BILLING CODE 6712–01–P

FEDERAL TRADE COMMISSION

Senior Executive Service Performance Review Board

AGENCY: Federal Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given of the appointment of members to the FTC Performance Review Board.

FOR FURTHER INFORMATION CONTACT:

Diane Campbell, Chief Human Capital Officer, 600 Pennsylvania Avenue NW, Washington, DC 20580, (202) 436–0152.

SUPPLEMENTARY INFORMATION:

Publication of the Performance Review Board (PRB) membership is required by 5 U.S.C. 4314 (c) (4). The PRB reviews and evaluates the initial appraisal of a senior executive's performance by the supervisor, and makes recommendations regarding performance ratings, performance awards, and pay-for-performance pay adjustments to the Chair.

The following individuals have been designated to serve on the Commission's Performance Review Board:

Dianne Campbell, Chief Human Capital Officer

Anisha Dasgupta, General Counsel

Monique Fortenberry, Director, Office of Workplace Inclusivity & Opportunity

Tara Koslov, Deputy Director, Bureau of Competition

Alison Oldale, Deputy Director, Bureau of Economics

David Robbins, Executive Director, PRB Chair

Monica Vaca, Deputy Director, Bureau of Consumer Protection

By direction of the Commission.

April J. Tabor,

Secretary.

BILLING CODE 6750–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Docket No. CDC–2023–0027, NIOSH–350]

World Trade Center Health Program; Youth Research Cohort; Request for Information

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Request for information; reopening of comment period.

SUMMARY: CDC's National Institute for Occupational Safety and Health (NIOSH) is extending the public comment period for a request for information (RFI) that was initially published April 26, 2023 and extended on August 18, 2023, regarding a World Trade Center (WTC) Health Program research cohort for future studies on health, social, and educational impacts among persons exposed to the September 11, 2001, terrorist attacks who were aged 21 years or younger at the time of their exposures. With this notice, the comment period is extended an additional 90 days to allow interested parties additional time to respond.

DATES: Comments must be received by January 29, 2024.

ADDRESSES: Comments may be submitted through either of the following two methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov> (follow the instructions for submitting comments), or

- *By Mail:* NIOSH Docket Office, Robert A. Taft Laboratories, MS C–34, 1090 Tusculum Avenue, Cincinnati, Ohio 45226–1998.

Instructions: All written submissions received in response to this notice must include the agency name (Centers for Disease Control and Prevention, HHS) and docket number (CDC–2023–0027, NIOSH–350) for this action. All relevant comments, including any personal information provided, will be posted without change to <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT:

Rachel Weiss, Program Analyst, 1090 Tusculum Ave., MS C–46, Cincinnati, OH 45226; Telephone (404) 498–2500 (this is not a toll-free number); Email NIOSHregs@cdc.gov.

SUPPLEMENTARY INFORMATION: The WTC Health Program was established by title I of the James Zadroga 9/11 Health and Compensation Act of 2010, Public Law

111–347, as amended by Public Law 114–113, Public Law 116–59, and Public Law 117–328, adding title XXXIII to the Public Health Service (PHS) Act (codified at 42 U.S.C. 300mm–300mm–62). All references to the Administrator in this document mean the Director of the NIOSH within CDC, or his or her designee.

The WTC Health Program conducts research among its members receiving monitoring or treatment in the Program and in sampled populations outside the New York City disaster area (NYCDA), as defined in section 3306(7) of the PHS Act, in Manhattan as far north as 14th Street and in Brooklyn.¹

In December 2022, the Consolidated Appropriations Act, 2023² amended section 3341 of the PHS Act to direct the Administrator, in consultation with the Secretary of Education, to establish a new research cohort. The cohort must be of sufficient size to conduct future research studies on the health and educational impacts of “exposure to airborne toxins, or any other hazard or adverse condition, resulting from the September 11, 2001, terrorist attacks, including on the population of individuals who were 21 years of age or younger at the time of exposure, including such individuals who are screening-eligible WTC survivors or certified-eligible WTC survivors.”³ The new WTC Health Program youth research cohort is referred to as “WTC Youth.” In accordance with section 3341, the cohort of WTC Youth must:

- Be of sufficient size to conduct future research studies on the health and educational impacts of 9/11 exposures;
- Include in this group sufficient representation of individuals who were 21 years of age or younger at the time of exposure; and
- Include in this group individuals who are screening-eligible WTC survivors or certified-eligible WTC survivors.

The cohort may also include individuals who were 21 years of age or younger on September 11, 2001, who were located outside the NYCDA and in Manhattan not further north than 14th Street; or anywhere within the borough of Brooklyn. Additionally, the cohort may include age-appropriate control populations as needed for research purposes.

