

Dated: April 20, 2023.

Anna Davis,

General Counsel, Federal Mediation and Conciliation Service.

[FR Doc. 2023-08736 Filed 4-25-23; 8:45 am]

BILLING CODE 6732-01-P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The public portions of the applications listed below, as well as other related filings required by the Board, if any, are available for immediate inspection at the Federal Reserve Bank(s) indicated below and at the offices of the Board of Governors. This information may also be obtained on an expedited basis, upon request, by contacting the appropriate Federal Reserve Bank and from the Board's Freedom of Information Office at <https://www.federalreserve.gov/foia/request.htm>. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)).

Comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors, Ann E. Misback, Secretary of the Board, 20th Street and Constitution Avenue NW, Washington, DC 20551-0001, not later than May 26, 2023.

A. Federal Reserve Bank of Dallas (Karen Smith, Director, Mergers & Acquisitions) 2200 N Pearl St., Dallas, Texas 75201. Comments can also be sent electronically to Comments.applications@dal.frb.org:

1. *5th Generation Holdings, Inc., Groom, Texas*; to become a bank holding company by acquiring Groom Bancshares, Inc., and thereby indirectly acquiring The State National Bank of Groom, both of Groom, Texas.

Board of Governors of the Federal Reserve System.

Ann E. Misback,

Secretary of the Board.

BILLING CODE P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket No. CDC-2023-0027, NIOSH-350]

World Trade Center Health Program; Youth Research Cohort; Request for Information

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Request for information.

SUMMARY: The Centers for Disease Control and Prevention's (CDC) National Institute for Occupational Safety and Health (NIOSH), in the Department of Health and Human Services, announces an opportunity for the public to provide information about approaches to establishing a new World Trade Center (WTC) Health Program research cohort of persons who were exposed to the September 11, 2001, terrorist attacks and were aged 21 years or younger at the time of their exposure. This research cohort will be designed to allow the WTC Health Program to conduct future research studies on the health and educational impacts in the population of persons aged 21 years or younger at the time of their exposures to airborne toxins, or any other hazard or adverse condition, resulting from the terrorist attacks on September 11, 2001. Once established, this new WTC Health Program "youth cohort" would serve as the basis for future WTC Health Program research into the health and educational impacts of this potentially vulnerable group, hereafter referred to as "WTC Youth." Information is requested on specific adverse health, social, and educational effects that are of interest for future research; desired characteristics of the proposed cohort and associated control groups (*e.g.*, size and demographics), and methods for identifying, recruiting, and obtaining informed consent from members; as well as data collection, storage, and management methods necessary for future research investigations.

DATES: Comments must be received by August 24, 2023.

ADDRESSES: Comments may be submitted through either of the following two methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov> (follow the instructions for submitting comments), or

- *By Mail:* NIOSH Docket Office, Robert A. Taft Laboratories, MS C-34, 1090 Tusculum Avenue, Cincinnati, Ohio 45226-1998.

Instructions: All written submissions received in response to this notice must include the agency name (Centers for Disease Control and Prevention, HHS) and docket number (CDC-2023-0027, NIOSH-350) for this action. All relevant comments, including any personal information provided, will be posted without change to <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Rachel Weiss, Program Analyst, 1090 Tusculum Ave., MS C-46, Cincinnati, OH 45226; Telephone (404) 498-2500 (this is not a toll-free number); Email NIOSHregs@cdc.gov.

SUPPLEMENTARY INFORMATION: The WTC Health Program was established by Title I of the James Zadroga 9/11 Health and Compensation Act of 2010, Public Law 111-347, as amended by Public Law 114-113, Public Law 116-59, and Public Law 117-328, adding Title XXXIII to the Public Health Service (PHS) Act (codified at 42 U.S.C. 300mm-300mm-62). All references to the Administrator in this document mean the Director of the NIOSH within CDC, or his or her designee.

The WTC Health Program conducts research among its members receiving monitoring or treatment in the Program and in sampled populations outside the New York City disaster area (NYCDA), as defined in section 3306(7) of the PHS Act, in Manhattan as far north as 14th Street and in Brooklyn.¹

In December 2022, the Consolidated Appropriations Act, 2023² amended section 3341 of the PHS Act to direct the Administrator, in consultation with the Secretary of Education, to establish a new research cohort. The cohort must be of sufficient size to conduct future research studies on the health and educational impacts of "exposure to airborne toxins, or any other hazard or adverse condition, resulting from the September 11, 2001, terrorist attacks, including on the population of individuals who were 21 years of age or younger at the time of exposure, including such individuals who are screening-eligible WTC survivors or

¹ 42 U.S.C. 300mm-51.

