research Plan, Continuing To Protect the Nanotechnology Workforce: NIOSH Nanotechnology Research Plan for 2018–2025

AGENCY: National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Request for comment.

SUMMARY: The National Institute for Occupational Safety and Health of the Centers for Disease Control and Prevention announces the availability of a draft research plan entitled Continuing To Protect the Nanotechnology Workforce: NIOSH Nanotechnology Research Plan for 2018–2025 for public comment. To view the notice and related materials, visit https://www.regulations.gov and enter CDC–2018–0038 in the search field and click “Search.”

DATES: Electronic or written comments must be received by June 25, 2018.

ADDRESSES: You may submit comments, identified by CDC–2018–0038 and docket number NIOSH–312, by any of the following methods:

Instructions: All submissions received in response to this notice must include the agency name and docket number [CDC–2018–0038; NIOSH–312]. All relevant comments received will be posted without change to https://www.regulations.gov, including any personal information provided. For access to the docket to read background documents or comments received, go to https://www.regulations.gov. All information received in response to this notice will also be available for public examination and copying at the NIOSH Docket Office, 1150 Tusculum Avenue, Room 155, Cincinnati, OH 45226–1998.

FOR FURTHER INFORMATION CONTACT: Charles L. Geraci (CGeraci@cdc.gov), National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention, 1090 Tusculum Avenue, MS C–14, Cincinnati, OH 45226, phone (513) 533–8339 (not a toll free number).

SUPPLEMENTARY INFORMATION: NIOSH is seeking stakeholder input on the draft document Continuing To Protect the Nanotechnology Workforce: NIOSH Nanotechnology Research Plan for 2018–2025, to ensure that the program is meeting the needs of the stakeholders, and to identify ways in which the program can be improved to increase its impact on the safety and health of nanomaterial workers across the United States.

Background: Since 2004, NIOSH has pioneered research on the toxicological properties and characteristics of nanoparticles. This research has involved characterizing occupationally relevant nanoparticles for predicting whether these particles pose a risk of adverse health effects and for providing guidance on controlling workplace exposures. In September 2005, NIOSH developed its first nanotechnology strategic plan to further guide the Institute in identifying and prioritizing nanotechnology research. This strategic plan was updated in 2009 [https://www.cdc.gov/niosh/docs/2010-105/pdfs/2010-105.pdf] and again in 2013 [https://www.cdc.gov/niosh/docs/2014-106/pdfs/2014-106.pdf]. NIOSH would like to build on the accomplishments of ongoing research to develop the next strategic research goals and objectives for 2018–2025. NIOSH has identified 10 critical research areas for nanotechnology research and communication. These 10 critical research areas are: (1) Toxicity and internal dose, (2) measurement methods, (3) exposure assessment, (4) epidemiology and surveillance, (5) risk assessment, (6) engineering controls and personal protective equipment (PPE), (7) fire and explosion safety, (8) recommendations and guidance, (9) global collaborations, and (10) applications and informatics.

NIOSH is considering focusing the overarching strategic research goals for these critical areas on 5 key goals: (1) Increase understanding of new hazards and related health risks to nanomaterial workers, (2) expand understanding of the initial hazard findings of engineered nanomaterials, (3) support the creation of guidance materials to inform nanomaterial workers, employers, health professionals, regulatory agencies, and decision makers about hazards, risks and risk management approaches, (4) support epidemiologic studies for nanomaterial workers, including medical and exposure studies, and (5) assess and promote national