¹ 42 U.S.C. 300mm–51.

² Public Law 117–328 (Dec. 29, 2022).

³ WTC survivors include individuals who lived, worked, went to school, or attended child or adult day care in the NYCDA on September 11, 2001, or in the following days, weeks, or months and those otherwise meeting the eligibility criteria in 42 CFR 88.7 or 88.8.

In response to these new requirements, the Administrator, following consultation with the Secretary of Education, will engage the public for input on a multi-phased approach for establishing the youth cohort. At this time, the Administrator seeks initial comments on the following approach:

1. *Phase I: Community Engagement:* Gather sufficient information from educators, scientists, and community members on options for establishing a youth cohort that will efficiently support future research.

2. *Phase II: Options Development:* Use the information gathered in Phase I to develop a set of options for moving forward with establishing the youth cohort.

3. *Phase III: Options Ranking:* Engage community in ranking the options developed in Phase II.

4. *Phase IV: Option Selection and Implementation:* Use the information from Phase III to select the preferred option(s) for establishing the youth cohort.

Request for Information

NIOSH previously published this request for information in the **Federal Register** (88 FR 25406) on April 26, 2023 and again on August 18, 2023 (88 FR 56630). With this request for information, NIOSH is further extending the public comment period and is again soliciting information from any interested party, including educators, researchers, clinicians, community members, WTC Health Program members, treatment providers, and government agencies at all levels (Federal, State, Territorial, local, and Tribal), regarding the proposed approach to establishing the WTC Health Program youth cohort.

In particular, NIOSH seeks comments on the following items regarding the general approach to assembling the cohort, as described above:

1. Whether the four-phased approach for establishing the youth cohort is comprehensive and adequately incorporates community involvement in selecting a preferred approach for establishing the youth cohort.

2. Any potential partnerships for future actions for establishing the cohort of WTC Youth.

NIOSH also seeks information on the following scientific parameters, best practices, and approaches for assembling a research cohort that is best suited for future research of WTC Youth:

3. Ideas regarding outreach, recruitment, retention, community involvement, and project oversight.

NIOSH is interested in descriptions of any anticipated barriers to the project and propose potential risk mitigation strategies.

4. Health conditions and potential social and educational impacts (*i.e.*, adverse effects of interest) that may be priorities for future research on WTC Youth. In light of these adverse effects to be researched, NIOSH is interested in descriptions of the cohort characteristics believed necessary to support future research, including recommendations on data collection requirements, such as describing methods for and frequency of contact with prospective cohort members.

5. The recruitment and retention of appropriate control group(s) for future observational studies of WTC Youth. For example, recruitment methods may differ between exposed and control groups given expected differences in participation rates. These differences may lead to a selection bias. A selection bias may also arise given the long period of time between exposure and recruitment (*i.e.*, a survivorship bias). NIOSH is interested in comments regarding selection of controls using methods that reduce the potential for bias in future research.

Commenters are encouraged to offer information and insights into the specific topics described above, or any other aspect of this activity.

CDC is extending the comment period for this RFI again to allow more time for the public to comment. Accordingly, the comment period is reopened through January 29, 2024.

Disclaimer

This notice is intended for planning purposes; it does not constitute a formal announcement for comprehensive applications. In accordance with Federal Acquisition Regulation 48 CFR 15.201(e), responses to this notice are not offers and cannot be accepted by the Government to form a binding award. NIOSH will not provide reimbursement for costs incurred in commenting on this notice.

NIOSH will not respond to individual public comments or publish publicly a compendium of responses. An informational submission in response to this notice does not create any commitment by or on behalf of CDC or

HHS to develop or pursue any program or ideas discussed.

John J. Howard,

Administrator, World Trade Center Health Program and Director, National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention, Department of Health and Human Services.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10652]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS' intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (the PRA), federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information (including each proposed extension or reinstatement of an existing collection of information) and to allow 60 days for public comment on the proposed action. Interested persons are invited to send comments regarding our burden estimates or any other aspect of this collection of information, including the necessity and utility of the proposed information collection for the proper performance of the agency's functions, the accuracy of the estimated burden, ways to enhance the quality, utility, and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments must be received by January 2, 2024.

ADDRESSES: When commenting, please reference the document identifier or OMB control number. To be assured consideration, comments and recommendations must be submitted in any one of the following ways:

1. *Electronically.* You may send your comments electronically to <http://www.regulations.gov>. Follow the instructions for "Comment or Submission" or "More Search Options"