² Public Law 117-328 (Dec. 29, 2022).

certified-eligible WTC survivors.”³ The new WTC Health Program youth research cohort is referred to as “WTC Youth.” In accordance with section 3341, the cohort of WTC Youth must:

- Be of sufficient size to conduct future research studies on the health and educational impacts of 9/11 exposures;
- Include in this group sufficient representation of individuals who were 21 years of age or younger at the time of exposure; and
- Include in this group individuals who are screening-eligible WTC survivors or certified-eligible WTC survivors.

The cohort may also include individuals who were 21 years of age or younger on September 11, 2001, who were located outside the NYEDA and in Manhattan not further north than 14th Street; or anywhere within the borough of Brooklyn. Additionally, the cohort may include age-appropriate control populations as needed for research purposes.

In response to these new requirements, the Administrator, following consultation with the Secretary of Education, will engage the public for input on a multi-phased approach for establishing the youth cohort. At this time, the Administrator seeks initial comments on the following approach:

1. *Phase I: Community Engagement:* Gather sufficient information from educators, scientists, and community members on options for establishing a youth cohort that will efficiently support future research.
2. *Phase II: Options Development:* Use the information gathered in Phase I to develop a set of options for moving forward with establishing the youth cohort.
3. *Phase III: Options Ranking:* Engage community in ranking the options developed in Phase II.
4. *Phase IV: Option Selection and Implementation:* Use the information from Phase III to select the preferred option(s) for establishing the youth cohort.

Request for Information

NIOSH is soliciting information from any interested party, including educators, researchers, clinicians, community members, WTC Health Program members, treatment providers, and government agencies at all levels

³ WTC survivors include individuals who lived, worked, went to school, or attended child or adult day care in the NYC Disaster Area on September 11, 2001, or in the following days, weeks, or months and those otherwise meeting the eligibility criteria in 42 CFR 88.7 or 88.8.

(Federal, State, Territorial, local, and Tribal), regarding the proposed approach to establishing the WTC Health Program youth cohort.

In particular, NIOSH seeks comments on the following items regarding the general approach to assembling the cohort, as described above:

1. Whether the four-phased approach for establishing the youth cohort is comprehensive and adequately incorporates community involvement in selecting a preferred approach for establishing the youth cohort.
2. Any potential partnerships for future actions for establishing the cohort of WTC Youth.

NIOSH also seeks information on the following scientific parameters, best practices, and approaches for assembling a research cohort that is best suited for future research of WTC Youth:

3. Ideas regarding outreach, recruitment, retention, community involvement, and project oversight. NIOSH is interested in descriptions of any anticipated barriers to the project and propose potential risk mitigation strategies.
4. Health conditions and potential social and educational impacts (*i.e.*, adverse effects of interest) that may be priorities for future research on WTC Youth. In light of these adverse effects to be researched, NIOSH is interested in descriptions of the cohort characteristics believed necessary to support future research, including recommendations on data collection requirements, such as describing methods for and frequency of contact with prospective cohort members.

5. The recruitment and retention of appropriate control group(s) for future observational studies of WTC Youth. For example, recruitment methods may differ between exposed and control groups given expected differences in participation rates. These differences may lead to a selection bias. A selection bias may also arise given the long period of time between exposure and recruitment (*i.e.*, a survivorship bias). NIOSH is interested in comments regarding selection of controls using methods that reduce the potential for bias in future research.

Commenters are encouraged to offer information and insights into the specific topics described above, or any other aspect of this activity.

Disclaimer

This notice is intended for planning purposes; it does not constitute a formal announcement for comprehensive applications. In accordance with Federal Acquisition Regulation 48 CFR

15.201(e), responses to this notice are not offers and cannot be accepted by the Government to form a binding award. NIOSH will not provide reimbursement for costs incurred in commenting on this notice.

NIOSH will not respond to individual public comments or publish publicly a compendium of responses. An informational submission in response to this notice does not create any commitment by or on behalf of CDC or HHS to develop or pursue any program or ideas discussed.

John J. Howard,

Administrator, World Trade Center Health Program and Director, National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention, Department of Health and Human Services.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket No. CDC-2023-0025]

Draft Infection Control in Healthcare Personnel: Epidemiology and Control of Selected Infections Transmitted Among Healthcare Personnel and Patients: Pregnant Healthcare Personnel Section

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), in the Department of Health and Human Services (HHS), announces the opening of a docket to obtain comment on the *Draft Infection Control in Healthcare Personnel: Epidemiology and Control of Selected Infections Transmitted Among Healthcare Personnel and Patients: Pregnant Healthcare Personnel Section* (“*Draft Guideline: Pregnant Healthcare Personnel Section*”). The *Draft Guideline: Pregnant Healthcare Personnel Section* updates the *Guideline for infection control in health care personnel, 1998* (“*1998 Guideline*”), *Part F: Pregnant Personnel*, and its corresponding recommendations in Part II of the *1998 Guideline*. The updated recommendation in the *Draft Guideline: Pregnant Healthcare Personnel Section* is intended for use by the leaders and staff of Occupational Health Services. This updated recommendation will help facilitate the provision of occupational infection prevention and control
