

INTERSPIRO S₉ AND S₉ INCURVE SCBA

This product advice refers to NIOSH Approval Number TC-13F-0962 issued by Interspiro and relates to identification of the 45 minute composite cylinder with part number 35689-01. This document provides information to ensure consistent and accurate identification of the cylinder part number and associated approval documentation.

The affected cylinder is equipped with a QR code on the DOT label. By scanning this QR code, the cylinder's part number and the corresponding NIOSH approval information can be accessed. The QR code directs to an online resource containing the applicable approval details.

The information can also be accessed by entering this URL:
<https://www.ctscyl.com/customer-area/manuals/>

To support clear identification, Interspiro will update future production so that the part number is printed directly on the cylinder label together with the QR code.

Interspiro confirms that there is no impact on user safety, and the cylinder as supplied continues to meet all applicable NIOSH safety and performance requirements under approval TC-13F-0962. No user action is required, users can continue to operate the equipment as normal.
