

NIOSH CENTER FOR MOTOR VEHICLE SAFETY STRATEGIC PLAN HIGHLIGHTS, 2020–2029

STRATEGY 1

Strengthen understanding of how risk factors contribute to work-related motor vehicle crashes and injuries, and communicate this information to employers, workers, and others.

STRATEGY 2

Develop and evaluate the effectiveness of engineering and technology-based interventions to prevent work-related motor vehicle crashes and injuries, and advance adoption of these interventions.

STRATEGY 3

Evaluate the effectiveness of motor vehicle safety management programs and practices and promote their adoption.

INDUSTRY SECTORS

The plan identifies needed research for four priority industry sectors and target actions for stakeholders. Its purpose is to guide NIOSH-funded research and encourage collaboration between the Center for Motor Vehicle Safety and external partners.

Oil and Gas Extraction

Public Safety

Transportation,
Warehousing, and
Utilities

Wholesale and
Retail Trade

Centers for Disease Control
and Prevention
National Institute for Occupational
Safety and Health
